

Household Economic Burden Index Analysis

2022

Name of Company NSTAR Electric Company
D/B/A Eversource Energy
Address 800 Boylston Street
 Boston, MA 02199-8003

I hereby certify under the penalties of perjury that the foregoing statement is true to the best of my knowledge and belief.

Signature *Christopher Plecs, CFA*
Name Christopher Plecs, CFA
Title Director, Regulatory Projects & Compliance

Consistent with the Department of Public Utilities’ directives in D.P.U. 22-22, NSTAR Electric Company d/b/a Eversource Energy (“Company”) developed the following chart, which provides a detailed household economic burden index analysis (“Burden Analysis”) evaluating residential energy electric utility customer bills as percentages of household income by county. The Burden Analysis provides the summary results of a detailed household burden index analysis by census block group, which is based on the total customer bill that includes net metering from solar, low-income discounts, and other bill impact factors.

The Burden Analysis further provides an analysis by household income for the statewide median household income and 50 percent, 100 percent, and 200 percent of the Federal Poverty Guidelines, to provide the Department with a clearer picture of specific areas in the Company’s service territory with higher-than-average energy burden.

For its analysis, the Company engaged a third-party to geocode its customers and append census level identifiers and related information. The Company then summarized its billing data to yield average bills by the census identifiers to conduct the Burden Analysis. The Company, furthermore, intends to use this information to develop more advanced and meaningful strategies to enhance customer engagement and support.

Field	Description
Census Block ID	The Census defined geographic ID for the block group.
Census Block Label	Text label from Census American Community Survey (ACS) tables describing the block group, linked up with frequently used political type boundaries.
County	Determined based on the Census Block Label.

Municipality(ies)	The towns associated with the block group; as some block groups span multiple towns in rural areas and odd large commercial areas like Logan Airport, included those multiple towns designated with a "," in the string.
Electric Utility	Service in the block group per geolocated account addresses from the 2021 active customer population. Some cases marked as Split where multiple Utilities provide service.
Census Block Group Median Income	The median income for the block group as reported by the 5 year ACS for the 2021 ACS cycle.
Census Block Group Households	The block group estimated households from the ACS data.
Census Tract Median Income	The median income for the census tract ID. This repeats and cannot be summed vertically. Provided as an alternative grain for census block groups where the number of households was too small for ACS to report out median income.
Census Tract Households	The ACS estimated number of households for the census tract ID. This repeats and cannot be summed vertically. Provided as an alternative grain for census block groups where the number of households was too small for ACS to report out median income.
Census Block/Tract Level Median Income	The Census block group median income except in cases where the number of households was too small at the Census block level for ACS to report in which case the tract level income was used as a proxy.
Statewide Median Income	The state's 5 year median income is \$89,026 from https://www.census.gov/quickfacts/fact/table/MA/INC110221 .
50% of Poverty	50% percent of a federal poverty level of \$13,250 for a family of 4: https://www.mass.gov/doc/cold-relief-brochure/download
100% of Poverty	100% percent of a federal poverty level of \$26,500 for a family of 4: https://www.mass.gov/doc/cold-relief-brochure/download
200% of Poverty	200% percent of a federal poverty level of \$53,000 for a family of 4: https://www.mass.gov/doc/cold-relief-brochure/download
Electric Households included in Average Bill Calculation	Number of households included in the average electric bill analysis for the purposes of providing accurate county level data.
Average Annual Electric Bill	<p>Average annual electric bill at the Census block level.</p> <ol style="list-style-type: none"> 1. Summarize the billing data at the Block Group Level breaking the bills into winter and summer periods. We did this at the premise level to account for customer turnover. Winter is defined as Nov – April (181 Days) & Summer is May - Oct (184 Days) 2. Divide the winter and summer aggregates by the total number of days in the bills for those periods. This yields an average per day within the season 3. Multiply the daily bill in each period by the full number of days in the winter period and summer period 4. Add the two together to get an annualized bill
Electric Energy Burden based on Census Median Income	Electric energy burden calculated as the average electric bill compared to the median income at a Census block group or tract level.

Electric Energy Burden based on Statewide Median Income	Electric energy burden calculated as the average electric bill compared to the Statewide median income.
Electric Energy Burden based on 50% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 50% of the federal poverty level in a 4 person household.
Electric Energy Burden based on 100% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 100% of the federal poverty level in a 4 person household.
Electric Energy Burden based on 200% of Poverty	Electric energy burden calculated as the average electric bill compared to an income at 200% of the federal poverty level in a 4 person household.
