Notwithstanding the foregoing, a Carrier may sell, issue, market or deliver a Health Benefit Plan to an employer that establishes separate contribution percentages for employees covered by collective bargaining agreements.

(e) If a Carrier is not accepting every new Eligible Small Group or Eligible Individual, it may not accept any new Eligible Small Groups or Eligible Individuals either directly, through an association or through an Intermediary or through the Connector. However, if a Carrier issued a health insurance product which is not available to Eligible Small Groups or Eligible Individuals but is available to a group with 51 or more employees and the size of that group declined to 50 or fewer employees during the term of the policy, the Carrier is not required to make that particular health insurance product available to Eligible Small Groups or Eligible Individuals.

(f) A Carrier may deny an Eligible Individual or a Eligible Small Group of five or fewer Eligible Employees enrollment in a Health Benefit Plan unless the Eligible Individual or the Eligible Small Group enrolls through an Intermediary or through the Connector, provided that the Carrier complies with all of the following requirements:
   1. For Eligible Individuals and groups of five or fewer Eligible Employees, every Carrier must make coverage available either directly or through an Intermediary or through the Connector; however, such coverage shall be at no higher cost than if the Eligible Individual or Eligible Employer had purchased the coverage directly from the Carrier.
   2. No Carrier may require an Eligible Individual or a group of five or fewer Eligible Employees to join an Intermediary if the Intermediary has unreasonable barriers to Membership, including, but not limited to, unreasonable fees or unreasonable Membership requirements. If an Eligible Individual or a small group is precluded from joining an Intermediary due to unreasonable Membership barriers, the Carrier must enroll the Eligible Individual or Eligible Small Group directly. Nothing in 211 CMR 66.04(1)(f) shall prohibit a Carrier from enrolling Eligible Individuals or Eligible Small Groups directly or through the Connector.
   3. If an Eligible Individual or an Eligible Small Group of five or fewer Eligible Employees elects to enroll through an Intermediary or through the Connector, a Carrier may not deny that Eligible Small Group enrollment.
   4. The Carrier must implement the requirements in 211 CMR 66.04(1)(f) consistently, treating all similarly situated individuals or groups in a similar manner.
   5. Any Carrier that enrolls Eligible Individuals or Eligible Small Businesses through an Intermediary or through the Connector must comply with all provisions of 211 CMR 66.00.
   6. Nothing in 211 CMR 66.04(1)(f) prohibits an Eligible Individual or an Eligible Small Business with six to 50 employees from electing to enroll through an Intermediary or through the Connector for coverage under a Health Benefit Plan.
   7. Nothing in 211 CMR 66.04(1)(f) permits a Carrier to require an Eligible Small Business with six to 50 employees to enroll through an Intermediary or through the Connector for coverage under a Health Benefit Plan.

(g) A Carrier may implement a policy for issuance of a Health Benefit Plan to an Eligible Individual who has a demonstrated history of canceling his or her coverage under a Health Benefit Plan with any Carrier prior to the end of that Eligible Individual's contract renewal period, including, but not limited to, a policy that said Eligible Individual be required to pay a portion of his or her annual premium in advance, provided that said policy is submitted to the Division for approval prior to implementation.    1. the Eligible Individual or Eligible Small Business has made at least three or more late payments in a 12 month period; or
2. within the prior 12 months, the Eligible Individual or Eligible Small Business has committed fraud, misrepresented the eligibility of an employee or of an individual, or misrepresented information necessary to determine group size, group Participation Rate, the group premium rate, or individual rate; or

4. the Eligible Small Business has been covered by three or more Health Benefit Plans within the same Class of Business during the four years immediately preceding the date of application for coverage. However, nothing in 211 CMR 66.04(1)(g)4. may be used by a Carrier to refuse acceptance of an Eligible Small Business solely because the Eligible Small Business offers multiple Health Benefit Plans at the same time.

(h) A Carrier may request information from other Carriers regarding the items listed in 211 CMR 66.04(1)(g) provided that the request does not violate any applicable state or federal law. The Carrier receiving such a request from another Carrier may provide the information consistent with state or federal law.

