With respect to areas not built as of the Effective Date of this Renewal License, the Cable Television System shall be extended automatically, at the Licensee's sole cost and expense, from existing cable plant to any and all areas of the Town containing twenty (20) residences per aerial and/or underground mile of cable plant or fractional proportion thereof. Said service shall be made available and fully activated to requesting Subscribers no later than sixty (60) days after the Licensee's receipt of permission to attach cable to poles.

Section 4.2---LINE EXTENSION

(a) Subject to the provisions of the following paragraphs (b), (c), (d) and (e), any potential Subscriber located in an area of the Town built after the Effective Date of this Renewal License and without Cable Service, may request Cable Service from the Licensee. The Licensee shall extend Cable Service to such area promptly, but in no case later than sixty (60) days after all necessary permits are obtained. The Licensee shall expeditiously seek all necessary permits.

(b) The Cable Television System shall be extended automatically, at the Licensee's sole cost and expense, from existing cable plant to any and all areas of the Town containing twenty (20) residences per aerial and/or underground mile of cable plant or fractional proportion thereof. Said Cable Service shall be made available and fully activated to requesting Subscribers no later than sixty (60) days after the Licensee's receipt of permission to attach cable to poles.

(c) The Cable Television System shall be further extended to all areas in the Town that do not meet the requirements of subsection (b) above upon request of the prospective Subscribers in such areas and based upon the following cost calculation: if a request for an extension into a residential area requires the construction of the cable plant which does not contain the twenty (20) residences per aerial and/or underground mile of cable plant or fractional proportion thereof, the Licensee and the potential Subscriber shall each be responsible for their proportionate share of construction costs.

(d) Any potential residential Subscriber located in an area of the Town without Cable Service may request such service from the Licensee. In areas meeting the requirements of Section 4.2(b) above, the Licensee shall extend Cable Service to the area promptly, but in no case later than sixty (60) days after the Licensee's receipt of permission to attach cable to poles. The Licensee shall expeditiously seek all necessary permits. In those areas with less than twenty (20) residences per aerial and/or underground mile of cable plant or fractional proportion thereof, the Licensee shall, within thirty (30) days following a request for service, conduct a survey to determine the number of homes in the immediate area and shall inform each potential Subscriber of the total cost of the extension and the range of possible contributions (see Section 4.2 (c) above) that will be charged. The cost of wiring such areas shall be calculated by taking the cost of extending such service divided by the number of Subscribers in such area minus the costs of extending such service to the Subscribers in an area with twenty (20) residences per aerial and/or underground cable mile of cable plant. The resulting cost shall equal the per Subscriber contribution relating to line extension of Cable Service in that particular area of Town, or:

Town of Cheshire Cable Television Renewal License

$$\frac{C}{LE} - (\text{minus}) \frac{CA}{P} = SC$$

- * LE equals the number of dwelling units requesting service in the line extension area;
- * P equals the twenty (20) (aerial and/or underground) dwelling units per linear mile of plant; and
- * SC equals the per Subscriber contribution in aid of construction in the line extension area.

The Licensee shall apply for permission to attach cables to poles within fourteen (14) days of receiving the contribution(s) from prospective Subscribers. Cable Service(s) shall be made available and fully activated to all requesting Subscribers who made a contribution within sixty (60) days of the Licensee's receipt of permission to attach cables to poles.

(e) During the three (3) year period commencing with the completion of any particular line extension contemplated in subsection (c) above, in order to be equitable to those Subscribers who have made a contribution, the Licensee may require proportionate contributions from new Subscribers and shall pay a pro-rata refund to any previous Subscriber(s) who made a contribution, as such new Subscribers are added to that particular line extension. The amount of refund shall be determined by application of the line extension formula, contained in Section 4.2(c) above, reducing the per capita contribution each time a new Subscriber is added. Any refunds due shall be paid annually to Subscribers, or former Subscribers, entitled to receive such a refund. The Licensee shall file with the Issuing Authority, on an annual basis, the location of such line extension and exact contribution of each new Subscriber in a line extension area.

