2013 Massachusetts Financial Institution Excise Tax Return Form **63 FI**

Schedules and Instructions

General Information

All financial institutions subject to Massachusetts General Laws (MGL) Ch. 63, sections 1 through 2B and which do any or all of their business in Massachusetts and which is not part of combined group required to file Form 355U must complete and file Massachusetts Form 63FI.

Financial institutions that are members of a combined group engaged in a unitary business are required to file a combined return under M.G.L. c. 63, s. 32B. See 830 CMR 63.32B.2 for additional information. A financial institution that is a member of such a combined group files Form 355U instead of Form 63FI. Financial institutions that are not members of such a group are not allowed participation in the filing of combined returns.

Major 2013 Tax Law Changes

The new Employer Wellness Program Credit is effective for tax years beginning on or after January 1, 2013, and is set to expire on December 31, 2017. Those taxpayers that have a certified wellness program will claim the credit on line 15 of the return.

The Brownfields Credit commencement cut-off date has been extended to August 5, 2018 and the time for incurring eligible costs that qualify for the credit has been extended to January 1, 2019. See TIR 13-15 for further information.

S Corporation Financial Institutions

Financial institutions that are S corporations for federal purposes are now taxed as financial institution S corporations. Items of S corporation income, loss and deduction are passed through the S corporation to the shareholders, and reported and taxed on their return. For taxable years beginning on or after January 1, 2009, financial institution S corporations with income that is taxed to the S corporation for federal income tax purposes is still taxable on such income at the regular financial institution rate of 9% but all other income of the S corporation is taxable at a lower rate and is not subject to tax at the corporate level if receipts are less than \$6 million.

Financial institution S corporations with receipts of \$9 million or more pay an income measure of excise at a rate of 3.75% on income allocated or apportioned to Massachusetts. S corporations with receipts of at least \$6 million but less than \$9 million pay tax at a rate of 2.5%. S corporations with receipts of less than \$6 million are not subject to the income measure of excise. Financial institution S corporations must calculate the tax using the correct rate.

To determine if an S corporation is liable for the income measure of the corporate excise, complete Massachusetts Schedule S, lines 1 through 17. If line 17 of Schedule S is at least \$6 million, an income measure of corporation excise will be due. If line 17 of Schedule S is less than \$6 million, Schedule E is not required. If an S corporation and any other entity share common ownership and are engaged in a unitary business, then the total receipts less inter-company transactions of all such entities must be combined according to the rules of Regulation 830 CMR 62.17A.1(11)(e) and (f), to determine the dollar amount of such S corporation's total receipts. "Total receipts" means gross receipts or sales, less returns and allowances, and includes dividends, interest, royalties, capital gain net income, rental income and all other income.

If an S corporation that is liable for the income measure is not part of a combined group (see below), it must complete Massachusetts Schedule A with Form 63FI and must complete a pro-forma U.S. Form 1120 which must be available upon request. A financial institu-

tion S corporation that is not liable for an income measure of excise must still file Form 63FI but must enter "0" on line 1 of the tax calculation and is not required to complete Schedules A, B or D. A financial institution S corporation must always complete Schedule S and submit Schedules SK-1 and is liable for the minimum excise of \$456.

Requirement for Financial Institution S Corporations to File a Combined Report

An S corporation that is doing business in the state is subject to combined reporting within the meaning of Ch. 63, sec.32B, when it is engaged in a unitary business with one or more other corporations, including one or more S corporations. In such cases, if the S corporation is liable for an income measure of excise, it is required to be included in a combined report, and is to compute its net income subject to tax and its income measure along with the other members of the group on Form 355U.

