(g) Acceptable Forms of Identification. As a part of 540 CMR 2.00, the Registrar has established lists of documents the RMV may accept to prove aspects of identity when applying for a Driver's (Operator's) License, Learner's Permit, Identification Card or Liquor Purchase Identification Card. The Registrar reserves the right to amend these lists from time to time. The lists can be found on the RMV website and in the Driver's Manual that is current at the time of application. Lists displayed on the website shall be considered as the most recent in the event of a disparity between the Driver's Manual and the website. Such lists include, but are not limited to the following:

1. Documents to Prove Massachusetts Residence.
2. Documents to Prove Date of Birth (DOB).
3. Documents to Prove US Citizenship, lawful status or lawful presence in the United States.

(h) Conversion of Driver's Licenses, Identification Cards and Learner's Permits from Another Jurisdiction. "Conversion" of a driver license means the Registrar has recognized that another specific jurisdiction enforces standards of fitness of operators substantially as high as those prescribed and enforced by the Commonwealth, the Registrar has been able to confirm the validity and status of an applicant's driver license issued in the other jurisdiction and is willing to issue an equivalent Class of Massachusetts driver license for the applicant from that jurisdiction, who has become a resident of this state, with the same restrictions or endorsements (if any) as on that applicant's existing license and without the need for a written test or a road test. The applicant is otherwise subject to the same application requirements as an applicant for an initial license, including the payment of all fees as if the tests had been taken and passed, and must demonstrate US Citizenship, lawful status or lawful presence in the United States unless the Registrar can confirm such status through other means. The Registrar will not issue a driver license as part of a license conversion unless the applicant surrenders the license to be converted to the Registrar.

1. Conversion of License from Another U.S. state, the District of Columbia or U.S. Territory. An applicant who is 18 years of age or older with a driver license from another U.S. jurisdiction who has become a resident of this state, may convert his or her driver license with the same restrictions or endorsements (if any) as on that applicant's existing license and without the need for a written or a road test. The applicant is otherwise subject to the same application requirements as an applicant for an initial license, including the payment of all fees as if the tests had been taken and passed, and must demonstrate US Citizenship, lawful status or lawful presence in the United States unless the Registrar can confirm such status through other means. An applicant presenting a REAL ID driver license may, on conversion, receive the equivalent REAL ID Massachusetts Driver's License as issued by Massachusetts. An applicant presenting

2.06: continued

a non-REAL ID driver's license may convert to a REAL ID or Standard Massachusetts Driver's License upon furnishing the required documentation for such credential. An applicant for license conversion from a U.S. Territory may also be required to provide a recent driving record.

2. Conversion of Identification Card. The Commonwealth of Massachusetts will not convert an identification card from another U.S. state or another jurisdiction. An applicant for a REAL ID Massachusetts Identification Card or for a Standard Massachusetts Identification Card who has recently become a Massachusetts resident is subject to the same terms and conditions as any other applicant for that particular type of Identification Card.

3. Conversion of Liquor Purchase Identification Card. No conversion of the equivalent of a Massachusetts Liquor Purchase Identification Card will be made by the Registrar. Each application for such card is treated as an initial application.

4. Conversion of a Learner's Permit. The Registrar may convert a learner's permit from another U.S. jurisdiction if the jurisdiction from which the permit was issued would accept a Massachusetts permit for conversion. If the applicant for a permit is younger than 18 years old, Massachusetts law requires the applicant to complete a course of driver education instruction approved by the Registrar. He or she may accept any portion of a driver education program completed in the other jurisdiction if he or she finds that the program and completed portion(s) is substantially similar to the driver education program or portion in this state. An applicant for a learner's permit must provide documentation listed in the "Document Requirements Chart" of the *RMV's Driver's Manual*.

5. Conversion of Driver Licenses, Learner's Permits and Identification Cards from Canada or Mexico. See the "Document Requirements Chart" of the *RMV's Driver's Manual*. An applicant may convert to a REAL ID or Standard Massachusetts Driver's License upon furnishing the required documentation for such credential.

