NAVIGATION AND SOFTWARE TIPS

This section provides information about navigating and using UI Online, including:

- The Claimant Home page
- System Timeout
- Helpful Hints – Assistive Content
- Additional Tips

The Claimant Home Page

The first page that appears after you log in to the system is the **My Home** page.

The **Home** page has three areas: the **left navigation bar**, the **top pane**, and the **main pane**.

- The top pane has links to **Change Password**, **Login**, and **Logoff**.
- The **left navigation bar** has links you can click to bring up the main UI Online **functions**. When you click links in UI Online, the list in the left navigation bar expands to show the additional functions that are available.
- The left navigation bar also has the **My Home Page** link. Click this link at any time to return to the Home page.
- The **My Inbox** link brings you to the Inbox where you can view and act on your important messages from DUA.
- The main pane is divided into these areas:
  - Important Messages - information you should read right away because it may impact your claim.
  - Other Messages - system generated messages with guidance about your claim.
  - My Account Home Page - displays many of the links from the left navigation bar.
System Timeout

The UI Online system times out after approximately 20 minutes. If you are entering detailed data, save frequently; otherwise if a timeout does occur, the data may be lost. (Save by clicking the Save button or by navigating to the next page and then returning to the previous page.)

Helpful Hints – Assistive Content

Most pages in UI Online provide helpful hints about using the system right on screen. In addition, there are links that you can click to bring up a separate window with more in-depth information about a topic. This information is known as Assistive Content in UI Online.

Assistive Content links are blue and underlined, with a small question mark to the right.

An example of an assistive content link Approved Dependents is below:

Click the Assistive Content link to display information about the phrase in a separate window.

Click Close to close the Assistive Content window.

Additional Navigation Tips

Do not use your browser’s Back or Forward buttons to navigate in UI Online. Click the Previous or Next (or Save or Submit) buttons that are provided on each UI Online page.

Use the My Home link to return to your Home page at any time.

Data in some tables in UI Online can be sorted by column. Columns that can be sorted have a bold blue underlined column heading. Click the column heading to sort data by that column. Click again to reverse the sort order.
MY INBOX

Check your Inbox frequently to see if there are any notifications from DUA. Check your Inbox by clicking the **My Inbox** link in the left navigation pane, or in the main pane of the Home Page.

Notifications appear in a list with these columns:

- Document ID (a link; click to display the document itself)
- Name
- Issue Date
- Action (Review, or Action Requested)
- Action Due Date (if any)
Displaying a Document

To display a document that is listed in your inbox, click the link in the Document ID column. The document displays.

- If the document requires action, the content of the document displays within the page. Typically what appears is a Questionnaire. You can answer the questions directly on the page. (See "Filling in a Questionnaire.")
- If the document is a Notification only, it launches a PDF file.

**NOTE**: Adobe Acrobat Reader can display PDF files. If you need to install Adobe Acrobat Reader on your computer, click Download Adobe .PDF Reader (Free) at the lower right corner of the page.

Filling in a Questionnaire

To fill in a Questionnaire:

1. Review all the Notices at the top of the page.

2. Answer all relevant questions on the page.

3. If you answer Yes to Section 3, Question 2 about having additional documentation to submit, a cover sheet will be provided to you:
   - If you get your correspondence electronically, a notification with a printable cover will go into your inbox.
   - If you get your correspondence by mail, a cover sheet will be mailed to you.

4. Click Save if the Questionnaire is long, just in case the system times out.
5. Click **Save and Continue** if you cannot complete the Questionnaire in one session. This returns you to the Inbox.

6. When you are finished, put a check in the certification box.

7. Click **Submit**.

If you have omitted any answers, the Questionnaire does not get submitted, and UI Online lists each omission in the Notices section at the top of the page. Each notice will reference the item number of the Questionnaire.

**NOTE:** If you click **Save & Continue**, the Questionnaire is saved until its due date. Once the due date passes, the Questionnaire will be purged.

**Saving a Questionnaire**

To save a Questionnaire while you are working on it, click **Save**.

To save a Questionnaire and return to the Inbox, click **Save & Continue**.
