

## LRFD BRIDGE MANUAL

### PART I: DESIGN GUIDELINES

#### TABLE OF CONTENTS

##### INTRODUCTION TO THE PURPOSE AND USE OF THIS BRIDGE MANUAL

i.	Purpose.....	i - 1
ii.	Use of this Bridge Manual .....	i - 1

##### INTRODUCTION TO THE PURPOSE AND USE OF THE JANUARY 2020 REVISION TO THE 2013 LRFD BRIDGE MANUAL

i.	Purpose.....	ii - 1
ii	Use of the January 2020 Revision.....	ii - 1

##### CHAPTER 1: BRIDGE SITE EXPLORATION

1.1	SURVEY FOR BRIDGES .....	1 - 1
1.1.1	General .....	1 - 1
1.1.2	Bridge Grid Survey.....	1 - 1
1.1.3	Bridge Detail Survey .....	1 - 1
1.1.4	Additional Survey for Bridges over Railroads .....	1 - 2
1.1.5	Survey for Streams .....	1 - 2
1.2	BORINGS FOR BRIDGES.....	1 - 7
1.2.1	General .....	1 - 7
1.2.2	Boring Plan.....	1 - 7
1.2.3	Definitions .....	1 - 8
1.2.4	Depth and Location .....	1 - 8
1.2.5	Other Subsurface Exploratory Requirements .....	1 - 9
1.2.6	Ground Water Observation Wellpoint.....	1 - 10
1.2.7	Inaccessible Boring Locations.....	1 - 10
1.2.8	Presentation of Sub-Surface Exploration Data .....	1 - 10
1.3	HYDROLOGY AND HYDRAULICS .....	1 - 11
1.3.1	Introduction .....	1 - 11
1.3.2	Hydraulic Design Criteria.....	1 - 11
1.3.3	Hydraulic Study Procedure.....	1 - 13
1.3.4	Hydraulic and Scour Design Flood Selection Guidelines .....	1 - 22
1.3.5	Guidelines for "No-Rise" Encroachment Reviews for Proposed MassDOT Bridges Crossing NFIP Regulatory Floodway Delineations .....	1 - 23
1.3.6	Hydraulic Study References .....	1 - 24

## CHAPTER 2: PRELIMINARY ENGINEERING GUIDELINES

2.1	GENERAL .....	2 - 1
2.1.1	Purpose of Preliminary Engineering .....	2 - 1
2.1.2	Goal of a Bridge Project.....	2 - 1
2.1.3	Preliminary Engineering Decision Making Methodology .....	2 - 2
2.1.4	Use of Accelerated Bridge Construction (ABC) Methods.....	2 - 2
2.1.5	Preliminary Engineering Phase Deliverables.....	2 - 4
2.2	CONTEXT SENSITIVITY AND AESTHETICS .....	2 - 5
2.2.1	General Objectives.....	2 - 5
2.2.2	Understanding the Context.....	2 - 5
2.2.3	Bridge Aesthetics .....	2 - 6
2.3	NEW BRIDGE AND BRIDGE REPLACEMENT PROJECTS .....	2 - 6
2.3.1	General Objectives.....	2 - 6
2.3.2	Bridge Type Selection Process .....	2 - 7
2.3.3	Requirements for Bridge Inspection Access.....	2 - 8
2.3.4	Appropriate Bridge Structure Types by Span Range.....	2 - 9
2.3.5	Substructure Location Guidelines .....	2 - 13
2.3.6	Superstructure Selection Guidelines .....	2 - 17
2.3.7	Prefabricated Bridge Elements and Systems (PBES) and Prefabricated Bridge Units (PBU's) .....	2 - 19
2.3.8	Instructions for Completing the Bridge Type Selection Worksheet .....	2 - 19
2.4	BRIDGE REHABILITATION AND SUPERSTRUCTURE REPLACEMENT PROJECTS .....	2 - 26
2.4.1	General Guidelines.....	2 - 26
2.4.2	Preliminary Structure Report .....	2 - 28
2.4.3	Selecting between Bridge Rehabilitation and Bridge Replacement.....	2 - 34
2.5	GEOTECHNICAL REPORT .....	2 - 35
2.5.1	General.....	2 - 35
2.5.2	Report Outline.....	2 - 36
2.6	HYDRAULIC REPORT .....	2 - 38
2.6.1	General.....	2 - 38
2.6.2	Report Outline.....	2 - 40
2.7	TEMPORARY WATER CONTROL MEASURES MEMORANDUM.....	2 - 46
2.7.1	General .....	2 - 46
2.7.2	Memorandum Outline .....	2 - 46
2.8	SKETCH PLANS .....	2 - 47
2.8.1	Introduction.....	2 - 47
2.8.2	Data Required for the Preparation of Sketch Plans.....	2 - 48
2.8.3	Preparation of Sketch Plans .....	2 - 48
2.8.4	Submittals and Approvals .....	2 - 53