6. Conversion of licenses from Select Foreign Countries which have entered into reciprocal agreements with Massachusetts for the conversion of driver licenses for persons 18 years of age or older are also contained in the *RMV's Driver's Manual*. An applicant may convert to a REAL ID or Standard Massachusetts Driver's License upon furnishing the required documentation for such credential.

7. Other Foreign Licenses. An applicant presenting a valid driver license from a foreign country not having a reciprocal license conversion agreement with Massachusetts, who has become a resident of this state, will be required to take a written and road test. If the applicant is younger than 18 years old, he or she may be required to take a Driver Education course at a school approved by the Registrar. Parental consent will also be required. An applicant may convert to a REAL ID or Standard Massachusetts Driver's License upon furnishing the required documentation for such credential.

(i) Parental Consent for Learner's Permit/Junior Operator License.

1. Driver's License. An application for a driver's license for a person younger than 18 years old must be accompanied by the written consent of a parent or legal guardian of the applicant or, if a parent is not available, by another person standing in place of a parent. The written consent on the minor's application may be given by either parent if no separation or divorce exists. It may only be given by the parent having legal custody if a legal separation or divorce does exist. If joint custody has been awarded, only the parent with whom the minor applicant resides in the Commonwealth at the time of application may give consent.

If the Registrar is satisfied 540 CMR 2.00 has been followed, he or she will not rescind a decision to issue a Learner's Permit or Driver License to a minor due solely to an objection from a parent not authorized to give consent under 540 CMR 2.00 unless the objector has a court order.

For purposes of 540 CMR 2.00, the Registrar may deem a person occupying one of the following positions as a person "standing in the place of a parent" if for good cause shown, a parent who can give consent under 540 CMR 2.00 is not available.

- a. a legal guardian who properly identifies himself or herself and presents an order of a Court appointing him or her as legal guardian of the minor applicant.
- b. a step-parent who properly identifies himself or herself and presents evidence that he or she is the step-parent of the minor applicant and that the applicant resides with him or her.

2.06: continued

- c. a foster-parent who properly identifies himself or herself as someone who provides temporary substitute parental care for a child or children under an agreement with a licensed or approved placement agency, as recognized by the state's Executive Office of Health and Human Services and Department of Early Education and provides documentation indicating the minor applicant is in his or her care.
- d. a social worker representing the state Department of Children and Families (DCF) licensed to engage in the practice of social work in the Commonwealth who properly identifies himself or herself and who satisfies the Registrar that he or she has or is providing professional social work services to the minor applicant and/or to the applicant's family.
- e. an authorized representative of a residential group care program, as recognized by the Executive Office of Health and Human Services and Department of Early Education, in which the minor applicant resides who has properly identified himself or herself and provides evidence of residential program assignment.
- f. a boarding school headmaster of an academic school in the Commonwealth who properly identifies himself or herself and provides documentation indicating that the minor applicant is a student in residence at the school and that as headmaster he is authorized by the parent(s) to exercise discretion in making decisions on behalf of the resident student.
- g. the Massachusetts resident-host of a minor foreign exchange student who properly identifies himself or herself and provides documentation from the student's parent(s) indicating authority to exercise discretion in making decisions on the resident student's behalf.

For purposes of 540 CMR 2.00, a notarized "Caregiver Affidavit" issued under the authority of M.G.L. c. 201F and provided by the care giver named in the document is not considered acceptable since it is limited to making only medical and academic educational decisions on behalf of a minor.

- (j) ID Card - No Permanent Address. An application for a Massachusetts Identification Card by a person who otherwise meets the statutory qualifications for such Card but who does not have a permanent residential address in Massachusetts, including an application by a person who is younger than 18 years old, may be considered for issuance of the ID Card for good cause shown if:

Homeless Shelter or Other Accommodation for Transients. The properly identified director or person in charge of an established homeless shelter or other recognized accommodation for transient guests (other than a hotel or similar accommodation), attests that he knows the applicant personally, discloses the period of time he or she has known the applicant, discloses the source of his or her knowledge that the applicant has no permanent address, asserts that the applicant stays at the shelter for homeless individuals on an irregular basis by disclosing the approximate number of times per week or month that the applicant has recently been a guest and agrees to allow the applicant to use the shelter as both his or her residential and mailing address for RMV purposes. In addition to the above, if the applicant is younger than 18 years old, the director or person in charge of an established homeless shelter also discloses his or her personal knowledge of the applicant's relationship with his parent(s) or other relatives, and if none, whether the applicant is under any form of State guardianship or under the control of the Department of Children and Families (DCF).