(i) A Carrier is not required to issue a Health Benefit Plan to an Eligible Small Business or Eligible Individual if the Eligible Small Business or Eligible Individual fails to comply with reasonable requests by the Carrier for information necessary to verify the application for coverage, including but not limited to information regarding the prior health insurance coverage of the Eligible Small Business or Eligible Individual. Requests for information may also include information reasonably necessary for the Carrier to determine whether the small business is an Eligible Small Business or whether a person is an Eligible Employee or an Eligible Individual as defined in 211 CMR 66.03.

(j) Except during an open enrollment period and as otherwise required by the ACA, a Carrier is not required to issue a Health Benefit Plan to an Eligible Small Business if the Carrier can demonstrate, to the satisfaction of the commissioner, that the small business fails at the time of issuance or renewal to meet a Participation Rate requirement established under the definition of Participation Rate, as defined in 211 CMR 66.03. However, if an eligible business does not meet a Carrier's minimum Participation Rate requirement, the Carrier may separately rate each employee as an Eligible Individual.

(k) A Carrier is not required to issue a Health Benefit Plan to an Eligible Individual or Eligible Small Business if acceptance of an application or applications would create for the Carrier a condition of Financial Impairment. The Carrier must file with the Commissioner at least 30 days in advance of any such denial, or as soon as the Carrier's financial position becomes known to the Carrier, a certified statement by the Chief Financial Officer attesting to the Carrier's overall Financial Impairment and accompanied by supporting documentation. Any Carrier found to be financially impaired by the Commissioner must immediately cease issuing Health Benefit Plans on an initial basis to Eligible Individuals and Eligible Small Businesses in accordance with the provisions of 211 CMR 66.04(3).

   1. provide to the Eligible Small Business or Eligible Individual, in writing, the specific reason(s) for the denial of coverage; and

   1. to an Eligible Individual or an Eligible Small Group, where the Eligible Individual or Eligible Small Group is not physically located in the HMO's approved service area; or
   2. within an area, where the HMO reasonably anticipates, and receives prior approval by demonstrating to the satisfaction of the Commissioner, that it will not, within that area, have the capacity in its network of providers to deliver services adequately to the Members because of its obligations to existing contract holders and enrollees. The HMO may not offer coverage in that area to any new cases of individuals or business groups of any size until the later of 90 days after each refusal or the date on which the Carrier notifies the commissioner that it has regained capacity to deliver services to Eligible Small Business groups.

A Carrier may use a plan containing multiple networks to meet the geographic area standard described in 211 CMR 66.04(1)(o)2. The benefit Rating Adjustment Factor of this plan will be such that this plan's group base premium shall be at least 14% lower than the group base premium of the Carrier's most actuarially similar plan with a non-limited or non-tiered network of providers (a "32A Plan"). Carriers shall only classify or reclassify providers in a Carrier's 32A Plan by Benefit Level tiers based on quality performance as measured by the standard quality measure set as authorized under M.G.L. c. 12C, § 14(a) and by cost performance as measured by health status adjusted total medical prices and relative prices. When applicable quality measures are not available, a Carrier shall tier providers either solely on adjusted total medical expenses or relative prices or both.
3. A Carrier may delay implementation of its 32A Plan as set forth in 211 CMR 66.04(1)(o)2. if the Carrier applies for and obtains written approval from the commissioner by no later than May 1st of the year in which the Carrier is first required to offer a 32A Plan.

(p) A Carrier that offers a Health Benefit Plan that has reported in its annual Membership filing that, as of the close of the preceding calendar year, a combined total of 5,000 or more Eligible Individuals, Eligible Employees and Eligible Dependents, were enrolled in Health Benefit Plans sold, issued, delivered, made effective or renewed by the Carrier to Eligible Small Businesses or Eligible Individuals, shall be required, as a condition of continued offer of coverage to eligible small employers and Eligible Individuals outside of Group Purchasing Cooperatives, to respond to all documents from certified Group Purchasing Cooperatives requesting submission of product and rate proposals for offer by the Group Purchasing Cooperative to eligible Members of the qualified associations.    (b) A Carrier that does not provide coverage to a late entrant because an Eligible Employee or Eligible Dependent did not meet the conditions of 211 CMR 66.04(3)(a), must make coverage available to that person at the group's next renewal date and may not deny that person coverage at the next renewal date except for reasons otherwise allowed by 211 CMR 66.00.

