Trap 20	set	empty	empty	empty	empty	empty	empty	empty	empty	closed

**Instructions**

- Fill out the species you are targeting, the town you are trapping, and the date you are trapping
- Write in the outcome of each day (set, closed, empty) for each trap and if you are successful, write what you caught
- Fill out one sheet for each town and for each species
- If you trap fisher in 3 towns and muskrat in 2 towns, you would use 3 sheets for fisher and 2 sheets for muskrat
- Use this log sheet to help you fill out your trapper survey
