Welcome

On March 9, 2018, Chapter 44 of the Acts of 2018, *An Act Relative to Standards of Employee Safety*, was enacted. The law amends M.G.L. c. 149, § 6 ½, to update and clarify employee safety requirements in public sector workplaces. The law will be enforced by the Department of Labor Standards (DLS) and will take effect on February 1, 2019.

Thank you for attending this orientation. Our goal for this orientation is to provide you with an overview of the law, general information about safety regulations, details on how a DLS inspection is structured, what steps you can take now to make your employees safer, and to address common questions. We have worked with the Massachusetts Chiefs of Police Association in developing this content. We encourage you to participate and provide feedback to help us understand the impact this new law will have on your workplace.

Sincerely,
Rosalin Acosta, Secretary
William McKinney, Director
Michael Flanagan, Chief
Mary Dozois, Supervisor
OSHA Safety for Public Sector Employees
Highlights of Updated Law G.L. c. 149, § 6 ½

On March 9, 2018, Chapter 44 of the Acts of 2018, An Act Relative to Standards of Employee Safety, was enacted. The law amends G.L. c. 149, § 6 ½, updates and clarifies employee safety requirements in public sector workplaces, and will be enforced by the Department of Labor Standards (DLS). The law will take effect on February 1, 2019.

Highlights:

- The law defines a public sector workplace to include counties, municipalities, all state agencies, quasi-public independent entities, courts, bureaus, commissions, divisions or authorities of the commonwealth, political subdivisions, and public colleges and universities.
- The law requires all public sector employers to implement methods of reducing work-related injury and illness that meet the minimum requirements provided under the federal Occupational Safety and Health Act of 1970.

How Safety Requirements are Enforced:

- DLS conducts safety and health inspections of public sector workplaces. Federal OSHA inspectors will not inspect public sector employers. The updated law clarifies the public sector employer’s obligations and does not change current DLS standards or procedures.

How Workplaces are Selected for Inspection:

DLS prioritizes inspections in the following order. For all except “Imminent” inspections, DLS makes an appointment with the public sector employer.

- **Imminent Hazard**: DLS inspectors stop at active trenches, aerial lift operations, and roofing to ensure safety equipment and procedures are used.
- **Accident Investigation**: DLS inspects workplaces in response to a worker injury.
- **Voluntary**: An employer can request a voluntary safety and health audit.
- **Complaint**: DLS responds to complaints about workplace safety conditions. Examples of complaints include ladder handling, lack of respirators, and facility maintenance.
- **Planned Programmed Inspection**: DLS performs a representative number of inspections in workplaces expected to contain machinery or other hazards. Examples of recent inspections include wastewater treatment plants, drinking water plants, highway departments, municipal electric power stations, school kitchens, and crossing guard locations.
OSHA Safety for Public Sector MGL c149 §6 ½
Frequently Asked Questions

On March 9, 2018 House Bill 3952, An Act to Further Define Standards of Employee Safety that amends M.G.L. chapter 149 §6 ½ was enacted. The law updates and clarifies employee safety requirements in public sector workplaces, and is enforced by the Department of Labor Standards (DLS). This law is effective February 1, 2019.

1. **Does the amended law replace OSHA?** No. OSHA continues to have jurisdiction over private sector employers.

2. **Are Massachusetts requirements as strict as OSHA?** The new requirements are the same as OSHA’s requirements, no stricter or more lenient.

3. **When is the effective date?** February 1, 2019. In the interim, however, the current law remains in effect, and DLS will continue to conduct safety and health inspections. Before the new law’s effective date, DLS will conduct outreach to familiarize employers with their responsibilities.

4. **Can public sector employers get fined?** Although DLS has the authority to issue fines, its enforcement approach is to issue an order for corrective action to employers for a first offense. When corrective actions are completed within the timeframe specified, no fine is issued.

5. **When should we notify DLS about an injury?** Contact DLS at 508-616-0461 or safepublicworkplace@state.ma.us within 24 hours if an accident causes a death, amputation, loss of an eye, loss of consciousness, or inpatient hospitalization. For these and all other injuries, continue to follow your current workers’ compensation procedures and file First Reports with the Department of Industrial Accidents.

7. **What training requirements are there?** Training requirements are job specific. Safety training depends on the tasks and equipment handled by employees, such as aerial lifts, trenches, ladders, or chainsaws. For a summary, see the DLS website at www.mass.gov/dols/wshp and https://www.osha.gov/Publications/osha2254.pdf.

8. **Is OSHA 10 training required?** Under updated MGL c149 §6 ½, OSHA 10 training is not required of all employees. There is, however, a public bidding law that requires OSHA 10 training on publicly bid construction projects over $10,000. Provide this training if that law applies to your workers.