Further, even where an S corporation is not itself liable for an income measure of excise, it is required to include its income in a combined report if any member of the combined group is a C corporation that is subject to Massachusetts tax. Where one or more S corporations that are taxable in Massachusetts are members of a combined group that is composed entirely of S corporations and the S corporations are not liable for the income measure of excise, the S corporations are not required to file Form 355U. Further, where one or more S corporations that are taxable in Massachusetts are members of a combined group that is composed entirely of one or S corporations and one or more C corporations and the S corporations are not liable for the income measure of the excise and each of the C corporations is not taxable in Massachusetts, the S corporations are not required to file Form 355U. (Note that in the latter cases, Form 355U would be required irrespective as to whether the S corporations were liable for the income measure of the excise if one or more of the C corporations were subject to Massachusetts tax).

In any case where one or more S corporations that are members of a combined group are not required to file Form 355U, such members are also not required to complete Form 63FI, Schedule A.

A financial institution S corporation that is a member of a combined group filing form 355U must also file Form 63FI for the purpose of submitting Schedules S and SK-1. Such a corporation completes Schedule E (apportionment), if required to determine shareholder income derived from sources within the commonwealth, without regard to the combined reporting apportionment rules. An S corporation subject to this requirement does not report on Schedule A any income included in the combined report.

Who Must File and Pay the Financial Institution Excise?

The Massachusetts financial institution excise applies to banks, trust companies and federal or state savings and loan associations existing by authority of the United States, or any state or a foreign country. It also applies to bank holding companies and subsidiaries of bank holding companies, savings and loan holding companies, corporations subject to supervision by the Massachusetts Division of Banks or other corporations in substantial competition with financial institutions in Massachusetts which derive more than 50% of gross income from loan origination, lending activities or credit card activities. Credit unions are not subject to the excise. See Technical Information Release (TIR) 95-6.

Corporations included in the new definition of financial institution which were taxed under Massachusetts General Laws (MGL) Ch. 62 (income tax on individuals, trusts, corporate trusts, partnerships and S corporations) or MGL Ch. 63, secs. 30 to 42, inclusive (corporate excise), are now taxed under MGL Ch. 63, sections 1 through 2A inclusive and must now file a Form 63FI, Financial Institution Excise Return for tax years beginning on or after January 1, 1999.

The minimum excise for a financial institution is \$456. The minimum excise cannot be prorated.

What is Nexus for Purposes of the Massachusetts Financial Institution Excise?

The financial institution excise applies to any financial institution engaged in business in Massachusetts. The term “engaged in business” as defined in MGL Ch. 63, sec. 1 includes:

- a. having a business location in Massachusetts;
- b. having employees, representatives or independent contractors conducting business activities on its behalf in Massachusetts;
- c. maintaining, renting or owning any tangible or real property in Massachusetts;
- d. regularly performing services in Massachusetts;
- e. regularly engaging in transactions with customers in Massachusetts that involve intangible property and result in income flowing to the taxpayer from residents of Massachusetts;
- f. regularly receiving interest income from loans secured by tangible personal property or real property located in Massachusetts; or
- g. regularly soliciting and receiving deposits from customers in Massachusetts.

With respect to the activities described in (d) through (g) inclusive, activities are presumed, subject to rebuttal, to be conducted on a regular basis within Massachusetts if any of such activities are conducted with 100 or more residents of Massachusetts during any taxable year or if the taxpayer has \$10,000,000 or more of assets attributable to sources within Massachusetts or if the taxpayer has in excess of \$500,000 in receipts attributable to sources within Massachusetts.

Apportionment

For tax years beginning on or after January 1, 1995, Massachusetts has adopted a three-factor apportionment formula based on receipts, property and payroll. Apportionment applies to financial institutions with income from business activity which is taxable both in Massachusetts and in any other state. See MGL Ch. 63, sec. 2A. The apportionment calculations are reported in Schedule E. It may be necessary to refer to the detailed provisions of MGL Ch. 63, sec. 2A in order to complete Schedule E.

Elections Relating to Apportionment

Financial institutions subject to the excise under MGL Ch. 63, secs. 1, 2 and 2A and filing Form 63 FI may make certain elections. Two elections may be made by the taxpayer without prior approval from the Department and two elections require prior approval from the Department. Once making an election to use an alternative method of valuation, the taxpayer will generally be required to use the alternative method on subsequent returns. However, a request for an alternative method of apportionment of income must be made for each taxable period.