- (k) Written and Road Tests Required (formerly 3c). Prior to the issuance of any license, an applicant must pass both a knowledge test and a driving or skills test as prescribed by the Registrar, and must satisfy the Registry's medical qualification standards as set forth in 540 CMR 24.00: *Medical Qualifications for Operators of Motor Vehicles*, in a manner acceptable to the Registrar. If, at any time before or after the issuance of a license or learner's permit, the Registrar has any reason to believe that a person is physically or mentally incapable of operating a motor vehicle, the Registrar may require satisfactory proof of that person's ability to operate a motor vehicle including, but not limited to, the successful completion of a competency road test.

- (l) Road Test Vehicle (formerly 3d). The driving or skills test must be taken in a motor vehicle representative of the type of motor vehicle which the driver operates or expects to operate.

2.06 continued

(m) Authorized Test Administrative (formerly 3e). The Registrar shall examine each applicant according to the Class of license for which application was made. Each license shall indicate the Class to which it is assigned.

2. The Classes of licenses entitling a licensee to operate motor vehicles or a combination of motor vehicles are as follows:

Class A: Any combination of vehicles with a gross combination weight (GCW), gross vehicle weight (GVW), or registered weight of 26,001 or more lbs., whichever is greater, provided the GVWR of the vehicle(s) being towed is in excess of 10,000 lbs. b. If the registered gross weight or actual gross weight of a vehicle or of a combination of vehicles exceeds its GVWR or GCWR, then the registered gross weight or actual gross weight, whichever is higher, shall be used instead of the GVWR or GCWR to determine what license class is required under 540 CMR 2.06.

(c) Temporary License or Identification Card. The Registrar may for administrative convenience and the appropriate fee, and in accordance with M.G.L. c. 90, § 11, issue a temporary license or temporary identification card of any Class for 60 days including, but not limited to:

1. The Registrar may prescribe forms for use in determining whether a CMV driving skills test may be waived, and may prescribe other forms for use in the license application process. Such forms shall include, but are not limited to, application forms and affidavits.

2. A driving or skills test described in 49 CFR § 383.113 shall be waived for a CMV operator who meets the conditions set forth in 49 CFR § 383.77, unless the Registrar acts pursuant to M.G.L. c. 90, § 22. This includes waiver of the portion of a CMV skills test related to air brakes if the driver already has a CDL without the “L” restriction.

3. Any authority from the FHWA (Federal Highway Administration) or FMCSA (Federal Motor Carrier Safety Administration) Administrator to waive all testing for a 180-day CDL to be issued to a seasonal farm worker is expressly declined.

3. Restrictions. The holder of a Class "A" CDL with an "O" restriction may not operate a tractor using its fifth wheel to pull a trailer. H - HAZARDOUS MATERIALS ("HAZMAT")	T - DOUBLES/TRIPLES
N - TANK VEHICLES	X - HAZARDOUS MATERIAL AND TANK VEHICLES

