

# WARE RIVER FY 2018 FORESTRY LOT PROPOSALS

- Proposed Lot
- River, Stream
- Lakes and Ponds
- WRL\_Boundary

# Ware River Lots

# WR-18-8-1

## Whitehall Road Lot

- This 37 acre lot is predominately white pine type with some pitch pine and oak. Southeast corner is predominately mixed oak type.
- Our goal is to create a pine barren in the western section, a few 2 acre openings in the northeast section and a few 0.25-1 acre openings in the southeast section.
- The old well along Whitehall road will be protected

# WR-18-18-2

## Old Coldbrook Road lot

- This 27 acre lot contains a red pine plantation, spruce plantation and a white pine hardwood stand.
- Our goal is to remove the plantations and some of the poor quality white pine in openings up to 3 acres in size.
- A visual buffer will be maintained along route 122
- Cultural resources (foundations) will be protected

# WR-18-18-3

## Rail Trail lot

This 84 acre lot is predominately the white pine- oak forest type

Our goal is to regenerate a total of about 20 acres by removing sections poor quality white pine in openings that range in size from 0.5- 5.0 acres .

Old rock quarry will be protected.

# WR-18-28-4

## Fisher Road lot

This 107 acre lot is predominately poor quality white pine hardwood type but also includes about 20 acres of oak type.

Our goal is to regenerate some of the poor quality white pine sections by creating openings up to 2 acres in size.

Vernal pools in this area will also impact opening locations

# WR-18-28-5

## Rice Road lot

This 32 acre lot is predominately white pine.

Our goal is to release advance regeneration by creating openings up to 5 acres in size.

Vernal pool will impact landing layout and opening placement.

All openings on all lots that are over 0.5 acres will have some large trees retained.