9. **What resources are there to help with the cost of training?** The Department of Industrial Accidents, Office of Safety awards up to $25,000 to organizations to fund workplace safety training. For more information about this grant email: safety@dia.state.ma.us

10. **What are the requirements for a private contractor performing work on public property?** Private sector employers are required to comply with OSHA standards. An enforcement inspection can be conducted by federal OSHA inspectors.

11. **What tools are available to help prepare for compliance?** Self-audit checklists, template programs, and sample trainings are available for public workplaces. We expect to make more educational and compliance
materials available to employers as we conduct outreach prior to the effective date. See
www.mass.gov/dols/wshp
Massachusetts Workplace Safety and Health Protection for Public Employees

Massachusetts General Law Chapter 149, §§ 6 and 6-1/2 provide job safety and health protection for state, municipal and county workers through the promotion of safe and healthful work conditions.

Employers: Employers are required to provide procedures, equipment and training to prevent work-related injuries and illnesses.

Employees: Employees are required to comply with the policies and procedures established in their workplace to reduce work-related injuries and illnesses.

Inspection: The Department of Labor Standards (“DLS”) may conduct an on-site inspection to evaluate workplace conditions and make recommendations for the prevention of work-related injuries and illnesses. See “Inspection Summary” at www.mass.gov/dols/wshp.

Enforcement: DLS may issue a Written Warning which contains an Order to Correct when an inspection reveals a condition which could cause a work-related injury or illness. DLS may issue a Civil Citation with Civil Penalty in circumstances when the employer repeatedly allows an unsafe condition to occur, the condition has already caused a serious work-related injury, or if the employer has ignored a previous Written Warning.

Voluntary Assistance: Public sector workplaces may request technical assistance by contacting DLS at 508-616-0461 or safepublicworkplace@state.ma.us. There are no written warnings or penalties issued for voluntary assistance.

Complaints: Public employees or their representatives may file a complaint about safety and health conditions at their workplace by contacting DLS at 508-616-0461 or safepublicworkplace@state.ma.us.

Safety and Health Management: Sample safety programs and technical bulletins are available at www.mass.gov/dols/wshp.

www.mass.gov/dols/wshp 508-616-0461

Rev. 3-15
Health & Safety Management for Municipalities

From 2009-2011, more than 8,700 work related injuries for municipal workers were reported to the Massachusetts Division of Industrial Accidents. These injuries place a cost burden on cities and towns to provide medical treatment and workers compensation costs. In many cases, methods to prevent the injury were readily available but not used. An active safety management system can help cities and towns reduce their work-related injuries in a cost effective manner.

Safety and Health Management
The following elements are recommended as part of a comprehensive management system to reduce work-related injuries and illnesses.

Management Leadership
- Establish a department and town-wide Safety & Health Policy.
- Establish management and employee accountability.
- Authorize a joint labor-management Safety Committee.
- Set goals for safety.

Control Risk
- Establish written safety procedures for department tasks. Sample safety programs are available at www.mass.gov/dols/wshp.
- Provide safe and adequate equipment to perform job tasks:
  - Operations equipment
  - Safety equipment
- Implement an equipment inspection and maintenance schedule.
- Pre-plan job tasks to include injury prevention.
- Follow established industry standards for workplace safety.
- Conduct periodic workplace inspections and control hazards.
- Provide new hire and annual training.

Measure Performance
- Monitor department injury patterns and injury costs. A worksheet is available at www.mass.gov/dols/wshp.
- Conduct accident investigations and determine preventive strategies.
- Conduct self-audits using a joint labor-management team.
- Compare performance to annual safety goals.
YOU MUST REPORT A FATALITY OR CATASTROPHE

Notify the Department of Labor Standards within eight hours of any work-related injury to a Public Sector employee involving:

- Fatality
- Amputation
- Loss of an Eye
- Inpatient Hospitalization

Please include:

- Name of agency
- Location of incident
- Time and date of incident
- Number of injured or deceased employee(s)
- Name of contact person, including phone number and email address
- Brief description of incident

Learn how to prevent work-related injuries or fatalities at www.mass.gov/dols/wshp
Workplace Safety and Health Program

Inspection Summary

Massachusetts General Laws Chapter 149 §6 authorizes the Department of Labor Standards to conduct inspections and provide recommendations to prevent work-related injuries and illnesses at public employee workplaces.

