RENEWAL LICENSE

INTRODUCTION

WHEREAS, Comcast of Massachusetts III, Inc., (hereinafter "Licensee"), is the duly authorized holder of a renewal license to operate a cable television system in the Town of Westminster, Massachusetts (hereinafter the "Town"), said license having commenced on December 30, 2004;

WHEREAS, there has been an opportunity for public comment, as required by Section 626(h) of the Cable Act;

WHEREAS, The Board of Selectmen as Issuing Authority finds that Licensee has complied with the terms of its previous license;

WHEREAS, the Issuing Authority has determined that the financial, legal, and technical ability of Licensee is reasonably sufficient to provide services, facilities, and equipment necessary to meet the future cable-related needs of the community, and desires to enter into this Renewal License with Licensee for the construction and continued operation of a cable system on the terms and conditions set forth herein;

NOW THEREFORE, after due and full consideration, the Issuing Authority and Licensee agree that this Renewal License is issued upon the following terms and conditions:

Nothing in this License shall be construed to prohibit Licensee from offering any service over its Cable System that is not prohibited by federal or state law.

(b) This Renewal License is granted under and in compliance with the Cable Act and M.G.L. c. 166A, and in compliance with all rules and regulations of the FCC and the Cable Division in force and effect during the period for which this Renewal License is granted.

(c) Subject to the terms and conditions herein, the Issuing Authority hereby grants to Licensee the right to construct, upgrade, install, operate and maintain a Cable System within the Public Way.

SECTION 2.2 - TERM: NON-EXCLUSIVITY [SEE M.G.L. c. 166A §3(d) and 13]

The term of this non-exclusive Renewal License shall be for a period of ten (10) years and shall commence on April 5, 2020, following the expiration of the current license, and shall expire at midnight on April 4, 2030.

SECTION 2.3 - POLE AND CONDUIT ATTACHMENT RIGHTS [SEE M.G.L. c. 166 §22-25]]

Pursuant to M.G.L. c. 166, §§22-25, permission is hereby granted to Licensee to attach or otherwise affix including, but not limited to cables, wire, or optical fibers comprising the Cable Television System to the existing poles and conduits on and under public streets and ways,

provided Licensee secures the permission and consent of the public utility companies to affix the cables and/or wires to their pole and conduit facilities. By virtue of this License the Issuing Authority grants Licensee equal standing with power and telephone utilities in the manner of placement of facilities on Public Ways.

(a) In accordance with the provisions of federal law, M.G.L. c. 166A, § 13 and applicable regulations, this Renewal License shall be subject to additional renewals for the periods not to exceed ten (10) years or such other periods as allowed by law.

(b) In accordance with applicable law, any such renewal or renewals shall be upon mutual written agreement by Licensee and the Issuing Authority and shall contain such modified or additional terms as Licensee and the Issuing Authority may then agree.

SECTION 2.5 - RESERVATION OF AUTHORITY

Nothing in this Renewal License shall (A) abrogate the right of the Issuing Authority to perform any public works or public improvements of any description, (B) be construed as a waiver of any ordinances, codes or bylaws of general applicability and not specific to the Cable Television System, Licensee, or this License, or (C) be construed as a waiver or release of the rights of the Issuing Authority in and to the Public Ways. This License is a contract and except as to those changes which are the result of the Issuing Authority's lawful exercise of its general police power, the Issuing Authority may not take any unilateral action which materially changes the explicit mutual promises in this License. Any changes to this License must be made in writing signed by the Licensee and the Issuing Authority. In the event of any conflict between this License and any Issuing Authority ordinance or regulation that is not generally applicable, this License shall control. Notwithstanding any other provision of this License, Licensee reserves the right to challenge provisions of any ordinance, rule, regulation, or

other enactment of the Issuing Authority that conflicts with its contractual rights under this License, either now or in the future.

