## DMH Child, Youth, and Families Division Services

SERVICES   DESCRIPTION     Child/Adolescent Case Management   At any point in time, approximately 600 youth receive this service which includes assessment of needs, service planning development and monitoring, service referral and care coordination, and family/caregiver support.     Individual and Family Support Services   These services provide interventions based on child and family needs.     Day Services   Highly structured therapeutic milieus in which children and youth participate after school, on weekends and during vacation times that offer treatment, symptom management, behavior management training, social skill development and recreation.     Caring Together Services   Caring Together is a unique collaboration between DMH and the Department of Children and Families which creates seamlessness in services, quality and evaluation for all youth in need of out-of-home services using models such as intensive community-based wrap-around teams and residential school placements among them.     Intensive Statewide Programs   This array of service is the most intensive, 24-hour in locked facilities available in the Commonwealth for youth with serious emotional disturbance. Includes Intensive Residential Treatment Programs (IRTP), Clinically Intensive Residential Treatment (CIRT) and hospital-based Continuing Care Inpatient Services.     Parent and Family Support   Provides information and support of milies of children with mental health challenges. Includes information and regrerici, individual community advocacy; parent support groups; targeted supports; and expedited access to services for parents with mental illness.