What to Expect during a Safety and Health Inspection

- The DLS representative will conduct an opening conference to explain the purpose of the visit, and the scope of the inspection. The opening conference will include a request to speak with the workplace union representative, if applicable. The DLS representative may request to review injury records.
- After the opening conference, the DLS representative will conduct a site walkthrough to evaluate tasks, equipment or conditions which could cause a work-related injury or illness.
- At the conclusion of the inspection, the DLS representative will conduct a closing conference to discuss observations. The representative will also indicate conditions where corrective action may be required. The representative may also request documentation such as safety policies and training records. Due to the nature of work activities or equipment, additional research by DLS may be required before a report is provided.

Inspection Report

- A written report which identifies hazards and provides recommendations for the prevention of work-related injury or illness will be sent to the department management. The report may take the following formats:
  a. A Technical Assistance Report will be issued when a municipality voluntarily requests on-site assistance. A correction due date is provided for conditions which could cause employee injury or illness.
  b. Written Warning may be issued when a workplace inspection reveals conditions which could cause employee injury or illness. A correction due date is provided.
  c. A Civil Citation with Civil Penalty may be issued which contains a fine of up to $1,000 per violation, and a correction due date. DLS may consider issuing a Civil Citation with Civil Penalty in circumstances when the employer repeatedly allowed an unsafe condition to occur, the condition has already caused a serious work-related injury, or if the employer has ignored a previous Written Warning.
Massachusetts Department of Labor Standards • Workplace Safety and Health Program

Notice of Alleged Safety and/or Health Hazard

Reporting of Alleged Safety and/or Health Hazard

Complaints regarding occupational safety and health conditions at a public sector workplace (municipality, county, state agency) in Massachusetts can be submitted to the Department of Labor Standards (DLS) using this form. If you prefer to phone in your complaint, the form will be started for you and your signature will be requested.

Complaints regarding occupational safety and health conditions at a private sector employer, including private sector employers working on public property, should be made by contacting the local OSHA area office. See www.osha.gov for a list of OSHA offices.

Who may submit a complaint? Any employee or a representative of employees who believes that a violation of a safety or health standard exists that threatens physical harm, or that an imminent danger exists, may submit a complaint to DLS. Signed complaints are given priority over unsigned complaints. DLS also accepts referrals about potential safety and health conditions from other state agencies, federal agencies and public safety departments.

Can an employer retaliate against the complainant? MGL c. 149 § 185 provides explicit protection for employees exercising their rights, including making safety and health complaints. Complainants are not protected against discipline by their employer for work performance issues. Filing a complaint with DLS regarding safety conditions does not preclude the employer from continuing with disciplinary proceedings or personnel assignments that may be underway.

What happens after a complaint is submitted? DLS evaluates information in the complaint. DLS may respond to the complaint by contacting the employer by phone or letter, by conducting a site inspection, or by referring the complaint to the appropriate government agency that has authority if DLS does not have jurisdiction. If DLS determines that there are no reasonable grounds to believe that a violation exists, the complainant will be notified in writing of such determination when contact information has been provided. The employer is permitted to request a copy of the written complaint. If the complainant has requested, the employee information is redacted before it is submitted to the employer.

Instructions

1. Complete page 2 as accurately and completely as possible.
2. Describe each hazard you think exists in as much detail as you can.
3. If the hazards described in your complaint are not all in the same area, please identify where each hazard can be found at the worksite.
4. If there is any particular evidence that supports your suspicion that a hazard exists (for instance, a recent accident or physical symptoms of employees) include the information in your description.
5. If you need more space than is provided on the form, continue on another sheet of paper.

After you have completed the form, return it by mail, fax or e-mail to:

Department of Labor Standards
167 Lyman Street
Westboro, MA 01581
E-mail: safepublicworkplace@state.ma.us.
Fax: 508-616-0467, Phone: 508-616-0461
Notice of Alleged Safety and/or Health Hazard

Complaint Number (for office use) _________________________

Agency Name (Please provide full name) __________________________________________________________

Site Address _________________________________________________________ Site Phone ______________________________

Mailing Address _________________________________________________________ Mail Phone _____________________________

Management Official for your department ________________________________ Telephone ______________________________

Management Official for the Agency _____________________________________________________________________________

Hazard Description/Location  Describe briefly the hazard(s) which you believe exist. Include the approximate number of employees exposed to or threatened by each hazard. Specify the particular building or worksite where the alleged violation exists. Include drawings, sketches or photographs if applicable and possible.

