## Inventory and Record Keeping

- **Recommendation:** Approve inventory regulations as currently drafted
- **Key points:**
  - Establish inventory controls and procedures for the conduct of inventory reviews, and comprehensive inventories of marijuana and Marijuana products in the process of cultivation, and finished, stored marijuana
  - Conduct a monthly inventory of marijuana in the process of cultivation and finished, stored marijuana
  - Conduct a comprehensive annual inventory at least once every year after the date of the previous comprehensive inventory;
  - Promptly transcribe inventories if taken by use of an oral recording device.
  - The record of each inventory shall include, at a minimum, the date of the inventory, a summary of the inventory findings, and the names, signatures, and titles of the individuals who conducted the inventory.
  - A Marijuana Establishment shall tag and track all marijuana seeds, plants, and products, using a seed-to-sale methodology in a form and manner to be approved by the Commission.
  - A Marijuana Establishment that is cultivating, processing or selling marijuana and marijuana products for medical use as well as marijuana and marijuana products for adult use must create virtual separation of the products through tracking methodology approved by the Commission

# Cannabis Control Commission

## Inventory and Record Keeping

- **Recommendation:** Approve record keeping regulations as currently drafted
- **Key points:**
  - Written operating procedures
  - Inventory records
  - Seed-to-sale tracking records for all marijuana and marijuana products
  - Personnel Records
  - A staffing plan that will demonstrate accessible business hours and safe cultivation conditions
  - Personnel policies and procedures
  - All background check reports

# Cannabis Control Commission

## Cash Management

**Issue:** Cash transactions will be a significant percentage of retail sales

- Safety
- Tracking and fraud prevention (tax)
- Handling of non-tax cash

**Options:** See next page

# Cannabis Control Commission

## Cash Management

### Options developed by DOR

- **Use the smaller cash handling machines for the deposit of tax and sales revenue and hire an armored car service to deposit all monies into a state chartered bank or credit union.**
  - DOR/CCC has no involvement in cash handling
  - Retailers would be responsible for leasing the machines
  - Retailers would be responsible for contracting with armored car service to pick up funds
  - DOR would provide deposit banking information to retailer to deposit tax payment due
  - Net revenue would be deposited into retailers bank of choice
- **Draft an agreement with the state chartered banks and/or credit unions allowing retailers to make cash deposits**
  - DOR/CCC has no involvement in cash handling
  - Would allow retailers to transact electronically without concerns of bank accounts being shut down
  - DOR would provide deposit banking information to retailer for deposit or transfer of funds
- **Use larger cash handling machines to deposit tax revenues at secure DOR locations across the Commonwealth**
  - Cash collection or depositing would not require DOR employees
  - Commonwealth would incur cost of machines and armored car service fees
  - Commonwealth would incur logistic costs associated with location, security, customer service support, etc.
  - Tax fee payments would be routed directly to DOR's depository bank
- **Commonwealth contracts with armored car services to pick-up cash directly from retailers**
  - Cash collection or depositing would not require DOR employees
  - Commonwealth would incur the cost of armored car service
  - Model is currently deployed in CA
  - Addresses public safety issue

## Discussion of Fees

### Philosophy:

- Application Fees and Annual License Fees should cover the Commission's cost of processing and enforcement, respectively
  - Not a source of incremental revenue
- Application Fees and Annual License Fees should not be a barrier to entry to smaller market participants
- We should retain the flexibility to adjust or eliminate fees to encourage certain types of market participants

## Capital Requirements for Licensees

- **Issue:** Should we require threshold amount of available capital to approve a license application
- **Options:**
  - Set capital requirements
    - Vary by type of license
  - Do not set capital requirements
    - Require disclosure of source of funding
- **Considerations:**
  - Purpose of capital
    - Up-front investment required
    - Cover operating costs as revenue builds
    - “Rainy day” fund
  - Many ways to measure capital adequacy
    - Most common is up-front investment required plus 3 – 6 months of operating costs
  - No evidence of capital thresholds for adult use in other states
  - We have a responsibility to create a stable industry
    - But our role is not to “babysit” licensees or guarantee success

# Cannabis Control Commission

## Capital Requirements for Licensees

- Recommendation:
  - Do not set capital requirements for licensees
  - Require disclosure of source of capital
  - Ensure that technical assistance programs give guidance on capital adequacy

# Cannabis Control Commission Order of Discussion (Modified)

## *Deferred Topics*

- Retail Delivery Only Licenses (no brick and mortar)
- Non-retail delivery licenses
- Social Consumption
  - “BYOC” for Mixed Use Licenses

- 51% or more of the licensee's employees have been a Massachusetts resident for six months or more, as determined by the Commission;
- At least one licensee executive has been a Massachusetts residence for six months or more, as determined by the Commission.
- Additional or different categories

**Recommendation:**

- Adopt the specified criteria

# Cannabis Control Commission

## Draft Regulations Discussion

**Issue:** Energy & Environmental Leader Criteria

**Options:**

- The licensee has met or exceeded its energy and environmental impact goals for its registration period; and
- The licensee has consistently complied with best management practices for energy use, waste disposal and environmental impact.
- Additional or different categories

**Recommendation:**

- Adopt the specified criteria

# Cannabis Control Commission

## Draft Regulations Discussion

**Issue:** Compliance Leader Criteria

**Options:**

- All licensee employees have completed all required trainings for their positions within sixty days of hire;
- The licensee has not been issued a written deficiency statement;
- The licensee has not been the subject of a cease and desist order or a quarantine order;
- The licensee has not had its license suspended; and
- The licensee has met all timelines required by the Commission.
- Additional or different criteria

**Recommendation:**

- Adopt the specified criteria

# Cannabis Control Commission Order of Discussion (Modified)

## Draft Regulations Discussion

**Issue:** Martha's Vineyard/Nantucket

**Options:**

- To the extent permitted by law, the islands may fully participate in the Adult Use Program.
- To the extent prevented by law, the islands may do:
  - Point of sale testing with warning label
  - Jointly fund a lab that does not meet the criteria of an independent testing lab, again with warning label
  - Other option approved by the Commission.
- Additional or different criteria

**Recommendation:**

- Adopt the first two bullet point above.