Elections Not Requiring Prior Approval from the Department

Receipts Factor. Valuation of Investment and/or Trading Assets and Activities by Average Value or Gross Income Method, Schedule E, line 1. Interest, dividends, net gains (but not less than zero) and other income from investment and/or trading assets and activities are generally included in the numerator of the receipts factor by multiplying all income from such assets and activities by a fraction, the numerator of which is the average value of such assets which are properly assigned to a regular place of business of the taxpayer in Massachusetts and the denominator of which is the average value of all such assets. In lieu of using this method, the taxpayer may elect to determine the income from investment and/or trading assets and activities that is included in the numerator of the receipts factor by multiplying all such income by a fraction, the numerator of which is the gross income from such assets which are properly assigned to a regular place of business of the taxpayer in Massachusetts and the denominator of which is the gross income from all such assets and activities.

If the taxpayer elects or is required by the Department to use the gross income method, the taxpayer must use this method on subsequent returns unless the taxpayer receives permission or the Department requires a different method.

Property Factor. Valuation of All Property Owned, Schedule E, line 2e. The average value of property owned by the taxpayer is computed on an annual basis by adding the value of the property on the first day of the taxable year and the value of the property on the last day of the taxable year and dividing the sum by two. If averaging on this basis does not properly reflect average value, the taxpayer may elect or the Department may require averaging on a more frequent basis.

A taxpayer electing to average on a more frequent basis must use the same method of valuation consistently with respect to property inside and outside of Massachusetts and on all subsequent returns unless the taxpayer receives permission or the Department requires a different method of determining average value.

Elections Requiring Prior Approval from the Department

Property Factor. The average value of rented property (real or tangible) is generally determined annually by multiplying the gross rents payable during the taxable year by eight. A financial institution which believes that this general method results in inaccurate valuations of rented property may apply to use any other method which properly reflects the value. The taxpayer should make this request by submitting Form AA-1. A taxpayer that has been unable to obtain prior approval of an alternative method of valuation of rental property should use the statutory method of valuing rental property on its return and submit Form AA-1 describing the proposed alternative method. If the alternative method is approved by the Department, a refund of any overpayment, with interest, if due, will be made.

If an alternative method of valuing rented property is approved, that method must be used on all subsequent returns unless the taxpayer receives prior approval or the Department requires a different method.

Alternative Apportionment. A financial institution which believes that the statutory provisions contained in MGL Ch. 63, sec. 2A are not reasonably adapted to approximate its net income derived from business carried on within Massachusetts may apply to the Department to use an alternative method by filing Form AA-1 with its duly filed return. (The Department may also require use of an alternative

method of apportionment without the taxpayer's application.) The taxpayer should use the statutory method of apportionment in calculating the excise due on Form 63 FI. If an alternative method of apportionment of net income is approved by the Department, a refund of any overpayment, with interest, if due, will be made. In processing taxpayer requests for alternative apportionment, the Department will generally follow the procedures in Regulation 830 CMR 63.42.1 to the extent that they are not inconsistent with other provisions of MGL Ch. 63, as amended, pertaining to financial institutions. **Note:** Be sure to check the box of the registration section if requesting alternative apportionment. A request for an alternative method of apportionment must be made for each taxable period.

When Are Returns Due?

Financial institution excise returns, together with payment in full of any tax due, must be filed on or before the 15th day of the third month after the close of the taxable year, calendar or fiscal.

An extension of time for filing returns will be granted for reasonable cause upon request. To request an extension, file Form 355-7004 Misc., on or before the normal due date of the return and pay in full the estimated tax due.

Note: An extension of time to file is not valid if the financial institution fails to pay at least the minimum tax of \$456, or 50% of the total tax liability, whichever is greater, through estimated payments or with Form 355-7004 Misc.

Any tax not paid on or before the due date, without regard to the extension, will be subject to an interest charge.