 - When a CDL is required to operate a particular vehicle, a tank vehicle "N" endorsement is required on the operator's CDL if the vehicle is designed to transport liquid or gaseous material within a tank or tanks attached to the vehicle or to the chassis of the vehicle (*see* definition of Tank Vehicle). An "N" endorsement is not necessary if the tank has a rated capacity, or if the tanks in the aggregate have total rated capacities under 1,000 gallons and if each tank attached to the vehicle or to the chassis of the vehicle is a temporarily attached portable tank, readily removable from the vehicle and filled, re filled, and accessed only while on the ground or otherwise off the truck.
 - The operator of a truck towing a vehicle placarded for hazardous materials or transporting liquid or gaseous material in a tank does not need any endorsements on any required CDL, so long as the operator is engaged in an emergency first move to the nearest appropriate repair facility. For any subsequent moves by the operator of a truck towing any such vehicle, the CDL requirements or hazardous materials endorsements and/or tank vehicle endorsements shall be applicable other than as stated in 540 CMR 2.06(9)(c)4.c. and d.
5. Suspension, Revocation and Disqualification.
- Except when a CDL holder is subjected to a 24-hour out of service order, any holder of a CDL which is revoked or canceled may only regain a CDL by passing the CDL Knowledge Tests and CDL Road Test.
 - The holder of a CDL which has been revoked or canceled exclusively on account of state law may, after passing the CDL Knowledge Test, obtain a CDL learner's permit, with or without the "H" restriction, if allowed by applicable state law. After passing the CDL Road Test, the holder of a CDL learner's permit may obtain a CDL and the holder of a CDL learner's permit with an "H" restriction may receive a CDL with an "H" restriction.
 - A CDL which is revoked or canceled exclusively on account of federal law or on account of both federal and state laws may not be reinstated to any extent as a CDL holder prior to the end of the disqualification period mandated by federal law; therefore, a CDL which is revoked or canceled exclusively on account of federal law, or on account of federal and state laws together, may not be reinstated with an "H" restriction until the federally mandated disqualification period has terminated.
 - A driver disqualified from holding a CDL may not make an appointment to take the CDL Knowledge Test, take the CDL Knowledge Test, obtain a CDL Learner's Permit, make an appointment to take the CDL Road Test, or take the CDL Road Test unless the driver has received permission to do so from the Registrar.
 - When a driver is disqualified from holding a CDL but is qualified to hold a Class D license or Class M license, the driver's CDL may be downgraded to a Class D or Class M license.
 - To the extent a driver's privilege to hold a passenger vehicle Class D license is suspended, revoked, or canceled, the driver may neither obtain a CDL nor retain a previously issued CDL.
 - The Registrar shall enact and enforce through licensing sanctions the disqualifications prescribed in 49 CFR § 383.51(b).
 - The Registrar shall give full faith and credit to the disqualification of commercial motor vehicle drivers by other states.

(d) Special CDL Exemptions.

1. Intrastate Commerce. With respect to CDL qualifications, a driver engaged only in intrastate commerce may utilize the younger than 21 years old exemption provided in 540 CMR 14.04(1)(a).
2. Operators of Emergency and Firefighting Equipment. A driver with a Class D license may operate emergency or fire equipment necessary to the preservation of life or property, or the execution of emergency governmental functions if the vehicle is equipped with audible and visual signals and is not subject to normal traffic regulation. Such emergency and fire-fighting equipment shall include fire trucks, hook and ladder trucks, foam or water transport trucks, police Swat Team vehicles, ambulances or other vehicles that are used in response to emergencies. Unless federal guidelines expressly provide otherwise, such exempt drivers shall include:
 - a. a civilian mechanic operating emergency or firefighting apparatus in the employ of a volunteer or paid fire organization, provided the civilian mechanic is subject to the direction and control of a fire department official regarding the means used to accomplish particular objectives;
 - b. a member of a volunteer or paid fire organization, when responding to an emergency or otherwise performing official duties;
 - c. an agent of Federal, State or local government operating such equipment in a search and rescue function or as part of disaster relief activities, provided the equipment is government owned or controlled; and

