

THE COMMONWEALTH OF MASSACHUSETTS

RETURN

OF THE

TOWN OF READING MUNICIPAL LIGHT DEPARTMENT

TO THE

**DEPARTMENT OF
PUBLIC UTILITIES**

OF MASSACHUSETTS

FOR THE YEAR ENDED DECEMBER 31,

2014

Name of Officer to whom correspondence should
be addressed regarding this report.

Coleen M. O'Brien

Official Title: **General Manager**

Office Address: **230 Ash Street**

Reading, MA. 01867

TABLE OF CONTENTS

General Information	3
Schedule of Estimates	4
Customers in each City or Town	4
Appropriations Since Beginning of Year	5
Changes in the Property	5
Bonds	6
Town Notes	7
Cost of Plant	8-9
Comparative Balance Sheet	10-11
Income Statement	12-13
Earned Surplus	12
Cash Balances	14
Materials and Supplies	14
Depreciation Fund Account	14
Utility Plant - Electric	15-17
Production of Fuel and Oil Stocks	18
Miscellaneous Nonoperating Income	21
Other Income Deductions	21
Miscellaneous Credits to Surplus	21
Miscellaneous Debits to Surplus	21
Appropriations of Surplus	21
Municipal Revenues	22
Purchased Power	22
Sales for Resale	22
Electric Operating Revenues	37
Sales of Electricity to Ultimate Consumers	38
Electric Operation and Maintenance Expenses	39-42
Taxes Charged During Year	49
Other Utility Operating Income	50
Income from Merchandising, Jobbing and Contract Work	51
Monthly Peaks and Output	57
Generating Station Statistics	57
Steam Generating Stations	58-59
Hydroelectric Generating Stations	60-61
Combustion Engine and Other Generating Stations	62-63
Generating Statistics (Small Stations)	64-65

GENERAL INFORMATION

- | | |
|--|---|
| 1. Name of town (or city) making this report. | Town of Reading |
| 2. If the town (or city) has acquired a plant, | |
| Kind of plant, whether gas or electric. | Electric |
| Owner from whom purchased, if so acquired. | Created in 1894 |
| Date of votes to acquire a plant in accordance with the provisions of chapter 164 of the General Laws. | |
| Record of votes: First vote Yes, 94 ; No, 14 Second vote: Yes, 361 ; No, 21 | |
| Date when town (or city) began to sell electricity, | 1895 |
| 3. Name and address of acting general manager of municipal lighting: | Coleen M. O'Brien
230 Ash Street
Reading, MA. 01867 |
| 4. Name and address of mayor or selectman | John Arena, Chair
Marsie K. West, Vice Chair
Danlel Ensminger, Secretary
John R. Halsey
Kevin M. Sexton |
| 5. Name and address of town (or city) treasurer: | Nancy J. Heffernan
16 Lowell Street
Town Hall
Reading, MA. 01867 |
| 6. Name and address of town (or city) clerk: | Laura A. Gemme
16 Lowell Street
Town Hall
Reading, MA. 01867 |
| 7. Names and addresses of members of municipal light board: | David Talbot, Chair
Philip B. Pacino, Vice Chair
Thomas O'Rourke
John Stempeck |
| 8. Total valuation of estates in town (or city) according to last state valuation | \$3,999,637.75 |
| 9. Tax rate for all purposes during the year: | \$14.70 |
| 10. Amount of manager's salary: | \$169,957.00 |
| 11. Amount of manager's bond: | \$50,000.00 |
| 12. Amount of salary paid to members of municipal light board (each) | \$0.00 |

FURNISH SCHEDULE OF ESTIMATES REQUIRED BY GENERAL LAWS, CHAPTER 164, SECTION 57 FOR GAS AND ELECTRIC LIGHT PLANTS FOR THE FISCAL YEAR ENDING DECEMBER 31, NEXT

INCOME FROM PRIVATE CONSUMERS:		
1	From sales of gas.....	
2	From sales of electricity	87,392,029.00
3		
4	TOTAL	87,392,029.00
5	Expenses:	
6	For operation, maintenance and repairs.....	80,597,058.00
7	For interest on bonds, notes or scrip.....	
8	For depreciation fund (3% on \$129,733,333.00).....	3,892,000.00
9	For sinking fund requirements.....	
10	For note payments.....	
11	For bond payments.....	
12	For loss in preceding year.....	
13	TOTAL	84,489,058.00
14		
15	Cost:	
16	Of gas to be used for municipal buildings.....	
17	Of gas to be used for street lights.....	
18	Of electricity to be used for municipal buildings.....	
19	Of electricity to be used for street lights.....	
20	Total of the above items to be included in the tax levy.....	
21		
22	New construction to be included in the tax levy.....	
23	Total amounts to be included in the tax levy.....	

CUSTOMERS

Names of cities of towns in which the plant supplies GAS, with the number of customers' meters in each		Names of cities of towns in which the plant supplies ELECTRICITY, with the number of customers' meters in each	
City or Town	Number of Customers' Meters, Dec 31.	City or Town	Number of Customers' Meters, Dec 31.
		Reading	10,296
		Lynnfield	3,110
		North Reading	6,715
		Wilmington	9,455
		Co-Op Resale	20
		TOTAL	29,596

APPROPRIATIONS SINCE BEGINNING OF YEAR

(Include also all items charged direct to tax levy, even where no appropriation is made or required.)

FOR CONSTRUCTION OR PURCHASE OF PLANT:

* At	meeting	19	, to be paid from {	\$	_____
* At	meeting	19	, to be paid from {	\$	_____

FOR THE ESTIMATED COST OF THE GAS OR ELECTRICITY TO BE USED BY THE CITY OR TOWN FOR:

- 1. Street Lights..... \$ _____
- 2. Municipal Buildings..... \$ _____

*Date of meeting and whether regular or special { Here insert bonds, notes or tax levy

CHANGES IN THE PROPERTY

1. Describe briefly all the important physical changes in the property during the last fiscal period including additions, alterations or improvements to the works or physical property retired.

In electric property:

SEE ATTACHED SCHEDULE

In gas property:

READING MUNICIPAL LIGHT DEPARTMENT
CALENDAR YEAR 2014 CONSTRUCTION HIGHLIGHTS

PEAK DEMAND

The Reading Municipal Light Department's (RMLD) system peak demand in Calendar Year 2014 was 157,252 kW occurring on Friday, July 2, 2014, at 4:00 pm. This was 8.84% lower than the highest peak demand of 172,493 kW set in August 2006. The RMLD purchased 709,255,033 kWh in CYF14.