   (c) A Carrier may not require that a person must have worked for an unreasonable length of time in order to qualify as an Eligible Employee. For the purposes of 211 CMR 66.00, more than 90 days is considered to be an unreasonable length of time when determining employee eligibility to be offered health insurance.

   (d) Nothing in 211 CMR 66.00 shall prohibit a Carrier from offering coverage in a group to a person, and his or her dependents, who does not satisfy the definition of Eligible Employee provided that the Carrier applies these standards consistently across the group to all such persons and their dependents who do not meet the definition of an Eligible Employee.

   (c) The Commissioner may disapprove, within 21 days of receiving notice under 211 CMR 66.04(4)(b), a Carrier's election to discontinue selling the Health Benefit Plan if the Carrier fails to comply with 211 CMR 66.04(4)(b) or is in violation of 211 CMR 66.04(5).

   (d) Notwithstanding any other provision in 211 CMR 66.04, Carriers are required to renew coverage, as described in 211 CMR 66.05, under an otherwise discontinued Health Benefit Plan for existing groups.

(5) In no event may a Carrier deny an Eligible Individual or Eligible Small Group enrollment in a Health Benefit Plan as part of an effort to circumvent the intent of M.G.L. c. 176J.

(3) A Carrier is not required to renew the Health Benefit Plan of an Eligible Individual, Eligible Employee, or Eligible Dependent if said person:
   (a) has not paid the required premiums;

   (e) has failed to comply with the Carrier's reasonable request for information in an application for coverage.

(4) A Carrier must file with the Commissioner any material changes in the criteria it uses under 211 CMR 66.05(2) and/or (3) to determine the nonrenewability of a Health Benefit Plan for an Eligible Small Business as part of the annual filing required by 211 CMR 66.12.

(5) A Carrier must provide at least 60 days prior notice to an Eligible Individual or Eligible Small Business of the Carrier's intention not to renew that Eligible Individual or Eligible Small Business's Health Benefit Plan and the specific reason(s) for the nonrenewal of all Health Benefit Plans; provided that the Carrier collects sufficient information to make such a determination and makes such information available to the Commissioner upon request.

(6) A Carrier that elects to nonrenew all of its Health Benefit Plans delivered or issued for delivery to Eligible Individuals and Eligible Small Businesses in Massachusetts:

(7) Nothing in 211 CMR 66.05 prohibits a Carrier from canceling during the term of the policy a Health Benefit Plan issued to an Eligible Individual or Eligible Small Business for the reasons outlined in 211 CMR 66.05(2)(a) through (c) or (f) or (3)(a) through (c); provided that if the Carrier cancels the Health Benefit Plan for the reason found in 211 CMR 66.05(2)(a) or in 211 CMR 66.05(3)(a) during the policy term, a Carrier must provide the Eligible Individual or Eligible Small Business with any grace period as provided in the Eligible Individual's or Eligible Small Business's Health Benefit Plan, including any prior notification requirements.

(9) In no event shall a Carrier deny an Eligible Individual renewal of a Health Benefit Plan, except as permitted in 211 CMR 66.05(3), provided, however, that any Eligible Individual whose policy was issued outside of the annual open enrollment described in 211 CMR 66.04(1) who seeks to renew that policy must renew during the next open enrollment period.

66.06: Non-discriminatory Offer of Coverage

(1) No Carrier may exclude any Eligible Individual, Eligible Employee, or Eligible Dependent from a Health Benefit Plan on the basis of age, occupation, actual or expected health condition, claims experience, duration of coverage, or medical condition, except that a Carrier may offer a Catastrophic Health Benefit Plan or a Child-only Health Benefit Plan in accordance with the ACA requirements.