SECTION 2.6 - NON-EXCLUSIVITY OF LICENSE

(a) Licensee acknowledges and agrees that the Issuing Authority reserves the right to grant one or more additional licenses or other authorizations to other Cable Service providers or wireline based video service providers within the Town for the right to use and occupy the Public Ways or streets within the Issuing Authority's jurisdiction. If any such additional or competitive license or other authorization is granted by the Issuing Authorities which, in the reasonable opinion of Licensee, contains more financially favorable or less burdensome terms or conditions than this Renewal License, including, but not limited to: franchise fees; payment schedules, insurance; system build-out requirements; performance bonds or similar instruments; public, education and government access channels and support; customer service standards; required reports and related record keeping; and notice and opportunity to cure breaches; the Issuing Authority agrees that it shall amend this Renewal License to include any more favorable or less burdensome terms or conditions.

(c) To the extent allowed by applicable law(s), the grant of any additional cable television license(s) or other authorization shall be on equivalent terms and conditions as those contained in this Renewal License.

(d) The issuance of additional license(s) shall be subject to all applicable federal and state laws, including M.G.L. c. 166A and applicable regulations promulgated thereunder.

(e) In the event that Licensee believes that any additional license(s) or other authorization has been granted on terms or conditions more favorable or less burdensome than those contained in this Renewal License, the Issuing Authority shall convene a public hearing on such issue, within not more than thirty (30) days of receipt of a hearing request from Licensee. Along with said written request, Licensee shall provide the Issuing Authority with written reasons for its belief. At the public hearing, the Issuing Authority shall afford Licensee an opportunity to demonstrate that any such additional license(s) are on terms more favorable or less burdensome than those contained in this Renewal License. Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested.

(f) Should Licensee demonstrate that any such additional license(s) or other authorization have been granted on terms and conditions more favorable or less burdensome than those contained in this Renewal License, the Issuing Authority shall make equitable amendments to this Renewal License within a reasonable time.

(g) In the event that Licensee demonstrates that an existing or future Cable Service provider or wireline based video service provider in the Town has been provided relief by the Issuing Authority from any obligation of its license, then Licensee shall be awarded an equivalent amount of relief from obligations herein. Such relief shall be in writing and in the form of an amendment to this License. The Issuing Authority shall convene a public hearing on the issue within sixty (60) days of Licensee's notification to the Issuing Authority requiring such relief, unless otherwise mutually agreed to. Licensee shall provide reasons for its belief in the notification. At the public hearing, the Issuing Authority shall afford Licensee an opportunity to demonstrate that any existing or future service providers in the Town have been provided relief by the Issuing Authority from any obligation of its cable television license. Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested to justify its belief;

provided, however, that the parties' counsels mutually and reasonably deem said information is non-proprietary.

ARTICLE 3

SYSTEM SPECIFICATIONS AND CONSTRUCTION

SECTION 3.1 - AREA TO BE SERVED [SEE M.G.L. c. 166A §3(a)]

(a) Licensee shall continue to make Cable Service available to every residential dwelling unit within the Town that currently has Cable Service available to it from the Licensee. The Licensee shall make Cable Service available to every residential dwelling unit within the Town where the minimum density is (i) fifteen (15) dwelling units per aerial mile; or (ii) thirty-five (35) dwelling units per underground mile. For non-Standard Installations, the Licensee shall offer Cable Service within ninety (90) days of a Subscriber requesting such for aerial installations and one hundred eighty (180) days, weather permitting, of a Subscriber requesting such for underground installations, subject to Force Majeure and the completion of utility pole make ready.

(b) Provided Licensee has at least ninety (90) days prior written notice concerning the opening of residential subdivision trenching, or of the installation of conduit for the location of utilities, it shall install its cable in such trenching or conduits or may seek permission to utilize alternative trenching or conduits within a comparable time frame. If a substantial quantity of cable is required for a large subdivision and said quantity is not in stock, the Licensee shall be allowed additional time for said installation so long as such additional time does not result in additional cost to the project developer or the Town. The Issuing Authority, or its designee, shall exercise reasonable efforts to have the Planning Board and developers give timely written notice of trenching and underground construction to the Licensee. The Developer shall be responsible for the digging and back-filling of all trenches.

