

EFT Advantages

Electronic Funds Transfer (EFT) provides your office with the capability to:

- automate your payments,
- electronically update your account information, and
- streamline your cash flow.

By using EFT you eliminate the risks associated with lost, stolen or misdirected checks.

With EFT, you will save yourself and your company valuable time. EFT eliminates excess paper and helps you automate your office.

EFT is the preferred method of payment!

Electronic Funds Transfer (EFT)

*An Automated
Payment Solution
for MassHealth
Providers*

What is EFT?

EFT stands for electronic funds transfer and represents the way your business can receive direct deposit of your MassHealth payments to your bank account.

Electronic funds transfer is:

- **fast**
- **simple**
- **safe**
- **secure**

Your payment will be confirmed in your bank account more quickly than if you had to wait for the mail, deposit your check, and wait for your funds to become available.

Payments will be electronically transferred to a bank account designated by you.

EFT saves you time and money!

How do I sign up?

Follow these four easy steps:

Step 1: Obtain an EFT application.
