## What is MassHealth?

MassHealth provides health care benefits to certain people living in Massachusetts.

## How can MassHealth help me?

We cover many services to keep you healthy including doctor visits, medications, lab tests, mental health services, treatment services for substance use disorder, hospital stays, dentists, eyeglasses, and quit-smoking services.

## Do I qualify?

We look at income level and family size to decide if you or your family can get MassHealth. (See the income chart.) You may be eligible for MassHealth whether or not you work, and even if you have health insurance. Other rules may apply.

## Can my children be covered too?

If they qualify, your children can get MassHealth too.