## CHAPTER 3: BRIDGE DESIGN GUIDELINES

3.1	DESIGN CRITERIA.....	3 - 1
3.1.1	Design Specifications.....	3 - 1

3.1.2	Critical and Essential Bridges.....	3 - 1
3.1.3	Live Load.....	3 - 2
3.1.4	Design Methods.....	3 - 2
3.1.5	Design Software .....	3 - 3
3.1.6	Earth Pressure Computations .....	3 - 4
3.1.7	Bridge Railings/Barriers.....	3 - 4
3.1.8	Temperature.....	3 - 6
3.1.9	Reinforcing Steel.....	3 - 7
3.2	BRIDGE FOUNDATIONS.....	3 - 7
3.2.1	General .....	3 - 7
3.2.2	Pile Foundations.....	3 - 8
3.2.3	Drilled Shafts.....	3 - 9
3.2.4	Micropiles.....	3 - 11
3.2.5	Permanent and Temporary Support of Excavation.....	3 - 14
3.2.6	Gravel Borrow for Bridge Foundations.....	3 - 15
3.2.7	Crushed Stone for Bridge Foundations .....	3 - 15
3.2.8	Foundations on Rock.....	3 - 16
3.2.9	Pre-loaded Areas .....	3 - 16
3.2.10	Scour Considerations.....	3 - 16
3.3	SUBSTRUCTURE DESIGN .....	3 - 17
3.3.1	General .....	3 - 17
3.3.2	Walls: Abutments, Wingwalls, and Retaining Walls .....	3 - 20
3.3.3	Piers.....	3 - 22
3.3.4	Reinforced Concrete Box Culverts.....	3 - 22
3.4	SEISMIC ANALYSIS AND DESIGN.....	3 - 24
3.4.1	Design Requirements.....	3 - 24
3.4.2	Seismic Hazard Maps .....	3 - 26
3.4.3	Analysis and Design Methodology.....	3 - 27
3.4.4	Design Procedures for Conventional Bridges Classified as SDC A.....	3 - 35
3.4.5	Design Procedures for Bridges Classified as SDC B, C, or D .....	3 - 38
3.4.6	Other Seismic Design Considerations .....	3 - 39
3.4.7	Design Procedures for Non-Conventional Bridges Regardless of SDC.....	3 - 40
3.4.8	Modeling and Design of Bridge Bearings for Seismic Analysis.....	3 - 40
3.4.9	Seismic Design of Wingwalls and Retaining Walls.....	3 - 42
3.5	SUPERSTRUCTURE DESIGN.....	3 - 42
3.5.1	Composite Design .....	3 - 42
3.5.2	Deck Slabs.....	3 - 44
3.5.3	Distribution of Loads on Stringer Bridges .....	3 - 46
3.5.4	Distribution of Loads on NEXT Beam Bridges .....	3 - 53
3.5.5	Utilities on Structures .....	3 - 54
3.5.6	Deflection and Camber.....	3 - 55
3.5.7	Elastomeric Bridge Bearing Assemblies .....	3 - 56
3.5.8	Scuppers .....	3 - 65
3.6	STEEL SUPERSTRUCTURES .....	3 - 66
3.6.1	General Guidelines .....	3 - 66
3.6.2	Cover Plates.....	3 - 69