LINE CONSTRUCTION

Line construction throughout the system is performed to provide reliability enhancement, to connect new loads, or to address areas needing upgrades. This work includes both overhead and underground cable installation, service installation and upgrades, installation and removal of poles, transfers of electrical equipment, and performing work related to Massachusetts Highway Projects.

READING

Circuit Upgrades:

- Approximately 1,800 circuit feet of underground cable was installed as part of the circuit 4W13 upgrade project.
- Approximately 1,000 feet of primary cable and 1,200 feet of secondary cable were installed on Vine Street.
- Approximately 400 feet of primary cable and secondary cable were installed at 184 Woburn Street.
- Approximately 1,300 feet of primary cable and secondary cable were installed on Mark Avenue and Laurel Lane.

Commercial/Industrial:

Notable examples of new service additions or upgrades:

- St Agnes Church Parish Center – 184 Woburn Street

WILMINGTON

Circuit Upgrades:

- Approximately 2,600 circuit feet of primary cable was installed on West Street as part of the circuit 4W13 upgrade project.
- Approximately 3,400 circuit feet of primary cable was installed on Wildwood Street as part of the circuit 5W9 upgrade project.
- Approximately 1,000 circuit feet of primary cable was installed on the Town Hall Road.

Commercial/Industrial:

Notable examples of new service additions or upgrades:

- Commercial Building – 841 Woburn Street
- Red Heat Tavern – 300 Lowell Street
- United Tool & Die – 98 Eames Street
- Target – 210 Ballardvale Street
- Commercial Building – 200 Andover Street
- Kirkwood Printing – 904 Main Street
- Commercial Building – 110 Eames Street
- Burlington Self Storage – 114 West Street
- ConforMIS – 600 Research Drive
- Dunkin' Donuts – 206 Ballardvale Street

NORTH READING

Circuit Upgrades:

- Approximately 1,000 circuit feet of primary cable was installed on Park Street as part of the North Reading High School project.

Commercial/Industrial:

New North Reading High School – Park Street

LYNNFIELD CENTER

There were no notable new service additions or upgrades.

CUSTOMER CALLS

The Department answered approximately 1,442 trouble calls that were of a routine or emergency nature. A summary of the reasons for these calls include: house service difficulties, trees interfering with power lines, utility poles hit by vehicles, animal contact with energized lines, and transformer and equipment problems for miscellaneous reasons. There were 42 pole damage cases as a result of motor vehicle accidents.

POLE REPLACEMENTS

The Department completed approximately 114 pole installations and replacements. Many of these were in connection with the RMLD circuit upgrade projects throughout the service area.

DIGSAFE

The RMLD marked out underground facilities locations for 4,113 DIGSAFE calls.

METERS

Between the Meter and Line Departments, service upgrades, new construction, and renovations resulted in a total of 216 new overhead and underground residential and commercial/industrial services delineated as follows:

- Reading – 89 residential and 10 commercial/industrial
- Lynnfield – eight (8) residential and one (1) commercial/industrial
- North Reading – 36 residential and 10 commercial/industrial
- Wilmington – 33 residential and 29 commercial/industrial

A total of 166 new residential services represent a 30% decrease in new residential services from CY13 (239). A total of 50 commercial/industrial services were installed representing a 6% decrease from CY13 (53).

Ninety-one (91) meters were replaced due to routine residential and commercial meter replacements.

TREE TRIMMING AND PREVENTATIVE MAINTENANCE

In 2014 the RMLD continued its preventive maintenance, tree-trimming program. Three tree crews concentrated on feeder maintenance and customer calls. The RMLD continues to use an arborist to identify where eminent tree/wire conflicts and hazards may exist so that the RMLD can take a targeted and prioritized approach to correcting these conditions and eliminating a potential outage situation.

COMPARATIVE SYSTEM PERFORMANCE STATISTICS

The RMLD utilizes Customer Average Interruption Index (CAIDI), System Average Interruption Duration Index (SAIDI), and System Average Interruption Frequency Index (SAIFI) data to measure system performance.

CAIDI measures the average duration (in minutes) of an interruption experienced by customers. SAIFI measures the average number of instances that a customer will experience an interruption. In CY14, CAIDI was 63.31 average minutes of outage time, and SAIFI was 0.62 instances. The slight upward trend of SAIFI is the direct result of exceptional tree growth, increased motor vehicle accidents, and failure of aged equipment tied to specific areas of the system that have experienced more frequent outages.

SAIDI measures the average interruption duration (in minutes) for customers served by the utility. In CY14, SAIDI was 39 minutes.

The RMLD continues to provide reliable service through the development and implementation of a number of proactive maintenance programs in 2014. All three indices measured below the national average with SAIDI and CAIDI also measuring below the regional average.

RENEWABLE ENERGY

RMLD is working with customers who wish to install renewable energy products. At the end of CY14, there were a total of 27 residential (167.051 kW) and four commercial (914.66 kW) sites generating solar energy within RMLD's service territory. In 2014 photovoltaic systems were added at six residential locations (one in Reading, one in North Reading, two in Lynnfield, and two in Wilmington). One new commercial site was added in Wilmington.

FLEET & FACILITIES

Facilities:

The Designer Selection Committee for the removal and replacement of existing boilers, chillers and associated equipment selected McRitchie Engineering as the firm to provide engineering, design and project management support for the upgrade of the HVAC system in the main operations/office building located at 230 Ash Street. McRitchie Engineering will be providing support in the following three areas:

- study and value engineering,
- engineering, design and construction documents (in progress), and
- construction/project management.

The new HVAC equipment will operate at significantly higher efficiency providing lower energy costs. The system will also be controlled with a new Building Control System to further reduce energy usage.

Annual fire extinguisher inspection and maintenance was completed in August with over 165 fire extinguishers inspected and maintained. This program ensures that critical safety equipment located in all RMLD vehicles and buildings is available if needed.

Security:

Significant upgrades continue to the security system at the Ash Street campus. These upgrades have improved monitoring of all facilities from the RMLD Control Room. During 2014 additional improvements associated with perimeter lighting and exterior doors on two buildings at the Ash Street campus as well as additional upgrades associated with the improved monitoring of Station 4 and other security related items were also completed.

