To the selectmen of the towns of Eastham and Orleans:

Ladies & Gentlemen:

The Division of Marine Fisheries has determined that **bivalve shellfish** from areas OC:2 through OC:5 defined below **no longer contain biotoxins (Paralytic Shellfish Poison-(PSP))** from the phytoplankton *Alexandrium (spp.)* in excess of established standards. Area **OC:6, Salt Pond** in Eastham, remains **closed** to all shellfish harvesting except Blue mussels. All areas OC:2 through OC:6 remain closed to the harvesting of **Moon snails (*Polinices duplicatus* and *Lunatia heros*)**.

Therefore, under authority of Massachusetts General Laws, Chapter 130, sections 74A and 75 and 322 CMR sections 7.01 (7), 7.02 and 10.00, the PSP closures for **bivalve shellfish** on May 14, 2008 **will be rescinded at sunrise on July 3, 2008** in areas OC2 through OC:5 (area **OC:6, Salt Pond** in Eastham, remains **closed** to all shellfish harvesting except Blue mussels). Bivalve shellfish in areas currently classified as APPROVED and in the "open" status may now be harvested for direct human consumption subject to local rules and regulations under authority of Massachusetts General Laws Chapter 130, section 52. Similarly, those areas classified as CONDITIONALLY APPROVED and in the "open" status are subject to the classification conditions. All areas OC:2 through OC:6 remain closed to the harvesting of **Moon snails (*Polinices duplicatus* and *Lunatia heros*)**.

Status: Open to Bivalve Shellfish Harvesting. These areas remain closed to the harvesting of **Moon snails (*Polinices duplicatus* and *Lunatia heros*)**.
