INDEPENDENT ACCOUNTANTS' COMPILATION REPORT

The Board of Commissioners
Hingham Municipal Lighting Plant
Hingham, Massachusetts 02043

We have compiled the balance sheet of Hingham Municipal Lighting Plant as of December 31, 2012 and the related statements of income and unappropriated retained earnings for the year then ended included in the accompanying prescribed form. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with the form prescribed by the Massachusetts Department of Public Utilities.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with requirements prescribed by the Massachusetts Department of Public Utilities and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

These financial statements are presented in accordance with the requirements of the Massachusetts Department of Public Utilities, which differ from accounting principles generally accepted in the United States of America. This report is intended solely for the information and use of the Massachusetts Department of Public Utilities and is not intended to be and should not be used by anyone other than this specified party.

| 8. | Total valuation of estates in town (or city) according to last State valuation (taxable) | \$ 5,339,746,800 |
| 9. | Tax rate for all purposes during the year: | Residential \$12.32 Open Space Commercial/Industrial/Personal Property |
| 10. | Amount of manager's salary: | \$154,018 |
| 11. | Amount of manager's bond: | \$10,000 |
| 12. | Amount of salary paid to members of municipal light board (each): | \$214 |

FURNISH SCHEDULE OF ESTIMATES REQUIRED BY GENERAL LAWS, CHAPTER 164, SECTION 57 FOR GAS AND ELECTRIC LIGHT PLANTS FOR THE FISCAL YEAR, ENDING DECEMBER 31, NEXT.

| | | Amount |
|---------------------------------------|--|--------------|
| INCOME FROM PRIVATE CONSUMERS: | | |
| 1 | From sales of gas | |
| 2 | From sales of electricity | 30,100,000 |
| 3 | | TOTAL |
| 4 | | 30,100,000 |
| EXPENSES | | |
| 6 | For operation, maintenance and repairs | 27,100,000 |
| 7 | For interest on bonds, notes or scrip | |
| 8 | For depreciation fund (4 % 47,902,997 as per page 8A) | 1,916,120 |
| 9 | For sinking fund requirements | |
| 10 | For note payments | |
| 11 | For bond payments | |
| 12 | For loss in preceding year | |
| 13 | | TOTAL |
| 14 | | 29,016,120 |
| COST: | | |
| 16 | Of gas to be used for municipal buildings | |
| 17 | Of gas to be used for street lights | |
| 18 | Of electricity to be used for municipal buildings | 1,200,000 |
| 19 | Of electricity to be used for street lights | 200,000 |
| 20 | Total of above items to be included in the tax levy | 1,400,000 |
| 21 | | |
| 22 | New construction to be included in the tax levy | |
| 23 | Total amounts to be included in the tax levy | 1,400,000 |

CUSTOMERS

| Names of cities or towns in which the plant supplies GAS, with the number of customers' meters in each. | | Names of cities or towns in which the plant supplies ELECTRICITY, with the number of customers' meters in each. | |
|---|--------------------------------------|---|--------------------------------------|
| City or Town | Number of Customers' Meters, Dec. 31 | City or Town | Number of Customers' Meters, Dec. 31 |
| | | Hingham | 10,207 |
| TOTAL | 0 | TOTAL | 10,207 |

APPROPRIATIONS SINCE BEGINNING OF YEAR

(Include also all items charge direct to tax levy, even where no appropriation is made or required.)

FOR CONSTRUCTION OR PURCHASE OF PLANT

*At meeting , to be paid from **

*At meeting , to be paid from **

TOTAL 0**FOR THE ESTIMATED COST OF THE GAS OR ELECTRICITY
TO BE USED BY THE CITY OR TOWN FOR:**

1. Street lights 200,000

2. Municipal buildings 1,200,000

3.

TOTAL 1,400,000

* Date of meeting and whether regular or special

** Here insert bonds, notes or tax levy

CHANGES IN THE PROPERTY

1. Describe briefly all the important physical changes in the property during the last fiscal period including additions, alterations or improvements to the works or physical property retired.

In electric property: None

In gas property: Not applicable

| Bonds (Issued on Account of Gas or Electric Lighting.) | | | | | | | |
|---|---------------|-----------------------------|--------------------|--------------|----------|--------------|-----------------------------------|
| When Authorized* | Date of Issue | Amount of Original Issue ** | Period of Payments | | Interest | | Amount Outstanding at End of Year |
| | | | Amounts | When Payable | Rate | When Payable | |
| Regular April 27, 1987 | July 15, 1988 | \$3,800,000 | | | | | |
| Refunding Issue | May 15, 1993 | \$960,000 \$2,830,000 | | | | | |
| | TOTAL | \$7,590,000 | | | | TOTAL | |

The bonds and notes outstanding at end of year should agree with the Balance Sheet.