Class D license holders may operate farm vehicles which are controlled by a farmer and operated by that farmer, his or her employees, or his or her family; used to transport agricultural products, farm machinery, and/or farm supplies to or from the farmer's farm; not used in the operation of a common or contract carrier; and used within 150 air miles of the farmer's farm. Drivers of vehicles used in lumber operations or nursery operations are considered part of a "tree farm" operation if the tree farm operation is substantially engaged in the growing and harvesting of forest products or incidental lumbering operations, including the preparation and transportation of the products prior to commercial sale in the ordinary course of business. Farmer also includes one in the business of raising horses, poultry, hogs, or bees. This exemption applies to a farm vehicle of any weight rating, and to a farm vehicle designed to transport 16 or more persons including the driver but it does not apply to a farm vehicle driver who is carrying "hazardous materials" (HM) required to be placarded.
4. Military. Military personnel may operate any Commercial Motor Vehicle (CMV) for military purposes without any license under 540 CMR 2.06. Such personnel include any active duty military personnel, and members of the reserves and National Guard on active duty including personnel on full time National Guard duty, personnel on part time National Guard training, and National Guard technicians (civilians who are required to wear military uniforms and are subject to the code of military justice) and active U.S. Coast Guard personnel. Unless federal guidelines expressly provide otherwise, such personnel shall also include civilian technicians who are either military reservists or members of the National Guard and who operate a National Guard vehicle in a National Guard military uniform. Such civilian technician need not be subject to the code of military justice when operating the National Guard vehicle in order to operate lawfully.
5. Recreational Vehicle Operators. Any vehicle operated solely as a personal or family conveyance for recreational purposes may be operated with a Class D license. To be exempt from CDL requirements, the vehicle must be used exclusively to transport family members or personal friends and/or their effects.
6. Off-road Construction Equipment Operators. A CDL is not required of a skilled mechanic at a construction site operating off-road motorized construction equipment which by its design, appearance, and function is not intended for use on a public way. Such equipment may also be operated and driven without a CDL:
 - a. to and from a construction site, on public ways under the immediate direction of a police officer; and

2.06: continued

b. on a part of the public way which is under construction or reconstruction and which is lawfully marked off so as to detour the general public. Otherwise, such equipment on the public way may only be operated and driven by the holder of a driver's license in the appropriate class for such equipment. Off-road motorized construction equipment includes, but not exclusively, motorscrapers, backhoes, motorgraders, compactors, excavators, tractors, trenchers, and bulldozers.

7. Waivers. Unless otherwise provided by statute or regulation, all CDL waivers hereafter granted by the FHWA (Federal Highway Administration) or FMCSA (Federal Motor Carrier Safety Administration) Administrator are, to the same extent, granted by the Registrar.

8. Effect. Any written opinion or regulation of the Registrar, to the effect that a certain person or certain category of persons is exempt from CDL requirements, shall have effect in another state provided the other state honors the exemption unless federal guidelines require otherwise.

(e) Other CDL Provisions.

1. The Registrar is the official to receive notice of convictions for driver violations under 49 CFR § 383.31(a).

2. Alcohol or Other Drugs.

a. Each holder of a CDL or CDL learner's permit including, but not exclusively, anyone engaged in operations described in either 49 CFR § 390.3(f) or 49 CFR § 391.2, is subject to the provisions of M.G.L. c. 90F, § 10 and 49 CFR § 392.5.

b. Any test or tests of blood, breath, or urine, administered to the operator of a commercial motor vehicle as required by a law enforcement officer and aimed at determining that person's alcohol concentration or the presence of other drugs, shall be administered both in the enforcement of state laws and in the enforcement of 49 CFR § 383.51(b)(2)(i)(A), § 383.51(b)(2)(i)(B), and § 392.5(a)(2).

c. Each holder of a CDL containing an "intrastate only" restriction consents, by exercising said CDL, to a motor carrier's testing for the presence of alcohol or other controlled substances if so required by 540 CMR 14.03: *Adoption and Incorporation of Federal Regulations as State Regulations.*

(10) Waiver. The Registrar reserves the right to waive any requirement of 540 CMR 2.06 in the public interest, except to the extent that such waiver would violate any state or federal regulation or statute.

2.07: Year of Manufacture Registration Plates

(1) Authority, Purpose and Scope. 540 CMR 2.07 is issued by the Registrar of Motor Vehicles pursuant to M.G.L. c. 6C, § 56 and c. 90, §§ 6A and 31, to allow the display of Year of Manufacture registration plates on antique motor cars under certain circumstances and conditions, as determined by the Registrar.

(2) Definitions. In 540 CMR 2.07, the following definitions apply:

Antique Motor Car. A motor vehicle that meets the definition of antique motor car in M.G.L. c. 90, § 1.