Premiums charged to every Eligible Small Business or Eligible Individual for a Health Benefit Plan issued or renewed on or after July 1, 2007, whether through a trust or association or through an Intermediary or Group Purchasing Cooperative, or through the Connector, or directly, also must satisfy the following requirements:
66.07: continued

(1) Premium Calculations for Base Premium Rates.
   (a) In calculating the premium to be charged to each Eligible Small Group or Eligible Individual, a Carrier shall develop a Base Premium Rate for each Rate Basis Type and may develop and use one or more of the Rate Adjustment Factors, provided that the Rating Adjustment Factors are required of all products offered to Eligible Small Groups and Eligible Individuals.
   (b) In calculating the premium to be charged to each Eligible Small Group or Eligible Individual, a Carrier shall develop a Base Premium Rate for each Rate Basis Type and may develop and use only the Rating Adjustment Factors set forth in 211 CMR 66.07(1):
      1. Age Rating Adjustment Factor. If a Carrier applies an age Rating Adjustment Factor to Eligible Individuals or Eligible Small Groups, the Carrier must apply the age rating adjustment factor in accordance with both the ACA and any guidance provided by the Commissioner.
      2. Area Rating Adjustment Factors.
         a. The area Rating Adjustment Factor for each distinct region in 211 CMR 66.07(2)(b), must range from not less than 0.8 to not more than 1.2.
         b. The permissible regions are based on the following zip code groupings which refer to the first three digits of the zip code for each Eligible Small Business or Eligible Individual:
            i. 010 through 013;
            ii. 014 through 016;
            iii. 017 and 020;
            iv. 018 through 019;
            v. 021 through 022 and 024;
            vi. 023 and 027; and
            vii. 025 through 026,
            except that a Carrier may combine the zip code groupings outlined in 211 CMR 66.07(2)(b), and iv. into one region or combine the zip code groupings outlined in 211 CMR 66.07(2)(b), through v. into one region for all of its Health Benefit Plans subject to 211 CMR 66.00, or use regions based on groupings of counties that roughly approximate the zip code groupings.
         c. If a Carrier chooses to establish an area Rating Adjustment Factor, it must apply the Rating Adjustment Factor to every Eligible Small Business and Eligible Individual within each area. The area Rating Adjustment Factor for an Eligible Small Group will be based on the location of the Eligible Small Group and the area Rating Adjustment Factor for an Eligible Individual will be based on the primary residence of the Eligible Individual.
      3. Tobacco Use Rating Adjustment Factor.
         a. The tobacco usage Rating Adjustment Factor, which may only be applied when expressly permitted by the Commissioner, will consistently apply to all Eligible Individuals and Eligible Small Groups.
         b.          a. The Benefit Level Rating Adjustment Factor for all Eligible Individuals and all Eligible Small Businesses must represent the ratio of the actuarial value of the Benefit Level, including the health care delivery network, of one Health Benefit Plan as compared to the actuarial value of the Benefit Level of another Health Benefit Plan, measured on the basis of a census that is representative of Massachusetts Eligible Individuals and Eligible Small Businesses for that Carrier.
         b. If a Carrier chooses to establish a Benefit Level Rating Adjustment Factor, it must apply and interpret the Rating Adjustment Factor with respect to every Eligible Individual and Eligible Small Business.

(2) Transitional Rating Adjustment Factors Permitted. The Rating Adjustment Factors set forth in 211 CMR 66.07(2) are permissible during the Transition Period, so long as such Rating Adjustment Factors were documented to be in use by the Carrier prior to July 1, 2013 and are not changed thereafter.

   c. If a Carrier establishes an industry Rating Adjustment Factor, it must be applied to every Eligible Small Group in an industry.
   d. If a Carrier uses an industry rating adjustment factor for Eligible Individuals, it must be applied to all Eligible Individuals based on the industry of an individual's identified primary employer.
   e. No Carrier may employ an industry Rating Adjustment Factor for any new or renewing Health Benefit Plan after January 1, 2019, or after the expiration of the Transition Period, whichever is later.

