MEMORANDUM

TO: Heads of Fire Departments

FROM: Stephen D. Coan
State Fire Marshal

DATE: June 1, 2014

RE: Temporary Housing at Traveling Carnivals and Circuses

The Department of Fire Services is re-issuing this advisory due to issues associated with carnivals and circuses.

In the past, the Department of Fire Services has become aware of potentially serious safety issues regarding the use of makeshift box trailers at these shows. Specifically, some of the amusement operators are housing their workers, on site, in retrofitted box trailers. These box trailers are typically hidden within the perimeter of the carnival’s rides and games and are being used for various purposes, including makeshift cafeterias and worker housing. In many cases, the condition of these trailers presents a serious life safety hazard. The interiors of these box trailers are typically modified so that there is a narrow (2½ feet wide) hallway with several small bedrooms, partitioned by particleboard, located off the hallway. In the event of a fire or other emergency, there is inadequate ingress/egress.

Further, the location of these trailers significantly hinders the ability of the fire department to access these trailers, as there are often rides, games, and other equipment obstructing the trailers from fire department apparatus. Should a fire or other emergency develop in one of these trailers or in this area, there could be serious consequence with the potential for multiple fatalities and injuries.

Due to this situation, we are advising that any city or town issuing a permit pursuant to M.G.L. c. 140, § 181, include a condition which prohibits sleeping in box trailers on the grounds. If a city or town wishes to allow these trailers, such trailers should be inspected and meet minimum fire, building, and sanitary code requirements.