SUBPART H -- GENERAL OPERATING REQUIREMENTS

47 CFR 76.309

§ 76.309 Customer service obligations.

(a) A cable franchise authority may enforce the customer service standards set forth in paragraph (c) of this section against cable operators. The franchise authority must provide affected cable operators ninety (90) days written notice of its intent to enforce the standards.

(b) Nothing in this rule should be construed to prevent or prohibit:

(1) A franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards set forth in paragraph (c) of this section;

(2) A franchising authority from enforcing, through the end of the franchise term, pre-existing customer service requirements that exceed the standards set forth in paragraph (c) of this section and are contained in current franchise agreements;

(3) Any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted herein; or

(4) The establishment or enforcement of any State or municipal law or regulation concerning customer service that imposes customer service requirements that exceed, or address matters not addressed by the standards set forth in paragraph (c) of this section.

(c) Effective July 1, 1993, a cable operator shall be subject to the following customer service standards:

(1) Cable system office hours and telephone availability –

(i) The cable operator will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.

(A) Trained company representatives will be available to respond to customer telephone inquiries during normal business hours.

(B) After normal business hours, the access line may be answered by a service or an automated response system, including an answering machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.

(ii) Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety (90) percent of the time under

Town of Cheshire Cable Television Renewal License

normal operating conditions, measured on a quarterly basis.

(iii) The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.

(iv) Under normal operating conditions, the customer will receive a busy signal less than three (3) percent of the time.

(v) Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.

(2) Installations, outages and service calls. Under normal operating conditions, each of the following four standards will be met no less than ninety five (95) percent of the time measured on a quarterly basis:

(i) Standard installations will be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.

(ii) Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes known. The cable operator must begin actions to correct other service problems the next business day after notification of the service problem.

(iii) The "appointment window" alternatives for installations, service calls, and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. (The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.)

(iv) An operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

(v) If a cable operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time which is convenient for the customer.

(3) Communications between cable operators and cable subscribers –

(i) Refunds -- Refund checks will be issued promptly, but no later than either –

(A) The customer's next billing cycle following resolution of the request or thirty (30) days, whichever is earlier,
or

(B) The return of the equipment supplied by the cable operator if service is terminated.

(ii) Credits -- Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

(4) Definitions –

(i) Normal business hours -- The term "normal business hours" means those hours during which most similar businesses in the community are open to serve customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.

(ii) Normal operating conditions -- The term "normal operating conditions" means those service conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions. Those conditions which are ordinarily within the control of the cable operator include, but are not limited to, special promotions, pay-per-view events, rate increases, regular peak or seasonal demand periods, and maintenance or upgrade of the cable system.

(c) No late charge may be assessed on the amount of a bill in dispute.

A notice of termination shall not be mailed to subscribers until after the date of delinquency.

(5) A cable television operator shall not assess a late charge on a bill or discontinue a subscriber's cable television service solely because of the nonpayment of the disputed portion of a bill during the period established by 207 CMR 10.07 for registration of a complaint with the operator or during the process of a dispute resolution mechanism recognized under 207 CMR 10.07.

(6) Any charge for returned checks shall be reasonably related to the costs incurred by the cable company in processing such checks.

10.06: Charges for Disconnection or Downgrading of Service

(1) A cable television operator may impose a charge reasonably related to the cost incurred for a downgrade of service, except that no such charge may be imposed when:

(a) A subscriber requests total disconnection from cable service; or

(b) A subscriber requests the downgrade within the 30 day period following the notice of a rate increase or a substantial change in the number or type of programming services relative to the service(s) in question.

(2) If a subscriber requests disconnection from cable television service prior to the effective date of an increase in rates, the subscriber shall not be charged the increased rate if the cable television operator fails to disconnect service prior to the effective date.
