How to Look Up UST Facility Third-Party Inspection Due Dates

It is easy to access real-time information on Massachusetts underground storage tank (UST) facilities – including their next third-party inspections (TPI) due dates – using the MassDEP UST Data Management System (DMS). Simply follow the instructions below.

Individual Facility TPI Due Dates

- These may be viewed by clicking on the Facility List Search tab on the DMS home page, then opening the facility of interest. This is a public lookup. No user account is needed.

Multiple Facility Searches

- These may be performed using Advanced Search, which allows you to specify search criteria/parameters and also to export the resulting data. Advanced search is available only to registered DMS users. Anyone may create a user account. Instructions for looking up all TPIs due during a specific time period:

  **Step 1:** Set up a User Account and Login to the DMS.
Step 2: Choose Facility List Search from the Search dropdown menu.

Step 3: Move to the Advanced Search options on the right hand side of the page.

- Click on the Document Due box and set the upcoming date range of interest.
- Next, chose the Form Type.
- Then, click Search to view the results.

Step 4: You may export the results to a Microsoft Excel spreadsheet for future use.