Fleet:

The Facilities group completed dielectric testing of 16 Line Department vehicles. The Facilities group also performed preventive maintenance of 17 Line Department vehicles to provide proper operation of the mechanical and lift equipment for daily operation. The maintenance program ensures vehicles are safe and operational at all time, especially during significant weather events. It

should be noted that during significant weather events all Line Department vehicles maintained proper operation with only minor issues. In addition, preventative maintenance was performed on 22 light-duty trucks and cars during the year.

In 2014 RMLD received the following new Line Department vehicles:

- two pick-up trucks
- one 55-foot material handler
- one first response bucket truck (trouble truck)

TOWN NOTES

(Issued on Account of Gas or Electric Lighting)

When Authorized	Date of Issue	Amount of Original Issue	Period of Payments		Interest		Amount of Outstanding at End of Year

TOTAL		4,324,827.00					0.00

The bonds and notes outstanding at the end of the year should agree with the balance sheet. When bonds and notes are repaid, report the first three columns only.

TOTAL COST OF PLANT - ELECTRIC

1. Report below the cost of utility plant in service according to prescribed accounts.
 2. Do not include as adjustments, corrections of additions and retirements for the current or the preceding year. Such items should be included in column (c) or (d) as appropriate.
 3. Credit adjustments of plant accounts should be enclosed in parentheses to indicate the negative effect of such amounts.
 4. Reclassifications or transfers within utility plant accounts should be shown in column (f).

27	Total General Plant	23,317,284.00	927,394.00	433,240.00			23,811,438.00	
28	Total Electric Plant in Service	128,824,441.00	3,757,498.00	1,166,583.00	0.00	0.00	131,415,356.00	
29	TOTAL COST OF PLANT.....							
30	Less Cost of Land, Land Rights, and Rights of Way							
31	Total Cost upon which depreciation is based							
32								
33								
34								

The above figures should show the original cost of existing property. In case any part of the property is sold or retired, the cost of such property should be deducted from the cost of the plant. The net cost of the property, less the land values, should be taken as a basis for figuring depreciation.

21	Ratio of Operating Expenses to Operating Revenues (carry out decimal two places, (e.g. 0.00%) Compute by dividing Revenues (acct 400) into the sum of Operation and Maintenance Expenses (Page 42, Line 20 (d), Depreciation (Acct 403) and Amortization (Acct 407).....	93.35%
22	Total salaries and wages of electric department for year, including amounts charged to operating expenses, construction and other accounts.....	7,614,570.41
23	Total number of employees of electric department at end of year including administrative, operating, maintenance and other employees (including part time employees).....	72

TAXES CHARGED DURING YEAR

1. This schedule is intended to give the account distribution of total taxes charged to operations and other final accounts during the year.
 2. Do not include gasoline and other sales taxes which have been charged to accounts to which the material on which the tax was levied was charged. If the actual or estimated amounts of such taxes are known, they should be shown as a footnote and designated whether estimated or actual amounts.
 3. The aggregate of each kind of tax should be listed under the appropriate heading of "Federal," "State," and "Local" in such manner that the total tax for each State and for all subdivisions can readily be ascertained.
 4. The accounts to which the taxes charged were distributed should be shown in columns (c) to (h). Show both the utility department and number of account charged. For taxes charged to utility plant show the number of appropriate balance sheet plant account or subaccount.
 5. For any tax which it was necessary to apportion to more than one utility department or account, state in a footnote the basis or apportioning such tax.
 6. Do not include in this schedule entries with respect to deferred income taxes, or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.

Line No.	Kind of Tax (a)	Total Taxes Charged During Year (omit cents) (b)	Distribution of Taxes Charged (omit cents) (Show utility department where applicable and account charged)

SALES FOR RESALE (Account 447) - Continued

5. If a fixed number of kilowatts of maximum demand is specified in the power contract as a basis of billings to the customer this number should be shown in column (f).. The number of kilowatts of maximum demand to be shown in column (g) and (h) should be actual based on monthly readings and should be furnished whether or not used in the determination of demand charges. Show in column (i) type of demand reading (instantaneous, 15, 30, or 60 minutes integrated).

6. The number of Kilowatt-hours sold should be the quantities shown by the bills rendered to the purchasers.

7. Explain any amounts entered in column (n) such as fuel or other adjustments.

8. If a contract covers several points of delivery and small amounts of electric energy are delivered at each point, such sale may be grouped.

Type of Demand Reading (l)	Voltage at which Delivered (j)	Kilowatt-hours (k)	Revenue (Omit Cents)				Revenue per Kwh (cents) [0.0000] (p)	Line No.

PURCHASED POWER (Account 556)

1. Report power purchased for resale during the year. Exclude from this schedule and report on page 56 particulars concerning interchange power transactions during the year.

Authorities. For each purchase designate statistical classification in column (b), thus: firm power, FP; dump or surplus power DP; other, O, and place an "X" in column (c) if purchase involves import across a state line.

2. Provide subheadings and classify sales as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilities, (5) Municipalities, (6) R.E.A. Cooperatives, and (7) Other Public

3. Report separately firm, dump, and other power purchased from the same company. Describe the nature of any purchases classified as Other Power, column (b).

Line No.	Purchased From	Statistical Classification	Import Across State Lines	Point of Receipt	Substation	Kw or Kva Demand (Specify Which)

INTERCHANGE POWER (Included in Account 555)

coordination, or other such arrangement, submit a copy of the annual summary of transactions and billings among the parties to the agreement. If the amount of settlement reported in this schedule for any transaction does not represent all of the charges and credits covered by the agreement, furnish in a footnote a description of the other debits and credits and state the amounts and accounts in which such other amounts are included for the year.

shall be furnished in Part B, Details of Settlement for Interchange Power. If settlement for any transaction also includes credit or debit amounts other than for increment generation expenses, show such other component amounts separately, in addition to debit or credit for increment generation expenses, and give a brief explanation of the factors and principles under which such other component amounts were determined. If such settlement represents the net of debits and credits under an interconnection, power pooling,

1. Report below the Kilowatt-hours received and delivered during the year and the net charge or credit under interchange power agreements.
 2. Provide subheadings and classify interchanges as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilities, (5) Municipalities, (6) R.E.A., Cooperatives, and (7) Other Public Authorities. For each interchange across a state line place an "X" in column (b).
 3. Particulars of settlements for interchange power

MONTHLY PEAKS AND OUTPUT

- Report hereunder the information called for pertaining to simultaneous peaks established monthly (in kilowatts) and monthly output (in kilowatt-hours) for the combined sources of electric energy of respondent.
- Monthly peak col. (b) should be respondent's maximum Kw load as measured by the sum of its coincidental net generation and purchases plus or minus net interchange minus temporary deliveries (not interchange) or emergency power to another system. Monthly peak including such emergency deliveries should be shown in a footnote with a brief explanation as to the nature of the emergency.
- State type of monthly peak reading (Instantaneous 15, 30, or 60 minute Integrated.)
- Monthly output should be the sum of respondent's net generation and purchases plus or minus net interchange and plus or minus net transmission or wheeling. Total for the year should agree with line 15 above.
- If the respondent has two or more power systems and physically connected, the information called for below should be furnished for each system.