(c) The Cable System shall be further extended to all areas in the Town that do not meet the requirements of Section 3.1(a) or (b) above upon the request of dwelling unit owners in such areas and based upon the following cost calculation: The cost of wiring such areas shall be calculated by taking the capital cost of extending such Service divided by the number of dwelling units in such area minus the costs of extending Service to dwelling units in an area along the Public Ways that meets the required number of dwelling units per aerial or underground mile of cable plant and/or fractional proportion thereof density requirement specified in subsection (a) above. The resulting cost shall equal the per dwelling unit contribution relating to line extension of Cable Service in that particular area of the Town, or

$$\frac{C}{LE} - \frac{CA}{P} = SC$$

- * C equals the cost of construction of new plant from existing Cable System plant;
- * LE equals the number of dwelling units requesting Service in the line extension area and who subsequently pay a contribution in aid;
- * CA equals the average cost of construction per mile in the primary service area;
- * P equals the required number of dwelling units per mile as measured from termination of the Licensee's Trunk and Distribution System; and
- * SC equals the per dwelling unit contribution in aid of construction in the line extension area.

(d) In those areas with less than the required number of dwelling units per mile as provided in Section 3.1(a) above, the Licensee shall, within thirty (30) days following a request for service, conduct a survey to determine the number of dwelling units in the immediate area and shall inform each participating dwelling unit of the contribution in aid of construction (see Section 3.1(c) above that will be charged. The Licensee shall apply for pole attachment agreements within sixty (60) days of receiving the contribution in aid of construction from all subscribing dwelling units. Cable Television Service(s) shall be made available and fully activated to all requesting dwelling units who made a contribution in aid of construction within sixty (60) days of receipt of pole attachment agreements by the Licensee, subject to Force Majeure (including the performance of make ready).

SECTION 3.2 – INSTALLATION CHARGES

Any dwelling unit within two hundred feet (200') aerial or two hundred feet (200') underground from the feeder cable shall be entitled to a Standard Installation rate, unless the sub-surface of an underground installation is a hard surface or requires boring through rock or a similar hard surface (i.e. concrete, asphalt, etc.). All other installations are considered non-standard installations. For underground installations more than two hundred feet (200'), not involving a hard surface, the first two hundred feet (200') shall be at the Standard Installation rate. For aerial installations more than two hundred feet (200'), the first two hundred feet (200') shall be at the Standard Installation rate.

SECTION 3.3 -- SUBSCRIBER NETWORK

Licensee shall maintain a Cable Television System, fully capable of carrying a minimum bandwidth of 750MHz.

SECTION 3.4 - PARENTAL CONTROL CAPABILITY

(a) Pursuant to applicable law, upon request, and at no separate, additional charge, Licensee shall provide Subscribers with the capability to control the reception of any channel on the Cable System.

(b) The Issuing Authority acknowledges that the parental control capability may be part of a converter box and Licensee may charge Subscriber for use of said box.

SECTION 3.5---EMERGENCY ALERT OVERRIDE CAPACITY

Licensee shall comply with the FCC's Emergency Alert System ("EAS") regulations.

ARTICLE 4
TECHNOLOGICAL AND SAFETY STANDARDS

SECTION 4.1 - SYSTEM MAINTENANCE [SEE M.G.L. c. 166A §5]

(a) In installing, operating and maintaining equipment, cable and wires, Licensee shall avoid damage and injury to trees, structures and improvements in and along the routes authorized by the Issuing Authority, except as may be approved by the Issuing Authority if required for the proper installation, operation and maintenance of such equipment, cable and wires.

(b) The construction, maintenance and operation of the Cable Television System for which this Renewal License is granted shall be done in conformance with all applicable laws, ordinances/bylaws of general applicability, codes and regulations, including but not limited to OSHA, the National Electrical Safety Code, and the rules and regulations of the FCC as the same exist or as same may be hereafter changed or amended.

(c) Operating and maintenance personnel shall be trained in the use of all safety equipment and the safe operation of vehicles and equipment. Licensee shall install and maintain its equipment, cable and wires in such a manner as shall not interfere with any installations of the Town or any public utility serving the Town.

(d) All structures and all equipment, cable and wires in, over, under, and upon streets, sidewalks, alleys, and public rights of ways of the Town, wherever situated or located shall at all times be kept and maintained in a safe and suitable condition and in good order and repair.