When bond and notes are repaid report the first three columns only

* Date of meeting and whether regular or special

** List original issues of bonds and notes including those that have been repaid

Town Notes

PRODUCTION FUEL AND OIL STOCKS (Included in Account 151)

(Except Nuclear Materials)

1. Report below the information called for concerning production fuel and oil stocks.
2. Show quantities in tons of 2,000 lbs., gal., or Mcf., whichever unit of quantity is applicable.
3. Each kind of coal or oil should be shown separately.
4. Show gas and electric fuels separately by specific use.

ELECTRIC OPERATING REVENUES (Account 400)

meter readings are added for billing purposes, one customer shall be counted for each group of meters so added. The average number of customers means the average of the 12 figures at the close of each month. If the customer count in the residential service classification includes customers counted more than once because of special services, such as water heating, etc., indicate in a footnote the number of such duplicate customers included in the classification.

4. Unmetered sales should be included below. The details of such sales should be given in a footnote.

5. Classification on Commercial and Industrial Sales, Account 442, Large (or Industrial) may be according to the basis of classification regularly used by the respondent if such basis of classification is not greater than 1000 KW. See Account 442 of the Uniform System of Accounts. Explain basis of Classification

SALES OF ELECTRICITY TO ULTIMATE CONSUMERS

Report by account number the K.W.H. sold, the amount derived and the number of customers under each filed schedule or contract. Municipal sales, contract sales and unbilled sales may be reported separately in total.

| Line No. | Account No. | Schedule (a) | K.W.H. (b) | Revenue (c) | Average Revenue per KWH (cents) (0.0000) (d) | Number of Customers (per Bills rendered) | |

SALES FOR RESALE (Account 447)

1. Report sales during year to other electric utilities and to cities or other public authorities for distribution to ultimate consumers.
 2. Provide subheadings and classify sales as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Municipalities, (4) R.E.A. Cooperatives, and (5) Other Public Authorities. For each sale designate statistical classification in column (b), thus: firm power, FP; dump or surplus power, DP; other, G,

and place an "x" in column (c) if sale involves export across a state line.
 3. Report separately firm, dump, and other power sold to the same utility. Describe the nature of any sales classified as Other Power, column (b).
 4. If delivery is made at a substation indicate ownership in column (e), thus: respondent owned or leased, RS; customer owned or leased, CS.

| Line No. | Sales to: (a) | Statistical Classification (b) | Export Across State Line (c) | Point of Delivery (d) | Sub Station (e) | Kw or Kva of Demand | | |

| | * Winter period contract demand. | | | | | | | |

SALES FOR RESALE (Account 447) - Continued

5. If a fixed number of kilowatts of maximum demand is specified in the power contract as a basis of billings to the customer this number should be shown in column (f). The number of kilowatts of maximum demand to be shown in column (g) and (h) should be actual based on monthly readings and should be furnished whether or not used in the determination of demand charges. Show in column (i) type of demand reading (instantaneous, 15, 30, or 60 minutes

integrated).

6. The number of kilowatt-hours sold should be the quantities shown by the bills rendered to the purchasers.

7. Explain any amounts entered in column (n) such as fuel or other adjustments.

8. If a contract covers several points of delivery and small amounts of electric energy are delivered at each point, such sales may be grouped.

| Type of Demand Reading (i) | Voltage at Which Delivered (j) | Revenue (Omit Cents) | | | | | Revenue per kwh (CENTS) (0.0000) (p) |
|-------------------------------|-----------------------------------|-----------------------|-------------------------|-----------------------|----------------------|--------------|--|

| TOTALS: | | 0 | 0 | 0 | | 0 | |

PURCHASED POWER (Account 555)
(EXCEPT INTERCHANGE POWER)

4. If receipt of power is at a substation indicate ownership in column (e), thus: respondent owned or leased, RS; seller owned or leased, SS.

5. If a fixed number of kilowatts of maximum demand is specified in the power contract as a basis of billing, this number should be shown in column (f). The number of kilowatts of maximum demand to be shown in columns (g) and (h) should be actual based on monthly readings and

should be furnished whether or not used in the determination of demand charges. Show in column (i) type of demand reading (instantaneous, 15, 30, or 60 minutes integrated).

6. The number of kilowatt hours purchased should be the quantities shown by the power bills.

7. Explain any amount entered in column (n) such as fuel or other adjustments.

INTERCHANGE POWER (Included in Account 555)

1. Report below the kilowatt-hours received and delivered during the year and the net charge or credit under interchange power agreements.

2. Provide subheadings and classify interchanges as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilities, (5) Municipalities, (6) R.E.A. Cooperatives, and (7) Other Public Authorities. For each interchange across a state line place an "x" in column (b).

