

## SECTION 2

SCALE: 1" = 1'-0"

**NOTES:**

1. Bars size and spacing shall be designed and detailed to satisfy SDC B and up. See Chapter 3, Part I of this Bridge Manual.
2. The reinforcement configuration shown is conceptual. The Designer shall design and modify the arrangement as required by AASHTO LRFD Seismic Bridge Design Specifications.
3. See Section 3.4, Part II of this Bridge Manual, for striation details.
4. For design of vertical reinforcing and gouted splice couplers, design for largest diameter coupler and specify distance to the bar. See Dwg. No. 4.1.6 for gouted splice coupler Designer Notes.
