Smoke-Free Housing Survey

Dear Tenant:

We are asking that you complete the following survey to help us develop a smoke-free housing policy. A smoke-free housing policy will provide healthy housing options at our developments. Your feedback is important! Once we have the survey results, we will schedule a community meeting(s) to share the next steps.

A smoke-free housing policy means that no one would be permitted to smoke anywhere inside the Authority's buildings; which would include inside apartments, common areas or community spaces. The policy would apply to everyone, you, all members of your household, and any visitors. Anyone not following the policy would be considered a lease violation and could result in eviction.

It is important to understand that smoke-free housing does not mean that smokers are prohibited from living in the Authority's development(s). It simply means that tenants and visitors must smoke elsewhere.

Sincerely,

XXXXX

XXX Housing Authority