System

Monthly Peak

GENERATING STATION STATISTICS (Large Stations)
(Except Nuclear, See Instruction 10)

1. Large stations for the purpose of this schedule are steam and hydro stations of 2,500 Hw* or more of installed capacity and other stations of 500 Kw* or more of installed capacity (name plate ratings). (*10,000 Kw and 2,500 Kw, respectively, if annual electric operating revenues of respondent are \$25,000,000 or more.)

2. If any plant is leased, operated under a license from the Federal Power Commission, or operated as a joint facility, indicate such facts by the use of asterisks and footnotes.

3. Specify if total plant capacity is reported in kva instead of kilowatts as called for on line 5.

4. If peak demand for 60 minutes is not available, give that which is available, specifying period.

5. If a group of employees attends more than one generating station, report on line 11 the approximate average number of employees assignable to each station.

6. If gas is used and purchased on a term basis, the B.t.u. content of the gas should be given and the quantity of fuel consumed converted to M cu. ft.

7. Quantities of fuel consumed and the average cost per unit of fuel consumed should be consistent with charges to expense 501 and

GENERATING STATION STATISTICS (Large Stations) -- Continued
(Except Nuclear, See Instruction 10)

547 as shown on Line 24

8. The items under cost of plant and production expenses represents accounts or combinations of accounts prescribed by the Uniform System of Accounts. Production expenses, however, do not include Purchased Power, System Control and Load Dispatching, and Other Expenses classified as "Other Power Supply Expenses."

9. If any plant is equipped with combinations of steam, hydro, internal combustion engine or gas turbine equipment, each should be reported as a separate plant. However, if a gas turbine unit functions in a combined

operations with a conventional steam unit, the gas turbine should be included with the steam station.

10. If the respondent operates a nuclear power generating station submit: (a) a brief explanatory statement concerning accounting for the cost of power generated including any attribution of excess costs to research and development expenses; (b) a brief explanation of the fuel accounting specifying the accounting methods and types of cost units used with respect to the various components of the fuel cost, and (c) such additional information as may be informative concerning the type of plant, kind of fuel used, and other physical and operating characteristics of the plant.

Annual Report of Town of Reading Municipal Light Department

GENERATING STATION STATISTICS (Small Stations)

1. Small generating stations, for the purpose of this schedule, are steam and hydro stations of less than 2,500 KW* and other stations of less than 500 KW* installed capacity (name plate ratings). (*10,000 KW and 2,500 KW, respectively, if annual electric operating revenues of respondent are \$25,000,000 or more.
2. Designate any plant leased from others, operated under a license from the Federal Power Commission,

or operated as a joint facility, and give a concise statement of the facts in a footnote.
3. List plants appropriately under subheadings for steam, hydro, nuclear internal combustion engine and gas turbine stations. For nuclear, see instructions 10 page 59.
4. Specify if total plant capacity is reported in kva instead of kilowatts.

5. If peak demand for 60 minutes is not available, give that which is available, specifying period.
6. If any plant is equipped with combustions of steam, hydro, internal combustion engine or gas turbine equipment, each should be reported as a separate plant. However, if the exhaust heat from the gas turbine is utilized in a steam turbine regenerative feed water cycle, report as one plant.

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
 2. Substations which serve but one industrial or street railway customer should not be listed hereunder.
 3. Substations with capacities of less than 5000 Kva, except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.
 4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended.
 5. Show in columns (f), (j), and (k) special equipment such as rotary converters, reflectors, condensers, etc. and auxiliary equipment for increasing capacity.
 6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name of lessor, date and period of lease and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses of other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.

RATE SCHEDULE INFORMATION

1. Attach copies of all Filed Rates for General Consumers.
2. Show below the changes in rate schedules during year and the estimated increase or decrease in annual revenue predicted on the previous year's operations.

Date Effective	M.D.P.U. Number	Rate Schedule	Estimated Effect of Annual Revenues	
			Increases	Decrease
		N.B. NYPA CREDIT TOTALLED \$686,348.00		

Residential Schedule A Rate

Designation:

Residential A Rate

Available in:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Individual residential customers for all domestic uses where service is taken through one meter. Incidental commercial use, not exceeding 20% of the total energy used on the same premises is permitted.

Character of service:

A.C. 60 cycles: single phase.

Customer Charge:

\$3.73 per month

Energy Charge:

\$.08980 per Kilowatt-hour for all Kilowatt-hours usage

Budget Billing:

The customers under this rate will have available to them a budget billing program under which the customer is required to pay a levelized amount to the Department each billing period during the calendar year. The specifics of this program are outlined in the Department's General Terms and Conditions.

Farm Discount:

Customers who meet the eligibility requirements set forth by the Massachusetts Department of Food and Agriculture for being engaged in the business of agriculture or farming, and upon certification to the RMLD by the Massachusetts Department of Food and Agriculture, will be eligible for an additional 10% discount, prior to the RMLD prompt payment discount, on rates and charges applicable on their monthly billing statement.

Energy Conservation Charge:

The bill for service hereunder may be increased or decreased as provided by the Energy Conservation Charge.

Fuel Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Standard Fuel Adjustment Clause.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

Residential Schedule A Rate (cont'd)

Purchase Power Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Purchase Power Adjustment.

Meter Reading and Billing:

Bills under this schedule will be rendered monthly. A prompt payment discount of 10% will be allowed on the current bill, excluding fuel adjustment charges and the New York Power Authority credit or charge, only if the entire bill is paid-in-full by the discount due date.

General Terms and Conditions:

Service hereunder is subject to the General Terms and Conditions which are incorporated herein and are a part of this rate schedule.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

**Residential Schedule RW
Controlled Water Heater Rate**

Designation:

Residential RW Rate

Available in:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Individual residential customers for all domestic uses where service is taken through one meter. Incidental commercial use, not exceeding 20% of the total energy used on the same premises is permitted.

Character of service:

A.C. 60 cycles: single phase.