Safety Programs for Law Enforcement

The following template programs are available at https://www.mass.gov/service-details/safety-programs-for-public-sector

- Bloodborne Pathogen Plan for Police, Fire, and EMS
- Emergency Action Plan (Required for Police Station building)
- Firearm Safety (Required)
- Firearm Range Safety Program (Required if employer operates a range)
- Hazard Communication Sample Program (formerly Right-to-Know)
- Ladder Inspection (Required to perform, but written program not required)
- Lockout Tagout Sample plan (Required for station maintenance staff)
- Personal Protective Equipment Hazard Assessment (Required)
- Pre-trip Vehicle Inspections (Required to perform, but written program not required)
- Respirator Program for Police (Required if employees issued respirators)
- Workzone Safety for Traffic Detail Officers (Required to perform, but written program not required)
Keep officers safe on the road.

Motor vehicle-related incidents are a leading cause of on-the-job deaths for law enforcement officers in the U.S.

There were more than 750,000 law enforcement officers in 2012.¹

564 officers died due to vehicle crashes, 31% of all line-of-duty deaths from 2005-2016.²

Of the 152 fatal crashes from 2012-2016, almost half were single-vehicle events.²

Officers spend many hours behind the wheel and face increased risk when responding to emergency calls.

Officers can prevent crashes and injuries when they:

- **Buckle Up**
- **Slow Down**
- **Focus**
- ** Remain Calm**

Visit www.cdc.gov/niosh/topics/leo to access resources to promote safety behind the wheel.

Visit NLEOMF.org to learn more about making law enforcement safer for those who serve.

Employee Injury Reporting Requirements for Public Sector Workplaces in Massachusetts

1. Fatal or Catastrophic Incidents
   Notify the Department of Labor Standards within 8 hours of any work related injury to a public sector employee involving:
   - Fatality
   - Loss of an Eye
   - * Amputation
   - * Inpatient Hospitalization

2. Workers Compensation Incidents
   Notify the Department of Industrial Accidents when an employee is disabled for 5 full or partial calendar days. Submit Form 101- Employers First Report of Injury/Fatality on-line at https://www.mass.gov/dia-online-services.

3. Near Miss and First Aid Incidents
   Employers are encouraged to maintain records of “Near Miss” and “First Aid Only” incidents to evaluate patterns. Do not submit to Department of Labor Standards or Department of Industrial Accidents.

4. OSHA 300 Log
   Effective February 1, 2019, public sector employers must complete an OSHA 300 Log if the Bureau of Labor Statistics requests a copy of your log. In addition, complete an OSHA 300 Log if requested by a DLS inspector during a site inspection. Do not enter your logs on the osha.gov website.

## OSHA's Form 300 (Rev. 01/2004)
### Log of Work-Related Injuries and Illnesses

You must record information about every work-related injury or illness that involves loss of consciousness, restricted work activity or job transfer, days away from work, or medical treatment beyond first aid. You must also record significant work-related injuries and illnesses that are diagnosed by a physician or licensed health care professional. You must also record work-related injuries and illnesses that meet any of the specific recording criteria listed in 29 CFR 1904.8 through 1904.12. Feel free to use two lines for a single case if you need to. You must complete an injury and illness incident report (OSHA Form 301) or equivalent form for each injury or illness recorded on this form. If you’re not sure whether a case is recordable, call your local OSHA office for help.

### Identify the person
- **(A)** Case No.
- **(B)** Employee’s Name
- **(C)** Job Title (e.g., Welder)
- **(D)** Date of injury or onset of illness (mo./day)
- **(E)** Where the event occurred (e.g., Loading dock north end)
- **(F)** Describe injury or illness, parts of body affected, and object/substance that directly injured or made person ill (e.g. Second degree burns on right forearm from acetylene torch)

### Describe the case
- **(G)** Days away from work
- **(H)** Job transfer or restriction
- **(I)** Other recordable cases
- **(J)** Remained at work

### Classify the case
- **(K)** Away From Work (days)
- **(L)** On job transfer or restriction (days)

### Check the “injury” column or choose one type of illness:
- **(M)** Death
- **(N)** Injury
- **(O)** Poisoning
- **(P)** Respiratory condition
- **(Q)** Skin disorder
- **(R)** Other recordable cases

### Page totals
- **(G)** 0
- **(H)** 0
- **(I)** 0
- **(J)** 0
- **(K)** 0
- **(L)** 0
- **(M)** 0
- **(N)** 0
- **(O)** 0
- **(P)** 0
- **(Q)** 0
- **(R)** 0

Be sure to transfer these totals to the Summary page (Form 300A) before you post it.