2. **Participation-rate Rating Adjustment Factor.**
   a. A Carrier may establish participation-rate Rating Adjustment Factors for any Health Benefit Plan or plans for any ranges of Participation Rates below the following minimum Participation Requirements:
      i. For groups of five or fewer: not to exceed 100%.
      ii. For groups of six or more: not to exceed 75%.
   b. The participation-rate Rating Adjustment Factors must be based upon actuarially sound analysis of the differences in the experience of Eligible Small Businesses with different Participation Rates.
   c. If a Carrier chooses to establish participation-rate Rating Adjustment Factors, it must apply the Rating Adjustment Factors to every Eligible Small Business within the ranges defined by the Carrier.
   d. If an eligible small employer does not meet a Carrier's minimum participation or contribution requirements, the Carrier may separately rate each employee as an Eligible Individual.
   e. No Carrier may employ a Participation-rate Rating Adjustment Factor for any new or renewing Health Benefit Plan after January 1, 2019, or after the expiration of the Transition Period, whichever is later.

3. **Group Size Rating Adjustment Factor.**
   a. If a Carrier chooses to establish group size Rating Adjustment Factors, every Eligible Individual and Eligible Small Group shall be subject to the applicable group size Rating Adjustment Factor.

   c. If an Eligible Small Business does not meet a Carrier's participation or contribution requirements, the Carrier may apply the group size Rating Adjustment Factor that applies to Eligible Individuals to each employee who enrolls through the Eligible Small Business.
   d. No Carrier may employ a Group Size Rating Adjustment Factor for any new or renewing Health Benefit Plan after January 1, 2019, or after the expiration of the Transition Period, whichever is later.

4. **Intermediary Discount Rating Adjustment Factor.** If a Carrier provides coverage to Eligible Small Businesses and Eligible Individuals through an Intermediary, the Carrier shall apply a discount Rating Adjustment Factor to the total premium for each Eligible Small Business and Eligible Individual obtaining coverage through the Intermediary. The discount Rating Adjustment Factor must be calculated to account only for the savings to the Carrier due to the administrative and marketing activities of the Intermediary which are related to the purchase of Health Benefit Plans for its Members from that Carrier. The discount Rating Adjustment Factor may not be calculated based on the claims experience, duration of coverage, health status or case characteristics of the Eligible Small Businesses enrolled in the Carrier's Health Benefit Plan through the Intermediary. The discount Rating Adjustment Factor may be negotiated between the
66.07: continued

Carrier and each individual Intermediary according to the range of services offered by each Intermediary. No Carrier may employ an Intermediary Discount Rating Adjustment Factor for any new or renewing Health Benefit Plan after January 1, 2019, or after the expiration of the Transition Period, whichever is later.

5. Group Purchasing Cooperative Rating Adjustment Factor. A Carrier may apply a Group Purchasing Cooperative Rating Adjustment Factor that is specific to one Group Purchasing Cooperative and based on the actuarially projected different experience of that Cooperative's potential covered Members compared to the experience of those Eligible Individuals and eligible employers who have coverage outside all of the Group Purchasing Cooperatives. Any such Group Purchasing Cooperative Rating Adjustment Factor must be applied uniformly to the rates of all persons who obtain coverage through that Group Purchasing Cooperative. Notwithstanding the requirements of 211 CMR 66.08(2)(a), a Carrier shall submit all Group Purchasing Cooperative Rating Adjustment Factors to the Division for review upon request. No Carrier may employ a Group Purchasing Cooperative Rating Adjustment Factor for any new or renewing Health Benefit Plan after January 1, 2019, or after the expiration of the Transition Period approved by the Centers for Medicare & Medicaid Services, whichever is later.