Should the Financial Institution Be Making Estimated Tax Payments?

All financial institutions which reasonably estimate their excise to be in excess of \$1,000 for the taxable year are required to make estimated tax payments to the Commonwealth. Payments must be made in quarterly installments of 40%, 25%, 25% and 10% of the estimated annual tax liability.

Note: New corporations in their first full taxable year with less than 10 employees have different estimated payment percentages — 30%, 25%, 25% and 20% respectively.

Any corporation having \$1 million or more of federal taxable income in any of its three preceding taxable years (as defined in Section 6655(g) of the IRC) may only use its prior year's tax liability to calculate its first quarterly estimated tax payment. Any reduction in the first installment payment that results from using this method must be added to the second installment payment.

A company that claims the exception to the underpayment penalty of equaling the prior year's tax liability must provide federal tax returns (front page only) for the three preceding taxable years to verify that federal taxable income is less than \$1 million.

Financial institutions which underpay or fail to pay their estimated taxes may incur an additional charge on the amount of the underpayment for the period of the underpayment at the rate established under MGL Ch. 62C, sec. 32 (which is the rate the Department uses to calculate interest on underpayments and overpayments). Form M-2220, Underpayment of Massachusetts Estimated Tax by Corporations, is used to compute the additional charge.

See Regulation 830 CMR 63B.2.2 for additional information about estimated payments.

Credit Recapture

If the corporation is required to recapture any amount of previously claimed EOA Credit, Historic Rehabilitation Credit, Brownfields Credit, Life Science Credit or Low-Income Housing Credit, complete Schedule H-2 and enter the result in line 6 of the return. Current year credits can then be used to offset the total excise due which will include the recapture amount.

Economic Opportunity Area Credit and Abandoned Building Renovation Deduction

Financial institutions may qualify for the Economic Opportunity Area Credit or the Abandoned Building Renovation Deduction. For further information, see Schedule EOAC or contact the Massachusetts Office of Business Development, One Ashburton Place, Room 2101, Boston, MA 02108.

Refundable Economic Development Incentive Credit

Under the provisions of the Economic Development Incentive Program (EDIP) established pursuant to M.G.L. Ch. 23A, the Economic Assistance Coordination Council (EACC) may authorize taxpayers participating in certified projects to claim tax credits under M.G.L. Ch. 62 sec. 6(g) and M.G.L. Ch. 63 sec. 38N. Taxpayers authorized by the EACC to claim tax credits for projects certified on or after January 1, 2010 must use Form EDIP, Refundable Economic Development Incentive Program Credit, to claim such credits. Taxpayers seeking to claim credits for projects certified prior to January 1, 2010 must use Schedule EOAC. See TIR 10-01 for further information.

Low-Income Housing Credit

This credit is administered through the Massachusetts Department of Housing and Community Development (DHCD). The low-income housing credit is available to taxpayers that claim a federal credit for the construction or development of low-income housing. The state credit is taken over five years, and the amount of credit a taxpayer may claim for a qualified Massachusetts project is allocated by the DHCD and is based on a total pool of money awarded to the Commonwealth. In order to claim the credit, documentation must be enclosed with the return.

For further information regarding this credit, contact the Department of Housing and Community Development, Division of Private Housing, at (617) 727-7824.

Historic Rehabilitation Credit

Effective for tax years beginning on or after January 1, 2005 and ending on or before December 31, 2017, taxpayers may be eligible for the Historic Rehabilitation Credit (HRC). To claim this credit, a historic rehabilitation project must be complete and have been certified by the Massachusetts Historical Commission. Unused portions of the credit may be carried forward for a maximum of 5 years. This credit may be transferred or sold to another taxpayer. The HRC is not subject to the 50% limitation rule for corporate taxpayers. If the taxpayer disposes of the property generating the HRC, a portion of the credit may be subject to recapture. For further information, see Regulation 830 CMR 63.38R.1: Massachusetts Historic Rehabilitation Tax Credit.