Public reporting burden for this collection of information is estimated to average 14 minutes per response, including time to review the instruction, search and gather the data needed, and complete and review the collection of information. Persons are not required to respond to the collection of information unless it displays a currently valid OMB control number. If you have any comments about these estimates or any aspects of this data collection, contact: US Department of Labor, OSHA Office of Statistics, Room N-3644, 200 Constitution Ave, NW, Washington, DC 20210. Do not send the completed forms to this office.
Massachusetts Fax Response Form
Send to (617) 626-6944

Employers selected for the BLS Survey of Occupational Injuries and Illnesses are required by Federal Law to respond. If you have questions please contact us at the phone number listed on the front of your survey instructions.

Section 1: Establishment Information

Establishment ID Number (from front of survey instructions)

Company Name and Report For (from front of survey instructions)

Contact Name and Title (please print)

Telephone Number (ext) Fax Number

1. Enter the annual average number of employees for 2017.

2. Enter the total hours worked by all employees for 2017.

3. Did you have ANY work-related injuries or illnesses during 2017?
   □ Yes  Complete Section 2 below.
   □ No  Please fax this form to (617) 626-6944.

Section 2: Summary of Work-Related Injuries and Illnesses

1. Refer to the OSHA Forms for Recording Work-Related Injuries and Illnesses for the location referenced on the front of the survey instructions under Report For.

2. If you prefer, you may fax your Summary of Work-Related Injuries and Illnesses (OSHA Form 300A) with this form. If more than one establishment is noted on the front of the survey instructions, be sure to fax the OSHA Form 300A for each of the specified establishments.

3. If any total is zero on your OSHA Form 300A, write “0” in that space below.

4. The total number of cases recorded in G + H + I + J must equal the total injury and illness types recorded in M (1 + 2 + 3 + 4 + 5 + 6).

OMB No. 1220-0045
BLS-9300 FAX
Injury and Illness Case Form

Tell us about each 2017 work-related injury or illness case if it resulted in days away from work (Column H in Section 2 on Page 1). If you are reporting for a private industry establishment whose six-digit NAICS code begins with: 111, 336, 445, 484, 713, or 722, also tell us about each case with days of job transfer or restriction (Column I in Section 2 on Page 1). Your NAICS code can be found on the front of your survey instruction sheet. One Injury and Illness Case Form should be completed for each injury or illness case.

Tell us about the Case

Go to your completed OSHA Form 300. Copy the case information from that form into the spaces below.

Employee’s name (Column B) Job title (Column C) Date of injury or onset of illness (Column D) Number of days away from work (Column K) Number of days of job transfer or restriction (Column L)

/ /17

Tell us about the Employee

1. Check the category which best describes the employee’s regular type of job or work: (optional)
   - Office, professional, business, or management staff
   - Sales
   - Product assembly, product manufacture
   - Repair, installation or service of machines, equipment
   - Construction
   - Other:____________________

2. Employee’s race or ethnic background: (optional-check one or more)
   - American Indian or Alaska Native
   - Asian
   - Black or African American
   - Hispanic or Latino
   - Native Hawaiian or Other Pacific Islander
   - White
   - Not available

NOTE: You may either answer questions (3) to (13) or attach a copy of a supplementary document that answers them.

3. Employee’s age:_____ OR date of birth:

4. Employee’s date hired:

   OR check length of service at establishment when incident occurred:
   - Less than 3 months
   - From 3 to 11 months
   - From 1 to 5 years
   - More than 5 years

5. Employee’s gender:
   - Male
   - Female

Tell us about the Incident

Answer the questions below or attach a copy of a supplementary document that answers them.

6. Was employee treated in an emergency room? □ yes □ no
7. Was employee hospitalized overnight as an in-patient? □ yes □ no
8. Time employee began work: ________ □ am □ pm
9. Time of event: ________ □ am □ pm OR □ Check if time cannot be determined
   Event occurred: (optional) □ before □ during □ after work shift
10. What was the employee doing just before the incident occurred? Describe the activity as well as the tools, equipment, or material the employee was using. Be specific. Examples: “climbing a ladder while carrying roofing materials”; “spraying chlorine from hand sprayer”; “daily computer key-entry.”

11. What happened? Tell us how the injury or illness occurred. Examples: “When ladder slipped on wet floor, worker fell 20 feet”; “Worker was sprayed with chlorine when gasket broke during replacement”; “Worker developed soreness in wrist over time.”

12. What was the injury or illness? Tell us the part of the body that was affected and how it was affected; be more specific than “hurt,” “pain,” or “sore.” Examples: “strained back”; “chemical burn, hand”; “carpal tunnel syndrome.”

13. What object or substance directly harmed the employee? Examples: “concrete floor”; “chlorine”; “radial arm saw.” If this question does not apply to the incident, leave it blank.

Thank you for your participation. Please fax your completed forms to (617) 626-6944.