(3) Premium Rate Calculation Not Experience Based. No Carrier may charge a premium rate to an Eligible Individual or Eligible Small Business that is based upon the Eligible Individual’s or Eligible Small Business’ health status, duration of coverage, or actual or expected claims experience.

(4) Additional Information Regarding Premium Rate Calculation. Until January 1, 2019, or the end of the Transition Period, whichever is later, the premium charged by a Carrier to each Eligible Individual or Eligible Small Business on the date the Eligible Individual’s or Eligible Small Business’ Health Benefit Plan is issued or renewed shall be established such that the premium rates charged for each rate basis type at the beginning of the rating period adjusted to a January 1st basis, equals:

- the group Base Premium Rate for the single Rate Basis Type, multiplied by the Rate Basis Type adjustment factor;
- multiplied by the Benefit Level rate adjustment;
- multiplied by the area rate adjustment;
- multiplied by the group size rate adjustment;
- multiplied by the Group Purchasing Cooperative adjustment factor;
- as may be applicable pursuant to 211 CMR 66.07.

(4) Review of Filing.
   (a) A Carrier's filing will not be considered to be complete until all materials required by M.G.L. c. 176J and 211 CMR 66.00 have been received by the Division.
   (b) A Carrier shall respond to any request for additional information by the Division within five days of the date of the Division's request. Failure to respond to the Division's request within five business days may result in a delay of the Division's review of the filing and a delay in the proposed effective date of the filed small group rates.
   (c) Every Carrier shall include with any submission under 211 CMR 66.08(3) a cover letter summarizing the content in 211 CMR 66.08(3)(h)12., (i) and (j), and a statement indicating whether the Carrier consents to a designation of presumptive disapproval pursuant to M.G.L. c. 176J, § 6(d). Group Base Premium Rates will be presumptively disapproved as excessive if the rate filing does not meet the following standards:

1. Administrative Expense Standards. Group Base Premium Rates will be presumptively disapproved if the filing's projected administrative expense loading component, not including taxes and assessments, increases by more than the most recent calendar year's increase in the New England medical CPI.
   a. The projected administrative expense loading component is the per Member per month administrative expense described in 211 CMR 66.08(3)(h)12. plus the producer commission expense. The most recent calendar year's increase in the New England medical CPI shall be calculated by dividing the index value for the November period preceding the date of the filing by the same index value from the November period one year earlier. For the purpose of 211 CMR 66.08(4)(c)1.b., the New England medical CPI shall reflect the Consumer Price Indexes for All Urban Consumers (CPI-U), U.S. city averages and selected areas, for the Boston-Brockton-Nashua area.

2. Contribution-to-surplus Standards. Group Base Premium Rates will be presumptively disapproved as excessive if the rate filing's contribution-to-surplus loading component exceeds 1.9% of the total filed Group Base Premium Rate.
   a. The contribution-to-surplus loading component shall represent the per Member per month contribution-to-surplus amount submitted in 211CMR 66.08(3)(i).
b. If a Carrier's Risk Based Capital Ratio, calculated according to the provisions of 211 CMR 25.00: Risk-based Capital (RBC) for Health Organizations, falls below 300% for the four most recent consecutive quarters, the Group Base Premium Rates will be presumptively disapproved as excessive if the filing's contribution-to-surplus loading component exceeds 2.5% of premium.

3. Medical Loss Ratio Standards. Group Base Premium Rates will be presumptively disapproved as excessive if the rate filing's projected aggregate medical loss ratio for all plans offered in the individual-small employer market is less than the Minimum Medical Loss Ratio.
   a. The aggregate medical loss ratio shall be reported as submitted in 211 CMR 66.08(3)(k).
   b. When a Carrier's individual/small Group Base Premium Rates for a Rating Period would have been presumptively disapproved for failure only to meet the aggregate Minimum Medical Loss Ratio, the group base premium will not be presumptively disapproved if the aggregate loss ratio for all of the Carrier's individual/small group plans was at least 1% higher than the Carrier's equivalent medical loss ratio in the 12-months prior to the present filing. In this case, the filed medical loss ratio will be considered the Adjusted Minimum Medical Loss Ratio.