Terms of Use:

When a customer regularly uses an electric water heater of a type approved by the Department. Service to the water heater will be controlled by a Department owned time switch in an approved outdoor socket. Internal wiring will be the responsibility of the customer. Water heater with two elements shall be interlocked to prevent simultaneous operation.

Customer Charge:

\$3.74 per month.

Energy Charge:

\$.08665 per Kilowatt-hour for the first 100 kWh

\$.03931 per Kilowatt-hour for energy in excess of 100 kWh up to 433 kWh

\$.08665 per Kilowatt-hour for energy in excess of 433 kWh

Budget Billing:

The customers under this rate will have available to them a budget billing program under which the customer is required to pay a levelized amount to the Department each billing period during the calendar year. The specifics of this program are outlined in the Department's General Terms and Conditions.

Farm Discount:

Customers who meet the eligibility requirements set forth by the Massachusetts Department of Food and Agriculture for being engaged in the business of agriculture or farming, and upon certification to the RMLD by the Massachusetts Department of Food and Agriculture, will be eligible for an additional 10% discount, prior to the RMLD prompt payment discount, on rates and charges applicable on their monthly billing statement.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

**Residential Schedule RW
Controlled Water Heater Rate (Contd.)**

Energy Conservation Charge:

The bill for service hereunder may be increased or decreased as provided by the Energy Conservation Charge.

Fuel Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Standard Fuel Adjustment Clause.

Purchase Power Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Purchase Power Adjustment.

Meter Reading and Billing:

Bills under this schedule will be rendered monthly. A prompt payment discount of 10% will be allowed on the current bill, excluding fuel adjustment charges and the New York Power Authority credit or charge, only if the entire bill is paid-in-full by the discount due date.

General Terms and Conditions:

Service hereunder is subject to the General Terms and Conditions which are incorporated herein and are a part of this rate schedule.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

Residential Time-of-Use Schedule A2 Rate

Designation:

Residential Time-of-Use A2 Rate

Available in:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Individual residential customers for all domestic uses where service is taken through one On-Peak and Off-Peak meter. Incidental commercial use, not exceeding 20% of the total energy used on the same premises is permitted.

Character of service:

A.C. 60 cycles: single phase.

Customer Charge:

\$5.91 per month.

Energy Charge:

\$.14346 per Kilowatt-hour for all Kilowatt-hours usage during the On-Peak hours.

\$.04939 per Kilowatt-hour for all Kilowatt-hours usage during the Off-peak hours.

Definition of Periods:

The On-Peak period is defined as the hours between 12:00 Noon and 7:00 P.M. Monday through Friday except holidays as listed under the "Granted Holidays" paragraph listed below. The Off-Peak period is defined as the hours between 7:00 P.M. and 12:00 Noon Monday through Friday and all hours Saturday, Sunday and granted holidays as listed below.

Controlled Water Heater Allowance:

When a customer regularly uses an electric water heater of a type approved by the Department, 333 kWh will be credited to usage during the Off-Peak period and will be billed at \$.03757 per kWh. All kWh used Off-Peak above 333 kWh will be charged at the regular Off-Peak rate. If less than 333 kWh are used Off-Peak then only that amount of kWh will be billed at \$.03757 per kWh. Water heater with two elements shall be interlocked to prevent simultaneous operation. Service to the water heater will be controlled by a Department owned time switch in an approved outdoor socket.

Term:

A customer electing to be billed under this rate must remain on this rate for a minimum of one year. At the end of one year on this rate a customer may elect to remain on this rate or be billed under the Residential A Rate.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

Residential Time-of-Use Schedule A2 Rate (cont'd)

Budget Billing:

The customers under this rate will have available to them a budget billing program under which the customer is required to pay a levelized amount to the Department each billing period during the calendar year. The specifics of this program are outlined in the Department's General Terms and Conditions.

Farm Discount:

Customers who meet the eligibility requirements set forth by the Massachusetts Department of Food and Agriculture for being engaged in the business of agriculture or farming, and upon certification to the RMLD by the Massachusetts Department of Food and Agriculture, will be eligible for an additional ten percent discount, prior to the RMLD prompt payment discount, on rates and charges applicable on their monthly billing statement.

Energy Conservation Charge:

The bill for service hereunder may be increased or decreased as provided by the Energy Conservation Charge.

Fuel Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Standard Fuel Adjustment Clause.

Purchase Power Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Purchase Power Adjustment.

Meter Reading and Billing:

Bills under this schedule will be rendered monthly. A prompt payment discount of 10% will be allowed on the current bill, excluding fuel adjustment charges and the New York Power Authority credit or charge, only if the entire bill is paid-in-full by the discount due date.

Granted Holidays

Under the Residential Time-of-Use Schedule A2 Rate the holidays granted for Off-Peak are: New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Columbus Day, Veteran's Day and Christmas Day.

General Terms and Conditions:

Service hereunder is subject to the General Terms and Conditions which are incorporated herein and are a part of this rate schedule.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

**Town of Reading, Massachusetts
Municipal Light Department**

**MDPU # 231 supersedes
and cancels MDPU # 223**

Commercial Schedule C Rate

Designation:

Commercial C Rate

Available in:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Service under this rate is available to industrial or commercial customers who take all their requirements under this rate. All electricity furnished under this rate will be metered through one service unless it is convenient for the Department to do otherwise.

Notice:

All customers taking electric service under the Commercial Schedule C Rate and/or the Industrial Time of Use Rate will be required to give the Department two (2) years prior written notice of its intention to take its energy requirements from another supplier and/or resource other than this Department while remaining on the Department's service territory.

Character of service:

AC 60 cycles: single phase or three phase.

Customer Charge:

\$6.41 per month.

Firm Demand Charge:

\$6.71 per Kilowatt for all demand usage.

Energy Charge:

\$.05571 per Kilowatt-hour for all Kilowatt-hours usage.

Budget Billing:

The customers under the C Rate may elect the Budget Billing program under which the customer is required to pay the levelized amount to the Department each billing period during the calendar year. This rate is not available to C Rate Customers electing the Contract Demand Rate, or the Non-Firm Demand Rate. The specifics of this program are outlined in the Department's General Terms and Conditions.

Energy Conservation Charge:

The bill for service hereunder may be increased or decreased as provided by the Energy Conservation Charge.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Colcen M. O'Brien, General Manager

Commercial Schedule C Rate (cont'd)

Fuel Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Standard Fuel Adjustment Clause.

Purchase Power Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Purchase Power Adjustment.