Film Incentive Credit

For tax years beginning on or after January 1, 2006 and before January 1, 2023, motion picture companies may claim a credit equal to 20% of the total qualifying aggregate payroll for employing persons within the Commonwealth in connection with the filming and pro-

duction of a motion picture, and a credit equal to 25% of their Massachusetts productions expenses. The credits are transferable. For further information, see TIR 06-1.

Medical Device Credit

For tax years beginning on or after January 1, 2006, medical device companies that develop or manufacture medical devices in Massachusetts can claim a credit equal to 100% of the user fees paid to the U. S. Food and Drug Administration. The credit is transferable. For more information, see TIR 06-22.

Brownfields Credit

Recent legislation extends the Brownfield credit to nonprofit organizations, extends the time frame for eligibility for the credit, and permits the credit to be bought, sold or assigned. Under prior law, net response and removal costs incurred by a taxpayer between August 1, 1998 and August 5, 2005, were eligible for the credit provided that the taxpayer commenced and diligently pursued an environmental response action before August 5, 2005. As a result of the recent legislation, the environmental response action commencement cut-off date is changed from August 5, 2013 to August 5, 2018, and the time for incurring eligible costs that qualify for the credit is extended to January 1, 2019. For further information, see TIR 06-16.

Life Science Company Investment Tax Credit

For taxable years beginning on or after January 1, 2009, a new Investment Tax Credit (ITC) may be available to taxpayers.

This credit, which is available to certified life sciences companies only to the extent authorized pursuant to the Life Sciences Tax Incentive Program, is equal to 10% of the cost of qualifying property acquired, constructed or erected during the taxable year and used exclusively in the Commonwealth.

The refundable ITC can apply to purchases made on or after January 1, 2009 even if a construction project started before that date. The scope of qualifying property for purposes of the new credit is the same as that provided by the existing ITC under M.G.L. Ch. 63, sec. 31A.

Life sciences companies or persons also qualifying for the Economic Opportunity Area Credit (EOAC) for the same property may only take such EOAC to the extent of an additional 2% of the cost of the qualifying property. Corporations taking these credits are not allowed to take the ITC under M.G.L. Ch. 63, sec. 31A or the Low-Income Housing Credit under M.G.L. Ch. 63, sec. 31H for the same qualifying property.

If a life sciences ITC exceeds the tax otherwise due as applicable, 90% of the balance of such credit may, at the option of the taxpayer and to the extent authorized pursuant to the Life Sciences Tax Incentive Program, be refundable to the taxpayer for the tax year in which the qualified property giving rise to such credit is placed in service. If such refund is elected by the taxpayer, then the carryover provisions for this credit that would otherwise apply shall not be available. For further information, see TIR 08-23.

Life Science Company FDA User Fees Credit

For taxable years beginning on or after January 1, 2009, a new credit may be available to taxpayers for user fees paid on or after June 16, 2008 to the U. S. Food and Drug Administration (USFDA) upon submission of an application to manufacture a human drug in the Commonwealth.

This credit, which is available to certified life sciences companies only to the extent authorized pursuant to the Life Sciences Tax Incentive Program, is equal to 100% of the user fees actually paid by the taxpayer, as specified in the certification, and may be claimed in the taxable year in which the application for licensure of an establishment to manufacture the drug is approved by the USFDA.

To be eligible for the credit, more than 50% of the research and development costs for the drug must have been incurred in Massachusetts. Taxpayers may use the FDA user fees credit to reduce their tax to zero. To the extent authorized pursuant to the Life Sciences Tax Incentive Program, 90% of the balance of credit remaining is refundable. The deduction otherwise allowable for user fees qualifying for the credit is disallowed. For further information, see TIR 08-23.

