RE: Requirements for Disclosure of Minimum Creditable Coverage

As of January 1, 2009, the Massachusetts Health Care Reform Law requires each Massachusetts resident, eighteen (18) years of age and older, to have health coverage that meets the Minimum Creditable Coverage (“MCC”) standards set by the Commonwealth Health Insurance Connector (“Connector”), unless those plans meeting these standards are deemed to not be affordable to that person.

In order to help individuals determine if the health coverage they have or intend to purchase is sufficient to satisfy the individual mandate, this bulletin notifies all commercial health insurers, Blue Cross and Blue Shield of Massachusetts, Inc., and Health Maintenance Organizations (collectively “carriers”) that offer or renew an individual or group insured health plan in Massachusetts, as defined in M.G.L. c. 176N, with coverage effective on or after February 1, 2008, that they are to disclose to insureds and potential insureds a plan’s MCC status and whether the plan satisfies the individual coverage mandate of the Massachusetts Health Care Reform Law. Such disclosure shall be placed in a prominent location and in easily understandable language on the face or first page of text of the policy, certificate, or schedule of benefits that describes the specific plan benefits. The insured health plan’s MCC status will be based on compliance with applicable standards in effect on and after January 1, 2009 as set forth by the Connector either by regulation or administrative bulletin.
In the case of an employer-sponsored group insured health plan, said disclosure requirement also applies to marketing materials that describe the insured health plan benefits that are used during the employer’s open enrollment period.

The required disclosure shall be placed on the face or first page of the text of the policy, certificate, or schedule of benefits that describes the specific plan benefits in substantially the same language and format as the following:

If the insured health plan meets MCC standards:

This health plan meets Minimum Creditable Coverage standards and will satisfy the individual mandate that you have health insurance. Please see page # for additional information.

If the plan does not meet MCC standards:

This health plan, alone, does not meet Minimum Creditable Coverage standards and will not satisfy the individual mandate that you have health insurance. Please see page # for additional information.

In addition, the following disclosure shall be placed within the body of the policy, certificate, or schedule of benefits in substantially the same language and format:

As of January 1, 2009, the Massachusetts Health Care Reform Law requires that Massachusetts residents, eighteen (18) years of age and older, must have health coverage that meets the Minimum Creditable Coverage standards set by the Commonwealth Health Insurance Connector, unless waived from the health insurance requirement based on affordability or individual hardship. For more information call the Connector at 1-877-MA-ENROLL or visit the Connector website (www.mahealthconnector.org).

If you purchase this plan, you will satisfy the statutory requirement that you have health insurance meeting these standards.
On the other hand, if the plan does not meet MCC standards, use substantially the following language either as a check list or as an inserted statement that identifies the requirement(s) not met by the health plan:

This health plan, alone, does not meet Minimum Creditable Coverage standards that are effective January 1, 2009 (carriers are to substitute applicable date) as part of the Massachusetts Health Care Reform Law because (carriers are to substitute applicable minimum creditable coverage standards as set by the Connector):

- Prescription drugs are not covered.

- The health plan includes deductibles or coinsurance for in-network core services, but the out-of-pocket maximum does not include one or more of the following for in-network services: copayments over $100, coinsurance, or deductibles.

- The health plan imposes an overall annual maximum benefit or a per illness annual maximum benefit for covered core services.

- The deductible for in-network benefits does not exclude the required minimum of three preventive care visits for individual coverage and six preventive care visits for all other coverage types (i.e., two-person, individual plus child, family).