3.6.3	Welded Plate Girders .....	3 - 70
3.6.4	Welded Box Girders.....	3 - 70
3.6.5	Splices and Connections .....	3 - 72
3.7	PRESTRESSED CONCRETE SUPERSTRUCTURES.....	3 - 73
3.7.1	Standard Beam Sections.....	3 - 73
3.7.2	Materials and Fabrication.....	3 - 73
3.7.3	General Design Requirements .....	3 - 74
3.7.4	Continuity Design for Prestressed Concrete Beam Bridges.....	3 - 75
3.7.5	Design of NEBT Beams Post-Tensioned for Continuity .....	3 - 76
3.7.6	Longitudinal Stiffness Parameter, Kg, for NEXT D and NEDBT Beams .....	3 - 76
3.8	ADJACENT PRECAST PRESTRESSED CONCRETE DECK AND BOX BEAM BRIDGES .....	3 - 77
3.8.1	General Requirements.....	3 - 77
3.8.2	Distribution of Loads to Adjacent Precast Prestressed Concrete Beam Bridges .....	3 - 78
3.8.3	Utilities on Adjacent Precast Prestressed Concrete Deck and Box Beam Bridges .....	3 - 82
3.9	PRECAST CONCRETE FULL DEPTH DECK PANELS (FDDP) .....	3 - 83
3.9.1	General.....	3 - 83
3.9.2	Materials and Fabrication.....	3 - 84
3.9.3	General Design Requirements .....	3 - 84
3.9.4	Construction.....	3 - 86
3.10	DESIGN AND ANALYSIS OF INTEGRAL ABUTMENT BRIDGES .....	3 - 87
3.10.1	General.....	3 - 87
3.10.2	Loads, Load Factors, and Load Combinations.....	3 - 87
3.10.3	Superstructure Types.....	3 - 88
3.10.4	Approach Slabs .....	3 - 88
3.10.5	Abutment Backfill and Drainage .....	3 - 89
3.10.6	Construction of Integral Abutments.....	3 - 89
3.10.7	Superstructure Design Methodology.....	3 - 89
3.10.8	Pile Cap and Abutment Diaphragm Design.....	3 - 89
3.10.9	Integral Wingwall Design .....	3 - 91
3.10.10	Piles.....	3 - 92
3.10.11	Pile Design.....	3 - 92
3.10.12	References.....	3 - 99
3.11	REHABILITATION OF STRUCTURES.....	3 - 101
3.11.1	General Requirements.....	3 - 101
3.11.2	Options for Increasing Carrying Capacity .....	3 - 101
3.11.3	Fatigue Retrofits.....	3 - 102
3.12	ANCILLARY STRUCTURES .....	3 - 102
3.12.1	Pedestrian Bridges.....	3 - 102
3.12.2	Temporary Bridges .....	3 - 102
3.12.3	Sign Attachments to Bridges and Walls.....	3 - 103
3.13	BRIDGE INSPECTION .....	3 - 104
3.13.1	Bridge Inspection Access.....	3 - 104
3.13.2	Fracture Critical Bridge Inspection Procedures .....	3 - 104

3.13.3	Item 113 Coding for Bridges over Water .....	3 - 105
3.13.4	Bridges Requiring Special Inspection and Maintenance Procedures .....	3 - 107

#### **CHAPTER 4: CONSTRUCTION DRAWINGS**

4.1	GRAPHICAL STANDARDS .....	4 - 1
4.2	PREPARATION OF CONSTRUCTION DRAWINGS .....	4 - 1
4.2.1	General .....	4 - 1
4.2.2	Organization .....	4 - 1
4.3	STRUCTURAL SUBMITTALS .....	4 - 7
4.3.1	General .....	4 - 7
4.3.2	First Structural Submittal (S1).....	4 - 7
4.3.3	Second Structural Submittal (S2) .....	4 - 7
4.3.4	Final Structural Submittal (SF).....	4 - 7
4.3.5	Submittal of Mylars .....	4 - 8
4.4	REVISIONS TO CONSTRUCTION DRAWINGS.....	4 - 8
4.4.1	Approval Procedure.....	4 - 8
4.4.2	Revising Construction Drawings.....	4 - 10
4.4.3	Distribution of Revised Construction Drawings .....	4 - 11

#### **CHAPTER 5: SPECIAL PROVISIONS AND ESTIMATE**

5.1	GENERAL .....	5 - 1
5.2	SPECIAL PROVISIONS .....	5 - 1
5.2.1	General .....	5 - 1
5.2.2	Responsibility of the Designer .....	5 - 1
5.2.3	Payment Items .....	5 - 3
5.2.4	Prefabricated Bridge Elements .....	5 - 3
5.2.4	Preparing a Lump Sum Item.....	5 - 4
5.2.5	Schedule of Basis for Partial Payment .....	5 - 5
5.3	QUANTITY CALCULATIONS .....	5 - 6
5.3.1	General .....	5 - 6
5.3.2	Standard Nomenclature for Bridge Related Items.....	5 - 6
5.3.3	Guidelines for Estimating Quantities .....	5 - 7
5.4	PREPARATION OF ESTIMATE.....	5 - 11
5.4.1	General .....	5 - 11
5.4.2	Unit Prices .....	5 - 11
5.4.3	Submittals .....	5 - 12