(5) Disapprovals.
   (a) Rate filings may be presumptively disapproved with the consent of the Carrier or presumptively disapproved by the Commissioner as described in 211 CMR 66.08(4)(c). Rate filings also shall be disapproved by the Commissioner if the benefits provided therein are unreasonable in relation to the rate charged, or if the rates are excessive, inadequate or unfairly discriminatory or do not otherwise comply with the requirements of M.G.L. c. 176J or 211 CMR 66.00. Changes to filed small group Rating Adjustment Factors shall be disapproved by the Commissioner if found to be discriminatory or not actuarially sound. Notwithstanding the foregoing, where applicable, rate filings made under 211 CMR 66.00 also are subject to the provisions of regulations specifying the procedures for rate hearings on such rate filings.
   (b) If a Carrier's filing is presumptively disapproved, it shall be subject to a hearing to be scheduled to commence within 45 days of the Carrier's submission of a complete filing. The Commissioner retains the right to presumptively disapprove or disapprove the subject filing for reasons other than those identified by the Carrier and to provide notice of such presumptive disapproval or disapproval to the Carrier.
   (c) If a Carrier's filing is presumptively disapproved by the Commissioner, it shall be considered disapproved. A Carrier shall communicate to all employers and individuals covered under a small group product that the proposed increase has been presumptively disapproved and is subject to a hearing at the Division.
   (d) If the Commissioner disapproves a Carrier's proposed base rate(s) or proposed changes to rating factors or rating adjustment factor(s), he shall notify the Carrier in writing in accordance with the timing described below and he shall state the reason(s) for the disapproval, including whether the disapproval is presumptive.
      1. If a Carrier's submission is deemed complete and filed at least 120 days in advance of its proposed effective date, the Commissioner shall notify the Carrier of any disapproval no later than 75 days prior to the effective date of the Carrier's filing.
      2. If a Carrier's submission is deemed complete and filed between 119 and 105 days in advance of its proposed effective date, the Commissioner shall notify the Carrier of any disapproval no later than 60 days prior to the effective date of the Carrier's filing.
      3. If a Carrier's submission is deemed complete and filed between 104 and 90 days in advance of its proposed effective date, the commissioner shall notify the Carrier of any disapproval no later than 45 days prior to the effective date of the Carrier's filing.
   (e) In the event of a disapproval under 211 CMR 66.08(5)(a) through (d), a Carrier shall comply with the following procedures:
      1. the Carrier shall not quote, issue, make effective, deliver or renew Health Benefit Plans in the Commonwealth using disapproved base rates. The Carrier shall quote, issue, make effective, deliver or renew all Health Benefit Plans using base rates as in effect 12 months prior to the proposed effective date of the disapproved base rates. 211 CMR 66.08(5)(a) through (d) also applies to new Health Benefit Plans whose base rates are disapproved. In calculating premiums, the Carrier may apply any applicable, but not previously disapproved, Rating Adjustment Factors;
2. the Carrier shall recalculate applicable rates for all affected Health Benefit Plans and shall issue rate quotes and make all Health Benefit Plans available through all distribution channels, including Intermediaries, the Connector, licensed insurance producers and the Carrier's website, but in no event more than ten calendar days after the Carrier's receipt of the disapproval;
3. the Carrier shall notify all affected policyholders of the disapproval within ten calendar days of the Carrier's receipt of the disapproval;
4. the Carrier shall promptly provide notice of all material changes to the evidence(s) of coverage to all affected individuals and groups in accordance with M.G.L. c. 176O, § 6(a) and 211 CMR 52.12(6): General Notice of Material Changes;
5. within ten days of receipt of the disapproval, the Carrier may request a hearing on the disapproval. The hearing shall be adjudicatory and de novo;
6. presumptive disapproval hearings shall commence within 45 days of the submission of a complete rate filing and other disapproval hearings shall commence within 15 days of the Commissioner's receipt of the Carrier's request for a rate hearing. In either case, notice of the public hearing will be given to, or advertised in, newspapers in Boston, Brockton, Fall River, Pittsfield, Springfield, Worcester, New Bedford, and Lowell. The Commissioner shall issue a written decision within 30 days after the conclusion of the hearing.
7. the Commissioner shall issue an order as to the requested rates within 30 days following the conclusion of the public hearing. The Commissioner may base a final disapproval of the filing on reason(s) other than those identified in the initial disapproval. If the filing is disapproved and a revised filing conforming to the terms of the decision is resubmitted in accordance with applicable regulations specifying the procedures for rate hearings on such rate filings, it shall be placed on file, thereby making those rates available for use.