(e) The signal of any Broadcast station carried on the Cable Television System shall be carried without material degradation in quality at all subscribing locations within the limits imposed by the technical specifications of the Cable System and as set forth by the FCC. The Cable System shall be operated and maintained so as to comply with the technical standards set forth in the FCC's rules and regulations as they apply to cable television systems.

(f) Upon written notice from the Issuing Authority, Licensee shall remedy a general deficiency with respect to the technical standards described herein within three (3) months of receipt of notice and a safety deficiency within forty-eight (48) hours of receipt of notice and shall notify the Issuing Authority when the deficiency has been corrected.

SECTION 4.2 - REPAIRS AND RESTORATION [SEE M.G.L. c. 166A §5(g)]

Whenever Licensee takes up or disturbs any pavement, sidewalk or other improvement of any public right of way or public place, the same shall be replaced and the surface restored in as good condition as possible as before entry as soon as practicable. If Licensee fails to make such restoration within a reasonable time, the Issuing Authority may fix a reasonable time for such restoration and repairs, and shall notify Licensee in writing of the restoration and repairs required and the time fixed for the performance thereof. Upon failure of Licensee to comply within the time specified, the Issuing Authority may cause proper restoration and repairs to be made and the expense of such work shall be paid by Licensee upon written demand by the Issuing Authority. However, prior to such repair or restoration the Town should submit a written estimate to Licensee of the actual cost of said repair or restoration.

SECTION 4.3 - CABLE LOCATION

(a) In all areas of the Town where all of the transmission and distribution facilities of all public or municipal utilities are installed underground, Licensee shall install its Cable System underground provided that such facilities are actually capable of receiving the Licensee's cable and other equipment without technical degradation of the Cable System's signal quality.

(b) In all areas of the Town where public utility lines are aerially placed, if subsequently during the term of the Renewal License such public utility lines are required by local ordinance or State law to be relocated aerially or underground, Licensee shall similarly relocate its Cable System if it is given reasonable notice and access to the public and municipal utilities facilities at the time

that such are placed underground. Any costs incurred by Licensee for relocating utility poles or trenching for the placement of underground conduits shall be entitled to reimbursement of such relocation costs in the event public or private funds are raised for the project and made available to other users of the Public Way.

(d) Nothing in this Section shall be construed to require Licensee to construct, operate, or maintain underground any ground-mounted appurtenances such as customer taps, line extenders, system passive devices, amplifiers, power supplies, pedestals, or other related equipment.

SECTION 4.4 - TREE TRIMMING [SEE M.G.L.c. 166A §5(a)]

In installing, operating, and maintaining equipment, cable and wires, it shall avoid all unnecessary damage and injuries to trees, structures, and improvements in and along the routes authorized by the issuing authority.

SECTION 4.5 – PLANT MAPS

Licensee shall maintain a complete set of plant maps of the Town, which will show those areas in which its facilities exist. The plant maps will be retained at Licensee's primary place of business and will be available to the Issuing Authority for inspection by the Issuing Authority upon written request.

SECTION 4.6 - BUILDING MOVES [SEE M.G.L. c. 166 §39]

(a) In accordance with applicable laws, Licensee shall, upon the written request of any Person holding a building moving permit issued by the Town, temporarily raise or lower its wires to permit the moving of the building(s). Licensee shall be given not less than thirty (30) days' advance written notice to arrange for such temporary wire changes. The cost to raise or lower wires shall be borne by the Person(s) holding the building move permit.

(b) Licensee shall have the right to seek reimbursement under any applicable insurance or government program for reimbursement.

SECTION 4.7 - DIG SAFE [SEE M.G.L. c. 82 §40]

Licensee shall comply with all applicable “dig safe” provisions pursuant to M.G.L. c. 82, § 40.

SECTION 4.8 - DISCONNECTION AND RELOCATION [SEE M.G.L. c. 166 §39]

(a) Licensee shall, at its sole cost and expense, protect, support, temporarily disconnect, relocate in the same street, or other Public Right of Ways, or remove from any street or any other Public Ways and places, any of its property as required by the Issuing Authority or its designee by reason of traffic conditions, public safety, street construction, change or establishment of street grade, or the construction of any public improvement or structure by any Town department acting in a governmental capacity.
