Allegation: Practice on an expired Limited Permit
Ms. Mack made a motion to resolve the complaint with a consent agreement in which Ms. Charles acknowledges that she continued to practice respiratory care under her Limited Permit after she had been notified by the NBRC that she had not achieved a passing score on the CRT exam, that she failed to immediately inform her respiratory care practice supervisor that she had failed the CRT exam, and that she had failed to timely inform the Board of her change of name and change of address. When the Board is in receipt of two original duplicate copies of the signed agreement, the Board will approve Ms. Charles’ application for a Respiratory Therapist license, issue her a license, and immediately suspend the license for a minimum of four months; the suspension period shall be retroactive to December 9, 2011, the date on which Ms. Charles’ application was determined to be complete, and shall continue until such time as Ms. Charles provides documentation of successful completion, after the effective date of the agreement, of one contact hour of continuing education that addresses legal issues in the practice of respiratory care. Mr. Burns seconded the motion. The motion passed unanimously.

The Board requests that the Division explore modifications to the system that would allow the public to more easily access information about all license professions and license types that an individual may hold. Ms. Mack seconded this motion. The motion passed unanimously.