#### **CHAPTER 6: SHOP DRAWINGS, CONSTRUCTION PROCEDURES, AND OTHER SUBMISSIONS**

6.1	APPROVAL PROCESS.....	6 - 1
6.1.1	General Shop Drawing Submission Procedure .....	6 - 1
6.1.2	Structural Steel Shop Drawing Requirements .....	6 - 1
6.1.3	Approval of Shop Drawings .....	6 - 1

6.1.4	Designer's Responsibility in Reviewing and Approving Shop Drawings .....	6 - 3
6.1.5	Communication from Contractors, Fabricators, and Suppliers.....	6 - 4
6.2	SHOP DRAWINGS .....	6 - 5
6.2.1	Structural.....	6 - 5
6.2.2	Traffic .....	6 - 6
6.2.3	Distribution .....	6 - 7
6.3	EFFECT OF CONTRACT DRAWING REVISIONS ON SHOP DRAWINGS .....	6 - 8
6.4	CONSTRUCTION PROCEDURES.....	6 - 8
6.4.1	Reviewing Construction Procedures.....	6 - 8
6.4.2	Distribution .....	6 - 9

## CHAPTER 7: BRIDGE LOAD RATING GUIDELINES

7.1	POLICY .....	7 - 1
7.1.1	Purpose.....	7 - 1
7.1.2	Rating Specifications .....	7 - 1
7.1.3	Definitions.....	7 - 2
7.1.4	Qualifications.....	7 - 2
7.1.5	Field Verification .....	7 - 2
7.1.6	Load Rating Software .....	7 - 2
7.1.7	Units.....	7 - 3
7.2	GENERAL LOAD RATING REQUIREMENTS .....	7 - 3
7.2.1A	Bridge Projects Designed using LRFD.....	7 - 3
7.2.1B	Bridge Projects Designed using ASD/LFD.....	7 - 3
7.2.2	Elements Requiring Load Rating.....	7 - 4
7.2.3	Dead Loads .....	7 - 5
7.2.4	Live Loads .....	7 - 7
7.2.5	Special Instructions for Load Ratings.....	7 - 14
7.2.6	Special Instructions for Load Ratings of Prestressed Concrete Members including Adjacent Prestressed Concrete Beams .....	7 - 16
7.2.7	Special Instructions for Load Ratings of Stone Masonry Arches .....	7 - 17
7.2.8	Special Instructions for Load Rating of Reinforced Concrete Arches.....	7 - 19
7.2.9	Special Instructions for Load Rating of Corroded Steel Beam Webs.....	7 - 20
7.2.10	Special Instructions for Load Rating of Deteriorated Prestressed Beams .....	7 - 25
7.2.11	Guidelines for Preparing the Evaluation of Rating and Recommendations.....	7 - 27
7.3	REPORT SUBMITTAL REQUIREMENTS.....	7 - 28
7.3.1	Submittal Requirements and Submittal Media .....	7 - 28
7.3.2	Report Distribution .....	7 - 29
7.3.3	Checklist .....	7 - 29
7.4	CALCULATIONS AND INPUT FILE FORMAT.....	7 - 30
7.4.1	Hand and Electronic Calculations.....	7 - 30
7.4.2	BrR Input File Submission.....	7 - 30
7.4.3	Check of Calculations Submission.....	7 - 32
7.5	RATING REPORT .....	7 - 32
7.5.1	Preparation and Format.....	7 - 32

7.5.2	Report Organization .....	7 - 33
7.5.3	AVAILABLE PLANS.....	7 - 35

## **CHAPTER 8: SPECIAL PERMIT VEHICLE ANALYSIS GUIDELINES**

8.1	POLICY .....	8 - 1
8.1.1	Purpose .....	8 - 1
8.1.2	Existing Inventoried Routes .....	8 - 1
8.1.3	Definitions .....	8 - 2
8.1.4	Qualifications .....	8 - 2
8.1.5	Field Inspection .....	8 - 2
8.1.6	Undocumented Bridge Structures.....	8 - 2
8.2	APPLICATION OF LIVE LOADS AND LOAD RATING INSTRUCTIONS .....	8 - 3
8.2.1	Objective.....	8 - 3
8.2.2	Live Loads .....	8 - 3
8.2.3	Special Instructions for Special Permit Vehicle Analysis .....	8 - 3
8.3	SPECIAL PERMIT VEHICLE ANALYSIS REPORT .....	8 - 4
8.3.1	Format .....	8 - 4
8.3.2	Submission and Processing Protocol .....	8 - 6
8.4	PRIVATELY OWNED AND OTHER AGENCY OWNED STRUCTURES.....	8 - 6

## **APPENDIX: USGS SEISMIC HAZARD CONTOUR MAPS FOR THE 2500-YR RETURN PERIOD**