3. Particulars of settlements for interchange power

shall be furnished in Part B, Details of Settlement for Interchange Power. If settlement for any transaction also includes credit or debit amounts other than for increment generation expenses, show such other component amounts separately, in addition to debit or credit for increment generation expenses, and give a brief explanation of the factors and principles under which such other component amounts were determined. If such settlement represents the net of debits and credits under an interconnection, power pooling,

coordination, or other such arrangement, submit a copy of the annual summary of transactions and billings among the parties to the agreement. If the amount of settlement reported in this schedule for any transaction does not represent all of the charges and credits covered by the agreement, furnish in a footnote a description of the other debits and credits and state the amounts and accounts in which such other amounts are included for the year.

A. Summary of Interchange According to Companies and Points of Interchange

MONTHLY PEAKS AND OUTPUT

| | |
|---|--|
| <p>1. Report hereunder the information called for pertaining to simultaneous peaks established monthly (in kilowatts) and monthly output (in kilowatt-hours) for the combined sources of electric energy of respondent.</p> <p>2. Monthly peak col. (b) should be respondent's maximum kw load as measured by the sum of its coincidental net generation and purchase plus or minus net interchange, minus temporary deliveries (not interchange) of emergency power to another system. Monthly peak including such emergency deliveries should be shown in a footnote with a brief explanation</p> | <p>as to the nature of the emergency.</p> <p>3. State type of monthly peak reading (instantaneous 15, 30, or 60 minutes integrated.)</p> <p>4. Monthly output should be the sum of respondent's net generation and purchases plus or minus net interchange and plus or minus net transmission or wheeling. Total for the year should agree with line 15 above.</p> <p>5. If the respondent has two or more power systems not physically connected, the information called for below should be furnished for each system.</p> |

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
 2. Substations which serve but one industrial or street railway customer should not be listed hereunder.
 3. Substations with capacities of less than 5000 kva, except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.

4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended.
 5. Show in columns (i), (j), and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and auxiliary equipment for increasing capacity.
 6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give

name of lessor, date and period of lease and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses of other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner or other party is an associated company.

Hingham Municipal Lighting Plant

TARIFF, TERMS AND CONDITIONS FOR RENEWABLE DISTRIBUTED GENERATION FACILITY SERVICE

Designation: RENEWABLE DISTRIBUTED GENERATION FACILITY SERVICE

Availability: This tariff, and the terms and conditions contained therein, apply to certain renewable generation facilities located on the customer's premises, i.e., the same place at which it receives electric service from Hingham Municipal Lighting Plant, where such facilities are owned or leased by the customer and used solely for the purpose of the customer's own consumption. Net metering as set forth herein is available for any qualifying renewable distributed generation facility including, but not limited to, Wind, Photovoltaic, Biomass, Hydroelectric, Fuel Cells and Municipal Solid Waste with generation facilities rated 60 kW or less ("renewable distributed generation facility"). Any renewable distributed generation facility rated greater than 60 kW needs to be contracted through Hingham Municipal Lighting Plant under a separate written agreement. The use of a renewable distributed generation facility for providing service to a third party is strictly prohibited. The availability of net metering to a customer that owns or leases a renewable distributed generation facility is subject to the terms and conditions of this tariff, as well as Hingham Municipal Lighting Plant's general Terms and Conditions where not inconsistent, as may be in effect from time to time. In its sole discretion, Hingham Municipal Lighting Plant may limit the cumulative generating capacity of all renewable distributed generation facilities in its service territory.

Net Metering Requirements: All renewable distributed generation facilities must be equipped with a separate revenue quality meter provided by HMLP in order to accurately

meter the kWh output from the facility. This separate meter will have the designation solar distribution charge meter.

Rate: MONTHLY BILLING OF THE RENEWABLE DISTRIBUTED GENERATION FACILITY CUSTOMERS

All excess monthly kWh produced by the renewable distributed generation facility will be credited to the customer on their monthly invoice. The amount of credit due to customer includes only the energy amount. All other components of rates and charges in effect are not included in the credit amount. The amount of credit due to customer is calculated as follows:

Excess monthly kWh produced by qualifying distributed generation facility x HMLP energy charge/kWh = total credit due customer

There is no monthly customer charge for the qualifying facility meter.

Minimum Bill: There is no minimum amount on a monthly bill. Billing is based solely on kWh produced by the facility.