(6) Appeals. Any order, decree, or judgment of the Supreme Judicial Court modifying, amending, annulling, or reversing a decision of the Commissioner disapproving a rate filing, and any further decision of the Commissioner pursuant to such an order, decree, or judgment that affects the overall rate not disapproved shall be effective as ordered.

(7) Maintaining Records. Every Carrier must maintain at its principal place of business a complete and detailed description of its rating practices including information and documentation which demonstrates that its rating methods and practices are based upon commonly accepted actuarial assumptions, are in accordance with sound actuarial principles, and comply with the provisions of 211 CMR 66.00. This information must be made available to the Commissioner upon request, but will remain confidential.

(8) Methodology for Calculating and Reporting Refund, Rebate or Credit Calculations.
(a) Unless otherwise determined by the Commissioner, for the purposes of M.G.L. c. 176J, § 6, Carriers are to calculate and submit a rebate calculation form as designated by the Commissioner each calendar year by July 31st for the previous calendar year in accordance with the current NAIC methodology for calculating rebates. When completing the form for Massachusetts, Carriers are to use the Minimum Medical Loss Ratio, or if applicable, the Adjusted Minimum Medical Loss Ratio, that applies in the year for which the calculation was completed.
(b) If the calculation illustrates that a refund or rebate is warranted, the Carrier shall submit a detailed plan, for the Commissioner's approval, that will provide a detailed description of the manner in which the Carrier will refund the excess premium to those individuals or small employers who were covered during the prior calendar year or an explanation of the reasons that the Carrier proposes not to make a refund or rebate. The amount of the rebate will be based on the individual's or small employer's relative share of the premiums that were paid to the Carrier during the calendar year.
(c) A Carrier shall communicate within 30 days to all individuals and small employers that were covered under plans during the relevant 12-month calendar year that such individuals and small employers qualify for a refund which may take the form of either a refund on the premium for the applicable 12-month period, or if the individual or small employer are still covered by the Carrier, a credit on the premium for the subsequent 12-month period.
66.08: continued

(d) The basis for all refunds issued shall equal the amount of a Carrier's earned premium that exceeds that amount necessary to achieve the Minimum Medical Loss Ratio, or if applicable, the Adjusted Minimum Medical Loss Ratio, calculated using data reported by the commissioner. The Commissioner may authorize a waiver or adjustment of the refund requirement if the Commissioner determines that issuing such refunds would result in Financial Impairment for the Carrier or if the commissioner determines that such refunds are de minimus. The aggregate of any de minimus amount not refunded shall be used to reduce overall premiums.

(e) Refunds shall be paid annually by August 31st of the year following the calendar year of the rebate calculation.

(f) Carriers who issue refunds shall keep records of all refunds made to affected individuals and small groups for inspection by the Division.

(g) No individual or small employer may assign his or her or its rights to such premium adjustments to another person or entity.

(h) If a Carrier fails to make refunds, rebates or premium adjustments acceptable to the commissioner, the commissioner may order premium adjustments, refunds or premium credits he deems necessary.

(9) Information. Every Carrier must maintain at its principal place of business a complete and detailed description of its rating practices including information and documentation which demonstrates that its rating methods and practices are based upon commonly accepted actuarial assumptions, are in accordance with sound actuarial principles, and comply with the provisions of 211 CMR 66.00. This information must be made available to the Commissioner upon request, but will remain confidential.
