

CORRUGATED METAL PIPE DIAMETERS

<i>Pile Size</i>	<i>CMP Diameter</i>
<i>HP12X84</i>	<i>24"</i>
<i>HP10X57</i>	<i>21"</i>

NOTES:

1. The CMP diameters shown above shall be specified and provide adequate tolerance after pile driving.
2. The Designer may elect to use larger diameter CMP's, but will need to ensure adequate cover and strength requirements in the vicinity of the piles.
3. CMP shall conform to the requirements of AASHTO M36.
