Dear Food Service Professional:

Thank you for your interest in feeding Massachusetts farm products to your customers. Fresh locally grown food encourages us all to enjoy healthier meals! The Massachusetts Farm to School Project has been working for several years with institutions and farmers across the state to cultivate mutually beneficial relationships. This directory has been created to make it easier for food service operations to access local farm products. Finding an appropriate match is the next critical step. Here are a few tips to keep in mind when making an initial contact with a farm:

1) Know your needs.
   Making a list of the types of foods you may be interested in purchasing will assist the farm in responding to your inquiry. Have a rough idea of the quantities in which you purchase the items that you are hoping the farm can supply. It’s okay to ask a farm to send you a sample product list before meeting. It’s also important to let the farm know of your delivery needs and locations. Do you purchase food during the summer? That’s important to share as well.

2) Call ahead.
   Give yourself plenty of time to work out the details of price, delivery and availability with the farmer. Although farms can sometimes manage a quick turnaround time, having initial conversations a month or more before the first delivery will ensure that the locally grown foods you wish to purchase will be ready for delivery when you want them.

3) Be flexible.
   Freshness and taste are major benefits to serving locally grown food. However, the benefit of “just picked” comes with some restrictions. Much of what is available locally is dependent upon the weather and the season. Planning your menus in a way that allows you to choose between several different vegetables or fruits, depending on what’s available, will make it easier for you to serve the maximum amount of freshly picked items. Your customers will appreciate the delicious tastes offered by more seasonal eating.

4) Need help?
   Call or email us at (413) 253-3844 or info@massfarmtoschool.org.

DEFINITIONS

Partially Processed—Items that are cut, peeled, canned, or bottled

Organic—Follows USDA organic certification standards

Extended Season—Through cold storage and/or greenhouse production, able to continue to sell products into winter or spring
