RE: LHA Mileage Reimbursement
DATE: August 22, 2008

Due to the increased cost of gas, DHCD is increasing the current mileage reimbursement rate from \$.40 to \$.45. Effective July 1, 2008, the allowable rate of reimbursement for private auto mileage is forty-five cents (\$.45) per mile traveled in the course of authority business. Reimbursement should be made pursuant to the Authority's policies and procedures.

Any reimbursement already paid for travel during the period since July 1, 2008 may be further compensated in accordance with this new rate.