Interconnection Terms and Conditions: The Hingham Municipal Lighting Plant shall own and install any interconnection facilities on the Lighting Plant side of the meter required for the facility. The costs associated with the installation and maintenance of the renewable distributed generation facility will be borne by the customer. These costs include, but are not limited to, the costs of connection, switching, metering, transmission, distribution, safety provisions, and administrative costs incurred by the Hingham Municipal Lighting Plant directly related to the installation and maintenance of the facilities necessary to permit interconnected operations with the customer. The customer shall pay for these interconnection costs as determined as follows:

A one-time lump-sum payment equal to the estimated new installed cost of all interconnection facilities provided by the Lighting Plant.

In addition to the costs detailed above, the actual costs associated with relocating and/or rearranging existing facilities to allow interconnected operation will also be borne by the customer. A monthly charge shall not apply to these costs. Payment for these costs shall be on a one-time lump-sum basis and calculated in the same manner that the Hingham Municipal Lighting Plant charges its other customers for similar work.

The renewable distributed generation facility will have equipment specifications and plans for control devices, interconnection facilities and protective devices approved by the Hingham Municipal Lighting Plant in advance of energizing the facility. Such protective devices shall include an outdoor manual disconnect switch. The relays and

protective equipment shall be subject, at all reasonable times, to inspection by the Lighting Plant's authorized representative.

At the Hingham Municipal Lighting Plant's request, the customer shall furnish, install and maintain, at its expense, corrective apparatus which results in an average power factor of not less than 90% lagging.

Parallel operation must cease, immediately and automatically during system outages and other emergency or abnormal conditions specified by the Hingham Municipal Lighting Plant. The renewable distributed generation facility must cease parallel operation upon notification by the Lighting Plant if such operation is determined to be unsafe, to interfere with the supply of service to others, or to interfere with system operation or maintenance.

The Hingham Municipal Lighting Plant may disconnect the renewable distributed generation facility from its system at any time that the Lighting Plant determines, in its sole discretion, that the safety and reliability of its system may be compromised by the operation of the Facility. In the event that the renewable distributed generation facility damages Hingham Municipal Lighting Plant's system, the customer shall be solely responsible for all costs associated with the repair and/or replacement of the damaged portion of the Lighting Plant's system and/or equipment.

Hingham Municipal Lighting Plant shall not be liable to the customer or any other person for any loss, injury, damage, casualty, fees or penalties, asserted on the basis of any theory, arising from, related to or caused by the construction, installation, operation, maintenance or repair of the renewable distributed generation facility, and associated equipment and wiring, except to the extent of its own gross negligence or willful misconduct, but only to the extent permitted by law. Neither by inspection nor non-rejection nor in any other way does the Lighting Plant give any warranty, expressed or implied as to the adequacy, safety or other characteristics of any equipment, wiring or devices, installed on the customer's premises, including the renewable distributed generation facility.

The customer shall indemnify and hold harmless Hingham Municipal Lighting Plant, its Board members, managers, employees, agents, consultants, attorneys and assigns from and against any and all losses, claims, damages, costs, demands, fines, judgments, penalties, payments and liabilities, together with any costs and expenses (including attorneys' fees) incurred in connection with, resulting from, relating to or arising out of the construction, installation, operation, maintenance and repair of the renewable distributed generation facility, including the customer's failure to comply with the Lighting Plant's Terms and Conditions or any abnormality or failure in the operation of the Facility, or any adverse impact to the Lighting Plant's system or its other customers. The customer shall maintain sufficient insurance to cover any damage to Hingham Municipal Lighting Plant's system caused by the construction, operation, maintenance and repair the Facility and shall name the Lighting Plant as additional insured. The customer shall provide Hingham Municipal Lighting Plant with proof of satisfactory insurance upon request.

Termination: Failure of the renewable distributed generation facility to comply with any of the requirements set forth above may result in disconnection from the Lighting Plant's system. The Lighting Plant's Terms and Conditions in effect from time to time where not inconsistent with any specific provisions above, are a part of this rate.

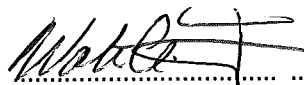

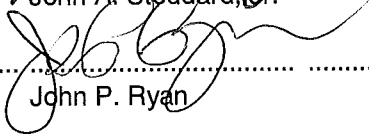

The customer may terminate service under this tariff by providing written notice to Hingham Municipal Lighting Plant. The Lighting Plant reserves the right to discontinue paying credits for excess kWh at any time in its discretion, upon thirty (30) days' notice to the customer.

In the event that a transfer of ownership of the renewable distributed generation facility to a new customer occurs, the customer must notify the Lighting Plant in writing.

Payment Terms: The Lighting Plant will read the meter at approximately 30-day intervals. Payment to the customer will be applied in the form of a credit on their bill.

Effective Date: April 1, 2012

THIS RETURN IS SIGNED UNDER THE PENALTIES OF PERJURY