Measurement of Billing Demand:

The billing demand shall be the highest of the fifteen minute kilowatt demand established during the billing period, but not less than eighty percent of the maximum demand established during the preceding summer season or sixty percent of the maximum demand established during the winter season.

Definitions of Seasons:

The summer season is defined as the months of June through September and the winter season is defined as the months of October through May.

Farm Discount:

Customers who meet the eligibility requirements set forth by the Massachusetts Department of Food and Agriculture for being engaged in the business of agriculture or farming, and upon certification to the RMLD by the Massachusetts Department of Food and Agriculture, will be eligible for an additional ten percent discount, prior to the RMLD prompt payment discount, on rates and charges applicable on their monthly billing statement.

Non-Firm Demand:

A Customer under this rate may designate any amount of load, in kilowatts, as Non-Firm. Any amount so designated shall be capable of being removed from service during any On-Peak hour as may be requested by the Department. A customer will be charged \$4.32 per kW-month for each kilowatt of demand designated as Non-Firm demand. Failure to remove load designated as Non-Firm load shall result in a charge of \$14.25 per kW of Non-Firm demand for that bill month.

The Department shall have the right to limit the requests for curtailment for Non-Firm load. The Department, at its option, may request separate metering for Non-Firm loads.

The energy and fuel portion of this Non-Firm Demand rate will be billed at the normal Commercial C rate levels.

A customer must contract to be on the Non-firm rate for a minimum of one year.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Colcen M. O'Brien, General Manager

Commercial Schedule C Rate (cont'd)

Optional Contract Demand:

The customer may contract for a specific demand requirement on the Optional Contract Demand rate. The customer shall select a demand level, which will cover its highest annual peak. The cost of the Contract Demand rate is \$7.91 per kilowatts. The customer will be billed for that amount of kilowatts each month for the entire year. If in any month the customer exceeds the contract demand amount then, the contract demand will be billed at a rate of \$14.25 per kilowatt. The contract demand level will be re-established at the higher billing amount.

The energy and fuel portion of the Optional Contract Demand will be billed in the same manner as the Industrial Time of Use rate and is described below:

\$.09069 per kilowatt-hour for all kilowatt-hours used between 12:00 Noon and 7:00 P.M., Monday through Friday, excluding holidays.

\$.02721 per kilowatt-hour for all kilowatt-hours used between 7:00 P.M. and 1200 Noon, Monday through Friday and all hours Saturday, Sunday and holidays as listed in the General Terms and Conditions.

A customer must contract to be on the Contract Demand rate for a minimum of one year.

The Department may, at its own discretion, move a customer exceeding the contract demand level to the general Commercial C Rate.

Customer Transformer Ownership:

A customer requiring a minimal transformer capacity of over 2,000 kW will be required to furnish its own transforming and protective equipment, including mat, vault, primary and secondary cables, conduits, etc., which must comply with the specifications of the Department. The following discounts apply when the above is complied with:

\$.12 per kilowatt of demand when the service is taken at 2,400/4,160 volts.

\$.25 per Kilowatt of demand when the service is taken at 13,800 volts.

\$.375 per Kilowatt of demand when the service is taken at 34,500 volts.

**Town of Reading, Massachusetts
Municipal Light Department**

**MDPU # 231 supersedes
and cancels MDPU # 223**

Commercial Schedule C Rate (cont'd)

Metering:

The Department may, at its option, meter at the customer's utilization voltage or on the high side of the transformers through which the service is furnished.

In the latter case, or if the customer's utilization voltage requires no transformation, a discount of 1.8% will be applied to the bill exclusive of the fuel charge but in no case will such a discount be allowed if the metering voltage is less than 2,400 volts.

Meter Reading and Billing:

Bills under this schedule will be rendered monthly. A prompt payment discount of 10% will be allowed on the current bill, excluding fuel adjustment charges, only if the entire bill is paid-in-full by the discount due date.

General Terms:

Service hereunder is subject to the General Terms and Conditions which are incorporated herein and are a part of this rate schedule.

**Rate Filed: January 30, 2014
Effective: On Billings on or After February 1, 2014
Filed By: Coleen M. O'Brien, General Manager**

Industrial Time-of-Use Schedule I Rate

Designation:

Industrial Time-of-Use I Rate

Available in:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Service under this rate is available to industrial or commercial customers who take all their requirements under this rate. All electricity furnished under this rate will be metered using an electronic meter capable of metering On-Peak and Off-Peak energy as well as kW demand.

Notice:

All customers taking electric service under the Industrial Time-of-Use I Rate will be required to give the Department two (2) years prior written notice of its intention to take its energy requirements from another supplier and/or resource other than this Department while remaining on the Department's service territory.

Character of service:

A.C. 60 cycles: single phase or three phase.

Customer Charge:

\$29.56 per month.

Demand Charge:

\$8.48 per Kilowatt for all demand usage.

Energy Charge:

\$.09069 per Kilowatt-hour for all Kilowatt-hours usage during the On-Peak hours.

\$.02721 per Kilowatt-hour for all Kilowatt-hours usage during the Off-Peak hours.

Definition of Periods:

The On-Peak period is defined as the hours between 12:00 Noon and 7:00 P.M., Monday through Friday except holidays as listed below. The Off-Peak period is defined as the hours between 7:00 P.M. and 12:00 Noon, Monday through Friday and all hours Saturday, Sunday and granted holidays as listed below.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

Industrial Time-of-Use Schedule I Rate (cont'd)

Term:

A customer electing to be billed under this rate must remain on this rate for a minimum of one year. At the end of one year on this rate a customer may elect to remain on this rate or be billed under the Commercial C Rate.

Energy Conservation Charge:

The bill for service hereunder may be increased or decreased as provided by the Energy Conservation Charge.

Fuel Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Standard Fuel Adjustment Clause.

Purchase Power Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Purchase Power Adjustment.

Measurement of Billing Demand:

The Billing demand shall be the highest of the fifteen minute On Peak kilowatt demand established during the billing period, but not less than eighty percent of the maximum On Peak demand established during the preceding summer season or sixty percent of the maximum On Peak demand established during the winter season.

Definitions of Seasons:

The summer season is defined as the months of June through September and the winter season is defined as the months of October through May.