Life Sciences Company Research Credit

For taxable years beginning on or after January 1, 2009, a new credit may be available for certified life sciences companies pursuant to the Life Sciences Tax Incentive Program, to provide qualifying companies with a means to obtain a research credit for certain expenditures not qualifying for the existing research credit under c. 63, § 38M. St. 2008, c. 130, §§ 30 and 53, codified at G.L. c. 63, § 38W. Under this new provision, the credit is generally calculated in the same manner as the research credit under section 38M. However, the qualified research expenditures which form the basis for the calculation in new section 38W differ from those of section 38M in that they can qualify when the activities are performed both inside and outside of the Commonwealth, to the extent they relate to legally mandated clinical trial activities. The new life sciences research credit is not refundable. For further information, see TIR 08-23.

Refundable Life Science Jobs Credit

Effective for tax years beginning on or after January 1, 2011, a new tax incentive has been added to the Life Sciences Tax Incentive Program in the form of a refundable jobs credit. A taxpayer, to the extent authorized by the Life Sciences Tax Incentive Program, may be allowed a refundable jobs credit against the tax liability imposed under G.L. c. 62, the personal income tax, or G.L. c. 63, the corporate excise. A taxpayer claiming a life sciences refundable jobs credit must commit to the creation of a minimum of 50 net new permanent full-time positions in Massachusetts.

The amount of life sciences jobs credit allowed to a taxpayer will be determined by the Massachusetts Life Sciences Center in consultation with the Department of Revenue.

If a life sciences jobs credit claimed by a taxpayer exceeds the tax otherwise due under the personal income tax or the corporate excise, as applicable, 90% of the balance of such credit may, to the extent authorized by the life sciences tax incentive program, be refundable to the taxpayer. Excess credit amounts shall not be carried forward to subsequent taxable years.

The refundable jobs credit is subject to all the requirements of G.L. c. 23I, including the requirements set out in TIR 08-23. The total dollar amount of the various life sciences tax incentives, including the refundable jobs credits, for qualifying life sciences companies is subject to an annual cap of \$25 million.

Refundable Dairy Credit

A taxpayer who holds a certificate of registration as a dairy farmer pursuant to M.G.L. Ch. 94, sec. 16A is allowed a refundable tax credit based on the amount of milk produced and sold. The dairy farmer tax credit as originally enacted was 90% refundable. Under recent legislation, the dairy farmer tax credit is now 100% refundable.

Refundable Life Science Credit

There are two different credits which the Massachusetts Life Sciences Center, with the approval of the Secretary of Administration and Finance, may authorize a taxpayer to have refunded in lieu of carrying forward such credit to a future year.

A taxpayer may apply for a refund of 90% of the unused Investment Tax Credit granted under M.G.L. Ch. 63, sec. 38U or the additional credit on the same property that may be granted under M.G.L. Ch. 63, sec. 38N if property for which the 38U credit is granted is used in a certified project.

A taxpayer may apply for a refund of 90% of the unused FDA User Fee Credit granted under M.G.L. Ch. 63, sec. 38M, including credits carried over from prior years. Schedule RLC, Refundable Life Science credit, is used by taxpayers to claim the refund.

Conservation Land Tax Credit

Effective for tax years beginning on or after January 1, 2011, a credit is allowed for qualified donations of certified land to a public or private conservation agency. The credit is equal to 50% of the fair market value of the qualified donation. The amount of the credit that may be claimed by a taxpayer for each qualified donation cannot exceed \$50,000. The credit is refundable but not transferable. The certification process is conducted by the Executive Office of Energy and Environmental Affairs (EEA). EEA has promulgated a regulation, 301 CMR 14.00, entitled Conservation Land Tax Credit, which sets forth criteria for authorizing and certifying the credit. See also, 830 CMR 62.6.4, entitled Conservation Land Tax Credit, promulgated by DOR to explain the calculation of the allowable credit.

Employer Wellness Program Tax Credit

Effective for tax years beginning on or after January 1, 2013, a Massachusetts business that employs 200 or fewer workers may qualify for a tax credit for up to 25% of the cost of implementing a "certified wellness program" for its employees. A taxpayer seeking to claim the credit must apply to the Department of Public Health (DPH) for certification of its wellness program. DPH will approve a dollar amount of credit for a qualifying taxpayer and issue a certificate number to be provided in connection with filing a tax return in order to claim the credit.

