# WW10 - 401 Major Fill and Excavation Project Application

MassDEP Bureau of Water Resources, Waterways & Wetlands

**EEA ePlace Portal**

# Overview

---

- ❑ This presentation is to assist in completing a new **WW10 - 401 Major Fill and Excavation Project Application**.
- ❑ This permit is for projects that propose some fill in a wetland area. The permit also covers projects in submerged land or salt marshes, or that may impact rare species.
- ❑ The federal Clean Water Act requires a 401 Water Quality Certification for certain activities in wetlands and waters. This law gives states the authority to review projects that must obtain federal licenses or permits and that result in a discharge to state waters.
- ❑ The purpose of state 401 review is to ensure that a project will comply with state water quality standards and other appropriate requirements of state law.
- ❑ This presentation will take you screen by screen through the ePLACE online permitting application process.