Farm Discount:

Customers who meet the eligibility requirements set forth by the Massachusetts Department of Food and Agriculture for being engaged in the business of agriculture or farming, and upon certification to the RMLD by the Massachusetts Department of Food and Agriculture, will be eligible for an additional ten percent discount, prior to the RMLD prompt payment discount, on rates and charges applicable on their monthly billing statement.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

Industrial Time-of-Use Schedule I Rate (cont'd)

Customer Transformer Ownership:

A customer requiring a minimal transformer capacity of over 2000 kW will be required to furnish its own transforming and protective equipment, including mat, vault, primary and secondary cables, conduits, etc., which must comply with the specifications of the Department. The following discounts apply when the above is complied with:

\$.12 per Kilowatt of demand when the service is taken at 2,400/4,160 volts.

\$.25 per Kilowatt of demand when the service is taken at 13,800 volts.

\$.375 per Kilowatt of demand when the service is taken at 34,500 volts.

Metering:

The Department may, at its option, meter at the customer's utilization voltage or on the high side of the transformer through which the service is furnished. In the latter case, or if the customer's utilization voltage requires no transformation, a discount of 1.8% will be applied to the bill exclusive of the fuel charge but in no case will such discount be allowed if the metering voltage is less than 2,400 voltage

Meter Reading and Billing:

Bills under this schedule will be rendered monthly. A prompt payment discount of 10% will be allowed on the current bill, excluding fuel adjustment charges, only if the entire bill is paid-in-full by the discount due date.

Granted Holidays

Under the Industrial Time-of-Use Schedule I Rate the holidays granted for Off-Peak are; New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Columbus Day, Veteran's Day and Christmas Day.

General Terms and Conditions:

Service hereunder is subject to the General Terms and Conditions which are incorporated herein and are a part of this rate schedule.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Colcen M. O'Brien, General Manager

School Schedule SCH Rate

Designation:
School SCH Rate

Available in:
Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:
Applicable to public or private schools offering kindergarten, regular elementary, middle, and high school as approved by the Department, who take all their requirements under this rate. All electricity furnished under this rate will be metered through one service unless it is convenient for the Department to do otherwise.

Notice:
All customers taking electric service under the School Rate will be required to give the Department two (2) years prior written notice of its intention to take its energy requirements from another supplier and/or resource other than this Department while remaining on the Department's service territory. This rate is not available to School Rate Customers electing the Contract Demand Rate, or the Non-Firm Demand Rate. The specifics of this program are outlined in the Department's General Terms and Conditions.

Character of service:
AC 60 cycles: single phase or three phase.

Customer Charge:
\$5.91 per month.

Firm Demand Charge:
\$6.18 per Kilowatt for all demand usage.

Energy Charge:
\$.05185 per Kilowatt-hour for all Kilowatt-hours usage.

Budget Billing:
The customers under the School Rate may elect the Budget Billing program under which the customer is required to pay levelized amount to the Department each billing period during the calendar year.

Rate Filed: January 30, 2014
Effective: On Billings on or After February 1, 2014
Filed By: Coleen M. O'Brien, General Manager

School Schedule SCH Rate (cont'd)

Energy Conservation Charge:

The bill for service hereunder may be increased or decreased as provided by the Energy Conservation Charge.

Fuel Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Standard Fuel Adjustment Clause.

Purchase Power Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Purchase Power Adjustment.

Measurement of Billing Demand:

The billing demand shall be the highest of the fifteen minute Kilowatt demand established during the billing period, but not less than eighty percent of the maximum demand established during the preceding summer season or sixty percent of the maximum demand established during the winter season.

Definitions of Seasons:

The summer season is defined as the months of June through September and the winter season is defined as the months of October through May.

Customer Transformer Ownership:

A customer requiring a minimal transformer capacity of over 2000 kW will be required to furnish its own transforming and protective equipment, including mat, vault, primary and secondary cables, conduits, etc., which must comply with the specifications of the Department. The following discounts apply when the above is complied with:

\$.12 per kilowatt of demand when the service is taken at 2,400/4,160 volts.

\$.25 per Kilowatt of demand when the service is taken at 13,800 volts.

\$.375 per Kilowatt of demand when the service is taken at 34,500 volts.

Metering:

The Department may, at its option, meter at the customer's utilization voltage or on the high side of the transformers through which the service is furnished.

In the latter case, or if the customer's utilization voltage requires no transformation, a discount of 1.8% will be applied to the bill exclusive of the fuel charge but in no case will such a discount be allowed if the metering voltage is less than 2,400 volts.

Street Lighting Rate Schedule D

Designation:

Street Light D Rate

Available:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Street Light service on all public, private, and unaccepted streets where the Department has private facilities for supplying electricity and where the installation work involved is limited to the necessary lighting unit and connection on the same pole.

Energy Charge:

The rate per year for the standard 4,000-hour schedule is as follows:

<u>Fixture Type</u>	<u>Annual Rate</u>	<u>Annual kWh</u>
58 Watt Incandescent	\$54.57	232
92 Watt Incandescent	\$54.57	368
50 Watt HPS	\$29.52	244
100 Watt HPS	\$29.57	508
100 Watt Mercury	\$40.75	520
100 Watt Mercury UG	\$40.75	520
175 Watt Mercury	\$41.09	860
250 Watt HPS	\$54.38	1,228
400 Watt Mercury	\$53.36	1,840
400 Watt HPS	\$53.42	1,828

Note: Incandescent and Mercury lamps will no longer be supplied for new installations.

Fuel Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Standard fuel Adjustment Clause.

The Fuel Adjustment will appear on the bill as the monthly fuel charge multiplied by one twelfth of the Annual kWh shown above for each Fixture Type.

Rate Filed: January 30, 2014

Effective: On Billings on or After February 1, 2014

Filed By: Coleen M. O'Brien, General Manager

Purchase Power Capacity and Transmission Charge

Applicability:

The Purchase Power Capacity and Transmission Charge, or the annual average base power supply base costs, shall be applied to all customers receiving service under any rate schedule of the Department.

Power Cost Amount:

The Purchase Power Capacity and Transmission Charge amount shall be the total amount of all power and transmission charges incurred by the Department, exclusive of fuel, for electric service to all customers. Such cost shall be computed periodically on actual or estimated power billings and divided by the total kilowatt-hour sales to all customers for that month. The resultant cost shall be rounded to the nearest \$.00001/kilowatt-hour.

Calculation of the Purchase Power Capacity and Transmission Charge:

The Purchase Power Capacity and Transmission Charge shall equal the power cost amount. The resultant charge shall be applied to all bills in the following month.

Other Charges and Credits:

By order of the Reading Municipal Light Board, the Purchase Power Capacity and Transmission Charge may reflect additional one-time or irregular credits resulting from power refunds, out of period adjustments or reduced power reserve needs.

