

MPTC Minimum Standards for Patrol Rifle Re-Qualification & Continual Training

The minimum standards included herein are required of all sworn municipal police officers in the Commonwealth, whether full time, reserve or intermittent. These standards are divided into two sections: *Qualification and Training*. Qualification under these standards is intended to document existing marksmanship proficiency and safe firearms handling skills. Training is intended to improve the officer's marksmanship, reaction and decision making skills under stress in a variety of potential shooting situations, as well as to enhance officer safety and safety of the public. The standards listed are minimum standards only. Nothing herein should be construed as recommending adherence to only to the minimum standards or restricts agencies in any way from exceeding them.

Qualification

1. Annually complete the MPTC Basic Patrol Rifle Qualification Course at least once with a minimum score of 90% and 100% round accountability
 - a. While duty ammo is not required, the caliber used for qualification shall be tested with duty or duty equivalent ammunition.
 - b. The target used for qualification shall be the standard MPTC approved target.

Training

1. Annually receive instruction and review in legal issues and department policy on deadly force, and the safe handling and storage of firearms (c.140§131L). **This requirement may be met with similar training conducted with the duty handgun if department patrol rifle policy & procedure is incorporated.** This may be done at the time of qualification, during range training or on a separate date.
2. In *addition* to the annual qualification standard and the annual review requirements outlined above, each officer shall complete, within each 12 month period, two training sessions in the use of the patrol rifle.
 - a. At a minimum, each officer shall discharge at least 50 live fire rounds for training purposes other than the MPTC Basic Patrol Rifle Qualification Course. The intent is for these rounds to be expended in multiple firearms training sessions.
 - b. Each training session shall be realistic in nature; training should include the following: judgmental shooting, reduced light and multiple target drills or scenarios, shooting at moving targets, and shooting while moving.
 - c. Training should enhance skill diversity by varying the live fire drills from session to session.
 - d. Training should be scenario based wherever practical and incorporate the use of cover, shooting from a variety of positions, and the use of both sighted and point shooting techniques.

MPTC Minimum Standards for Patrol Rifle
Re-Qualification & Continual Training

e. Any target may be used for training purposes; however, the use of steel or reactive targets is encouraged where practical.

f. Skill building drills may include firearms simulators (such as Range 3000), Simunition weapons, Airsoft, plastic rounds and Red/Blue guns.

g. Departments are encouraged to use MPTC certified instructors in their firearms training programs.

h. Instructors are encouraged to conduct transition drills to integrate handgun training into this program.

Approved by MPTC Firearms Advisory Committee - February 2016
