PATRICIA VINCHESEI
TOWN ADMINISTRATOR
SCITUATE MA
CURRENT MUNICIPAL WATER USE RESTRICTIONS

Non-Essential Outdoor Water Use Restrictions

as of September 28, 2016

RESTRICTION LEVEL BY TOWN

The Municipal Water Use Restrictions List* specifies which Public Water Suppliers are instituting restrictions. Please check with local officials to confirm restrictions.

- Orange: 1 Day of Watering per week or Less Allowed
- Yellow: Voluntary Restriction
- Orange with Crosshatching: Mandatory Restriction
- White: No Restriction Reported / Registered Only System
- Gray: Very Small or No Municipal Water Supply
- Red: Water Supply Emergency Declared

* The Municipal Water Use Restrictions List can be found at http://www.mass.gov/eea/docs/dep/water/resources/n-thru-y/wateruse.pdf

SOURCE:
Data provided by municipal public water suppliers.
For more information contact MassDEP Water Management Program at 617-292-5706.
Ashland – low GW levels; allow purchase from MWRA that requires an IBT approval

Plymouth – meeting demands and system pressure issues; use of an existing well despite it being below the pond level shutoff triggers in WMA permit. No longer in effect.

Ipswich – low reservoir levels; use of existing wells at volumes that may exceed the WMA permitting threshold

Foxborough - source testing and availability; use of existing well with IBT and WMA groundwater shutoffs values in effect

Burlington – Reservoir levels and stream limits; allows purchase from MWRA that would require an IBT approval

Cherry Valley & Rochdale – Reservoir Levels declining; allows purchase from MWRA/Worcester
Emergency Declaration Conditions

- System-wide ban on non-essential water use for the duration of the declaration
- Reporting on measures:
  - to notify consumers of the ban including text of Reverse-911 calls and any additional means to deliver information
  - taken to implement and enforce the ban, including assessment of penalties or fines
  - trends on water use during the declaration
  - to limit the use of private wells
- Declaration may not exceed six months
Sudbury Water Use Facts

• 18,317 population served
  • 6108 total service connections
  • 5796 residential connections (84% of metered use in 2015)

• Registered: 1.72 mgd (7 gw sources)

• Permit: 0.36 mgd (2.08 mgd total) (4 gw sources)

• 69 RGPCD and 12% UAW in 2015

• 2014 use = 1.72 mgd / 2015 use = 1.88 mgd
Sudbury Water Sources & Groundwater Withdrawal Categories

Wells 3, 8, 10

Well 5

Well 1

Wells 9, 2, 7, 6, 4
Sudbury’s Proactive History

- No new residential irrigation systems are allowed to connect to the public water supply.

- Restrictions allowed 2x per week outdoor watering based on voting precinct.

- Initial outdoor irrigation ban tied to water levels in the Concord River (usually occurring sometime in May)
Drought 2016 Timeline - Sudbury

- **5/14** - Implemented standard restrictions (2 times/week based on WMA requirements)
  - Average daily pumpage = 2.8 mgd
- **7/8** – Implemented 1 time/week outdoor watering restriction due to drought declaration
  - Average daily pumpage = 2.8 mgd
- **8/11** – Outdoor watering ban (hand held watering allowed)
  - Average daily pumpage = 1.8 mgd
Rainfall Vs. Pumpage

Monthly rainfall vs pumpage
2014-2016

Rainfall (inches) vs Pumpage (MG)

- 2014 Rain
- 2015 Rain
- 2016 Rain
- 2014 Pumpage
- 2015 Pumpage
- 2016 Pumpage

Sudbury Public Outreach

- Facebook Postings & emails via District’s email alert list
- Sandwich boards and trailer mounted lit signs along major routes in town
- Added education material to website
- For homes with private irrigation wells offered a free sign in exchange for inspection to insure no cross connection exists.
- Enforcement
  - Violations of bans being issued
Scituate Water Use Facts

- 18,680 winter population served
  - 7,727 total service connections
  - 7,438 residential connections (88% of metered use in 2015)
- Registered: 1.49 mgd (1 sw & 6 gw sources)
- Permit: 0.31 mgd (1.80 mgd total could be increased to 1.85 mgd with mitigation plan.)
- 58 RGPCD and 20% UAW in 2015
- 2014 use = 1.53 mgd / 2015 use = 1.46 mgd
- Approx. 65-70% of water is from GW sources
Scituate’s Proactive History

- Restrictions allow 1 day per week of watering based on voting precinct.
- May 2015 prohibited new irrigation systems being added to system
- Bans tied to reservoir levels
- Streamflow restoration efforts on First Herring Brook
  - Interim streamflow release plan
  - Fish ladder modifications
  - Plans for dam modifications
Drought 2016 Timeline - Scituate

- **5/1** - Implemented standard restrictions (1 day/week)
  - 5/6 reservoir at 100% capacity
  - 6/1 reservoir at 65% capacity
  - 7/1 reservoir at 53% capacity

- **7/8** – Hand-held only watering allowed
  - 7/15 reservoir at 43% capacity

- **8/5** - Total Ban
  - Reservoir below 28% capacity triggering full ban
  - 8/8 release stopped
  - 9/1 reservoir at 21.5% capacity
  - 9/26 reservoir at 21.4% capacity

Scituate Public Outreach

- Drought Crisis Management Team meeting weekly
- Water Conservation Post-Card sent 9/2
- Town Website posting of PSA and Water Conservation tips
- Soliciting town residents to submit water conservation tips
- Facebook Postings & emails via Town email alert list
- Conservation education in schools with NSRWA
- Video series on Scituate’s water supply + conservation tips
- Enforcement
  - Violations of bans being issued
  - Public posting of streets where violations occurred