The amount of the credit that may be claimed by a taxpayer cannot exceed \$10,000 in any tax year. DPH has promulgated a regulation, 105 CMR 216.000, entitled Massachusetts Wellness Tax Credit Incentive, which sets forth criteria for authorizing and certifying the credit. The credit is set to expire on December 31, 2017.

What is a Proper Return?

A proper return is a return upon which all required amounts have been entered in all appropriate items on all forms. Data sheets, account forms or other schedules may be attached to explain amounts entered on the forms. A subchapter S corporation should include Schedule S and Schedule SK-1. Referencing items to enclosures in lieu of entering amounts onto the return is not sufficient.

A properly filed return must also include exact and complete copies of the financial institution's U.S. Form 1120, 1120S, 1120-REIT or other federal return as filed. Copies of all accompanying schedules and supplemental statements to the federal return must be enclosed.

Disclosure Schedule

Form 63 FI requires the taxpayer to enter certain information from its federal return. The Department has been mandated by statute to collect and annually report aggregate information about financial institution filers to the legislature.

What if the Taxpayer Is a Fiscal or Short Year Filer?

File the 2013 return for calendar year 2013 and fiscal years that began in 2013 and ended in 2014. For a fiscal year return, fill in the tax year space at the top of page 1. Short year filers should file using the tax form for the calendar year within which the short year falls. If the short year spans more than one calendar year, the filer should file use the tax form for the calendar year in which the short year began. If the current form is not available at the time the short year filer must file, the filer should follow the rules explained in TIR 11-12.

Schedule S

If an S corporation is taxable at the federal level, and thus at the state level, on passive investment income under IRC sec. 1375, then such income passed through to the shareholder is reduced by the item's portion of the tax paid at the U.S. and state level. Form 63FI, Schedule E should be completed before completing lines 44 through 47.

Schedule SK-1

On the Schedule SK-1 for each shareholder, the S corporation should indicate the entity type of the shareholder. The S corporation should obtain this information from the shareholder. The S corporation should select "Bank" if the shareholder is an IRA or a Roth IRA and the S corporation is a bank or depository institution holding company. The S corporation should select "Exempt organization" if the shareholder is exempt from federal income tax under IRC sec. 501.

S corporations that have indicated on the SK-1 that they are reporting transactions under M.G.L. Ch. 62C, 32A, identified as IRC section 453A or 453(l)(2)(B) transactions, must separately communicate information to the partner/shareholder that will enable the shareholder to calculate the addition to tax.

For 453A transactions, the shareholder must inform the shareholder of the shareholder's share of the aggregate face amount of installment sales transactions arising in and outstanding as of the close of the taxable year, and any other information the shareholder may need to calculate the addition to tax. The \$150,000/\$5 million thresholds apply at the level of the individual shareholder. The S corporation must therefore communicate to the shareholder all 453A installment sale transactions exceeding \$150,000. The "applicable percentage" is the ratio of the aggregate face amount of installment sale obligations arising in and outstanding as of the close of the taxable year in excess of \$5 million to the aggregate face amount of such obligations arising in and outstanding at the close of the taxable year. The "applicable percentage" will be determined by each shareholder.

For 453(l)(2)(B) transactions, the S corporation must inform the shareholder of the shareholder's share of gain on installment transactions, the date of the transactions, and any other information the shareholder may need to calculate the addition to tax.

Shareholder's Massachusetts Information

The shareholder's distributive share of each item of income, loss, deduction, or credit is determined by the shareholder's percentage of ownership of stock in the S corporation computed on a daily basis during the taxable year.

For a nonresident shareholder eligible to apportion, enter in lines 1 through 21 the amount of the shareholder's share of each applicable distributive share item multiplied by the apportionment percentage in Form 63FI, Schedule E, line 5.
