*Information from City of Somerville Dept. of Traffic and Parking website:

Meter rates are \$1.00/hour and are sold in increments of .25 cents per 15 minutes. All meter rates and times are written on each meter.

To minimize your chances of being ticketed, you should park in a parking space with an appropriate time limit for your anticipated length of stay. As a general rule, parking spaces located curbside on streets in front of most stores allow for parking up to 2 hours. These parking meters are identified by a yellow band visible on the meter post. Parking meters located in off-street parking lots allow for parking up to 3 hours. All 3-hour meters are identified by an orange band positioned at the top of the meter post.

Please park within the delineated spaces, and avoid parking in handicapped parking spaces, cross walks, loading zones or bus stops. The Parking Control Officers and Somerville Police routinely patrol the commercial area for violators of all city parking regulations.