Year of Manufacture Registration Plate. A registration plate originally issued by the Commonwealth in the exact year as the model year designated by the manufacture of the antique motor car to which it is proposed to be attached under 540 CMR 2.07. If no registration plates were issued in a particular year, Year of Manufacture Registration Plate shall mean a registration plate originally issued in a prior year and originally approved by the Commonwealth for use in the model year of the antique motor car to which it is proposed to be attached under 540 CMR 2.07.

(3) Use of Year of Manufacture Registration Plates. In the discretion of the Registrar, a Year of Manufacture registration plate may be issued for display on an antique motor car in place of an Antique registration plate, in the following circumstances:

540 CMR: REGISTRY OF MOTOR VEHICLES

2.07: continued

- (a) The owner of the antique motor car shall submit to the Registry a request for issuance of a Year of Manufacture registration plate on a form prescribed by the Registrar.
- (b) The owner shall physically present the Year of Manufacture registration plate to the Registrar or his or her designee for approval, and, the Registrar or the designee shall find, in his or her judgment, that the plate:
 - 1. contains a combination of alphanumeric characters that is compatible with the data system in use by the Registry during the specific year or period as applicable; and
 - 2. is recognizable by the Registrar as being consistent with the format and style originally issued during that specific year or period as a Massachusetts registration plate and is in good condition, reasonable wear and tear excepted, with its numbers and markings clearly legible; and except further, that the Registrar may refuse to authorize the use of a plate as a current registration plate if it has been repaired, refurbished, repainted, refinished or otherwise altered; and
 - 3. is of sufficiently distinctive appearance that it would not likely be confused with any currently issued registration plate. A plate bearing a combination of alphanumeric characters that has already been approved as a Year of Manufacture registration plate shall not be deemed to be sufficiently distinctive in appearance.
- (c) The Registrar may, but need not, approve a Year of Manufacture registration plate for display on an antique motor car of a different type than that for which the registration plate was originally issued (*e.g.*, a truck plate approved for display on an automobile).
- (d) Notwithstanding the fact that during a particular year of manufacture it was the practice to issue two registration plates, the Registrar may in his or her discretion authorize the display of only one Year of Manufacture registration plate, if only one such plate is available and found to meet the standards set forth in 540 CMR 2.07(3)(b). Such plate or plates, as the case may be, shall be displayed in accordance with the provisions of M.G.L. c. 90, § 6.

(4) Registration Number and Decal.

- (a) If the Registrar approves a request for issuance of a Year of Manufacture registration plate, then the registration number assigned to the subject antique motor car shall comprise the combination of numbers and letters shown on the Year of Manufacture registration plate, together with a unique identifier, to be determined by the Registrar, which will distinguish the letter and number combination as a Year of Manufacture registration number. The issued registration plate for the antique motor car shall be the Year of Manufacture registration plate.
- (b) The registration decal issued in connection with an approved Year of Manufacture registration plate need not be affixed to the Year of Manufacture registration plate for which it is issued, provided the decal is at all times carried in the antique motor car in a readily accessible place, for display upon request.

(5) Surrender of Registration Plate. Pursuant to the provisions of M.G.L. c. 90 and 540 CMR 2.05(4)(q), in the event of revocation or suspension of the registration assigned to an antique motor car bearing a Year of Manufacture registration plate, the Year of Manufacture registration plate shall be surrendered to the Registrar in like manner as any other issued registration plate. If the registration is terminated under circumstances other than suspension or revocation, the Registrar in his or her discretion may elect not to require the return of the Year of Manufacture registration plate.

(6) Procedures. The Registrar may adopt such further policies and procedures as in the Registrar's judgment are necessary or desirable to implement 540 CMR 2.07.

2.15: Licensing of Operators of School Buses and Operators of School Pupil Transport Vehicles

(1) Purpose, Scope and Applicability. 540 CMR 2.15 establishes uniform standards and requirements for the issuance of a Registry of Motor Vehicles license to operate a school bus pursuant to M.G.L. c. 6C, § 56 and c. 90, § 8A. Such license to operate a school bus is also referred to as a school bus operator's certificate.
