

Xinning Li, MD

Xinning Li, MD is a physician representative to the Department of Industrial Accidents Health Care Services Board. Dr. Li has extensive experience in orthopaedic medicine as well as the MA workers' compensation system. His perspective gained through years of education, training, and professional experience working with injured workers will be invaluable to the Board as it carries out its statutory responsibilities.

Dr. Li graduated from the University of Virginia School of Medicine in 2005. Thereafter, he completed his six-year orthopaedic surgery residency at the University of Massachusetts Medical Center. Additional post-graduate education and training include a Sports Medicine and Shoulder Surgery Fellowship at Hospital for Special Surgery (Cornell), and a Shoulder and Elbow Surgery Fellowship at Massachusetts General Hospital and Brigham and Women's Hospital (Harvard). Dr. Li is a Board Certified orthopaedic physician. He currently works at the Boston Medical Center as an Associate Professor in Orthopaedic Surgery as well as an Attending Orthopaedic Physician in Sports Medicine and Shoulder and Elbow Surgery. Additionally, Dr. Li is the team physician for the Boston University Athletics.

He is a member of many professional societies and has presented at numerous meetings, seminars, and lectures. Dr. Li has published his work in various medical journals and books. He continues to attend professional meetings and courses to remain knowledgeable regarding best medical practices, and he has received many academic honors and awards. Please see his website for more information. www.xinningli.com.
