Said signs shall comply with the Department's signage guidelines (see instructions) and shall be posted immediately upon license issuance or completion of construction. Nothing in this condition shall be construed as preventing the Licensee from excluding the public from portions of said structure(s) or property not intended for lateral passage.

In partial compensation for the private use of structures and/or fill on tidelands and/or private tidelands and/or Great Ponds which interferes with the rights of the public to use such lands, the Licensee shall allow the public to pass on foot, for any purpose and from dawn to dusk, within the area of the subject property lying seaward of the high water mark or, for Great Ponds within the public access way delineated on the License plan/or within 5 feet of the ordinary high water shoreline. Further, the exercise by the public of free on-foot passage in accordance with this condition shall be considered a permitted use to which the limited liability provisions of M.G.L. c.21, s17c shall apply.

9c. Within areas of salt marsh, structures shall be constructed with a minimum height of 4 feet above ground level measured from the bottom of the stringer, and maximum width of 4 feet, or at a 1:1 ratio so as not to have an adverse impact on the salt marsh or aquatic vegetation. Whereas, the width of the pier maybe equal to but not greater than the height. Any ladders shall be constructed of durable materials, shall be fixed to the pier in such a manner so as not to rest on the marsh, shall have a minimum width of 2.0 feet, and shall have adequate railings extending above the pier/dock decking in order to facilitate safe passage.

10b. Vessels shall be moored such that they do not become grounded at any tide.

10c. No dredging (including, but not limited to effects of prop wash) is permitted herein.
