SAFIS eDR/mobile Settings > Dispositions Screen

- If you need to return to the home page from the Settings screen, tap here.
- Tap the selections you want in your favorites. They will turn blue and a checkmark will appear.

Navigate between the various settings pages via this menu.

December 14, 2016 © 2015 Division of Marine Fisheries

In Ports, Species, and Waters Fished, there is a search option. Tap the magnifying glass and type in your search criteria. Then select from the shorter list.
Make sure you select the appropriate species/market/grade/unit combination.
You can toggle between state and federal areas here. You will not need the federal areas.
SAFIS eDR/mobile Settings > Card Reader Screen

Card reader options for your platform will appear here. You will need to select the appropriate reader.

If you are using the Apex 2, you will need to specify to which USB port it is attached.
SAFIS eDR/mobile Settings > Feedback Screen

This is available to send feedback to the programmers in Evaluation. We prefer you contact us first.
Once all settings are complete, return to the home page.

In iOS and Android, there will be an “Email Diagnostics” button in the blank circle below. This will only be necessary if we ask you to submit logs.
eDR Mobile Demo (MA)

SAFIS eDR/mobile Home Screen

Swipe Harvester ID Card or tap Manual to enter Harvester details

Now you can swipe the card (or scan on iOS/Android, or enter manually)!
This screen shows manual entry, but is very similar to the screen displayed after swiping a card. You will see the license number and vessel. The agency will default to MA.

The blank box is where you would select “From Shore” or “Unknown” if appropriate.

Once satisfied with this screen, tap “Report.”
If you realize you need to update your favorites, you can go directly to your favorites from here.

Fill in the fields with the appropriate data and then tap “Landing” to add species.
There are both drop down fields and fields you will need to fill in. You can search for additional species and gears without going back into your favorites.

Make sure you scroll through the entire page.

SAFIS eDR/mobile Landing Details Screen

This shows the remainder of the landings screen.

Toggle between Hours and Days here.

Optional: Department of Public Health fields captured real-time that can be used to reduce paperwork and transcription errors. Data regarding landings can be extracted from SAFIS to add to DPH logs.

Once all Landing details have been completed, tap Save.
Either add more landings, or if completed, tap Submit.
When you successfully submit a report and are connected to the internet, you will get a confirmation here. Otherwise, the report will be queued for submission at a later date/time. If the upload is unsuccessful, errors will be flagged here as well.

If you are using a reader/printer, two copies of the receipt will be automatically printed. If you are not connected to a reader/printer, you can email a receipt. Tap here to get started.
Type the harvester’s email address here. Then click send. In Windows, the application will send the email. In iOS and Android, the app will call your email app on the device to send the receipt. Once sent, the app will bring you back to the home page.
Swipe Harvester ID Card or tap Manual to enter Harvester details

Other tools from the home page: Entering negative reports. Tap here to get started.
Tap dates to select them. The dates will appear in a list here. When finished, tap submit. It will bring you to a submission screen like the dealer reports. You must be connected to the internet to submit negative reports.

- Dealer Reports
- Settings
- Sign Out

Swipe Harvester ID Card or tap Manual to enter Harvester details

Other tools from the home page: Viewing queued and submitted dealer reports.
SAFIS eDR/mobile Queued Dealer Reports Screen

Any reports created without an internet connection will be queued here. You can submit all at any time, however, when logging in, the app will attempt to submit them automatically.
SAFIS eDR/mobile Submitted Dealer Reports Screen

Submitted

- BRIAN CASTONGUAY  Permit: 131300 (MA), Landing: 11/15/16 5:12 PM
- KERIAN FENNELLY  Permit: 5227 (MA), Landing: 11/1/16 10:42 AM

All successfully submitted reports will be listed here. Clicking on the eye will let you view them.
