
WW07 – 401 Major Dredging (5000 cubic yards or greater) Project Application

MassDEP Bureau of Water Resources, Waterways & Wetlands

EEA ePlace Portal

Overview

- ❑ This presentation is to assist in completing a new **WW07 – 401 Major Dredging (5000 cubic yards or greater) Project Application**.
- ❑ Dredging projects which must obtain federal licenses, and which would result in a discharge to state waters, must apply for this permit.
- ❑ The federal Clean Water Act requires a 401 Water Quality Certification for certain activities in wetlands and waters. This law gives states the authority to review projects that must obtain federal licenses or permits and that result in a discharge to state waters.
- ❑ The purpose of state 401 review is to ensure that a project will comply with state water quality standards and other appropriate requirements of state law.
- ❑ This presentation will take you screen by screen through the ePLACE online permitting application process.
