RE: Changes to Primary Care Clinician Plan (PCC Plan) Services Requiring a Referral

Background

On October 1, 2016, MassHealth will modify the list of Primary Care Clinician (PCC) Plan services that are exempt from referral requirements. The list of services outlined in MassHealth regulation 130 CMR 450.118(J)(5): Exceptions to Services Requiring Referrals is being modified to reflect the change. The Primary Care Clinician Plan Provider Handbook and the Primary Care Clinician Plan Member Handbook are being amended to reflect these changes. Additional information and support can be found at www.mass.gov/masshealth (click on “MassHealth Providers.”)

Changes to PCC Referral Requirements

In addition to the services that already require a PCC referral, effective for dates of service on and after October 1, 2016, the following services will require a PCC referral. PCC Plan members seeking the following services must first obtain a referral from their PCC:

- Chiropractor Services
- Orthotic Services
- Hearing Instrument Specialist Services
- Prosthetic Services
- Imaging Services conducted at an Independent Diagnostic Testing Facility (IDTF)
- Medical Nutrition Therapy/Diabetes Nutrition Management Training

PCCs who determine that the services listed above are medically necessary for their patients must enter a referral in the MassHealth Provider Online Service Center (POSC) before the patient is scheduled to receive the referred service.

Rendering providers must continue to check the Eligibility Verification System (EVS) to verify a member’s MassHealth coverage. If the member is enrolled in the PCC Plan, a rendering provider should verify in the POSC if a referral has been issued. If a referral has not been issued, the rendering provider must contact the member’s PCC as noted on the eligibility inquiry.

If a provider has rendered a service to a PCC Plan member for which a PCC referral is required but no PCC referral was obtained, the provider should contact the member’s PCC. Retroactive referrals may be made if the PCC determines that the service was medically necessary at the time the member received the service. Once a PCC referral has been issued, the rendering provider may resubmit the claim to MassHealth for payment. As a reminder, MassHealth does not allow providers to bill members for services.
Changes to PCC Referral Requirements (cont.)

There are no changes to the current process for submitting claims that require a PCC referral. Claims for all services requiring a PCC referral must be submitted via the POSC.

Only members enrolled in the PCC Plan are affected by these changes. All affected heads of household will receive a notice from MassHealth on or about August 25, 2016, explaining these changes. MassHealth members who are not enrolled in the PCC Plan (e.g., members who are enrolled in a MassHealth-contracted managed care organization (MCO)) are not affected. For members enrolled in an MCO, providers should refer to the member’s MCO for information on the MCO’s referral requirements.