Residential Schedule A Rate

Designation:

Residential A Rate

Available in:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Individual residential customers for all domestic uses where service is taken through one meter. Incidental commercial use, not exceeding 20% of the total energy used on the same premises is permitted.

Character of service:

A.C. 60 cycles: single phase.

Customer Charge:

\$3.73 per month

Distribution Energy Charge:

\$.04880 per Kilowatt-hour for all Kilowatt-hours usage

Budget Billing:

The customers under this rate will have available to them a budget billing program under which the customer is required to pay a levelized amount to the Department each billing period during the calendar year. The specifics of this program are outlined in the Department's General Terms and Conditions.

Low Income Discount

The Customer Charge under this rate will be waived upon verification of a low-income customer's receipt of any means-tested public benefit, or verification of eligibility for the low-income home energy assistance program, or its successor program, for which eligibility does not exceed 200 percent of the federal poverty level based on a household's gross income. In a program year in which maximum eligibility for LIHEAP exceeds 200 percent of the federal poverty level, a household that is income eligible under LIHEAP shall be eligible for the low-income electric discount. It is the responsibility of the customer to annually certify, by forms provided by the utility, the continued compliance with the foregoing qualifications.

Residential Time-of-Use Schedule A2 Rate

Designation:

Residential Time-of-Use A2 Rate

Available in:

Reading, Lynnfield Center, North Reading, and Wilmingtonton

Applicable to:

Individual residential customers for all domestic uses where service is taken through one On-Peak and Off-Peak meter. Incidental commercial use, not exceeding 20% of the total energy used on the same premises is permitted.

Character of service:

A.C. 60 cycles: single phase.

Customer Charge:

\$5.91 per month.

Distribution Energy Charge:

\$.07271 per Kilowatt-hour for all Kilowatt-hours usage during the On-Peak hours.

\$.01500 per Kilowatt-hour for all Kilowatt-hours usage during the Off-peak hours.

Definition of Periods:

The On-Peak period is defined as the hours between 12:00 Noon and 7:00 P.M. Monday through Friday except holidays as listed under the "Granted Holidays" paragraph listed below. The Off-Peak period is defined as the hours between 7:00 P.M. and 12:00 Noon Monday through Friday and all hours Saturday, Sunday and granted holidays as listed below.

Controlled Water Heater Allowance:

When a customer regularly uses an electric water heater of a type approved by the Department, 333 kWh will be credited to usage during the Off-Peak period and will be billed at \$.00300 per kWh. All kWh used Off-Peak above 333 kWh will be charged at the regular Off-Peak rate. If less than 333 kWh are used Off-Peak then only that amount of kWh will be billed at \$.00300 per kWh. Water heater with two elements shall be interlocked to prevent simultaneous operation. Service to the water heater will be controlled by a Department owned time switch in an approved outdoor socket.

Term:

A customer electing to be billed under this rate must remain on this rate for a minimum of one year. At the end of one year on this rate a customer may elect to remain on this rate or be billed under the Residential A Rate.

Rate Filed: June 30, 2014

Effective: On Billings on or After July 1, 2014

All electricity furnished under this rate will be metered through one service unless it is convenient for the Department to do otherwise.

Character of service:
AC 60 cycles: single phase or three phase.

Customer Charge:
\$5.91 per month.

Distribution Demand Charge:
\$6.18 per Kilowatt for all demand usage.

Distribution Energy Charge:
\$.00975 per Kilowatt-hour for all Kilowatt-hours usage.

Budget Billing:
The customers under the School Rate may elect the Budget Billing program under which the customer is required to pay levelized amount to the Department each billing period during the calendar year.

Energy Conservation Charge:
The bill for service hereunder may be increased or decreased as provided by the Energy Conservation Charge.

Fuel Adjustment:
The bill for service hereunder may be increased or decreased as provided by the Standard Fuel Adjustment Clause.

Rate Filed: June 30, 2014
Effective: On Billings on or After July 1, 2014
Filed By: Coleen M. O'Brien, General Manager

School Schedule SCH Rate (cont'd)

Purchase Power Capacity and Transmission Charge:

The bill for service hereunder may be increased or decreased as provided by the Purchase Power Capacity and Transmission Charge.

Measurement of Billing Demand:

The billing demand shall be the highest of the fifteen minute Kilowatt demand established during the billing period, but not less than eighty percent of the maximum demand established during the preceding summer season or sixty percent of the maximum demand established during the winter season.

Definitions of Seasons:

The summer season is defined as the months of June through September and the winter season is defined as the months of October through May.

Customer Transformer Ownership:

A customer requiring a minimal transformer capacity of over 2000 kW will be required to furnish its own transforming and protective equipment, including mat, vault, primary and secondary cables, conduits, etc., which must comply with the specifications of the Department. The following discounts apply when the above is complied with:

\$.12 per kilowatt of demand when the service is taken at 2,400/4,160 volts.

\$.25 per Kilowatt of demand when the service is taken at 13,800 volts.

\$.375 per Kilowatt of demand when the service is taken at 34,500 volts.

Metering:

The Department may, at its option, meter at the customer's utilization voltage or on the high side of the transformers through which the service is furnished.

In the latter case, or if the customer's utilization voltage requires no transformation, a discount of 1.8% will be applied to the bill but in no case will such a discount be allowed if the metering voltage is less than 2,400 volts.

Meter Reading and Billing:

Bills under this schedule will be rendered monthly. A prompt payment discount of 15% will be allowed on the Customer Charge, Distribution Demand Charge and Distribution Energy Charge, only if the entire bill is paid-in-full by the discount due date.

Private Street Lighting Rate Schedule D

Designation:

Street Light D Rate

Available:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Street and Area Light service on all public, private, and unaccepted streets and areas where the Department has facilities for supplying electricity and where the installation work involved is limited to the necessary lighting unit and connection on the same pole. This Schedule does not apply to Public Street Lighting Service supplied directly to the Municipalities.

Energy Charge:

The rate per year for the standard 4,000-hour schedule is as follows:

<u>Fixture Type</u>	<u>Annual Rate</u>	<u>Annual kWh</u>
100 Watt Mercury	\$52.72	500
175 Watt Mercury	58.60	860
400 Watt Mercury	97.18	1,900
50 Watt HPS	60.71	240
100 Watt HPS	77.48	500
250 Watt HPS	102.31	1,200
400 Watt HPS	142.11	1,900
25 Watt LED	51.16	110
42 Watt LED	57.09	185
101 Watt LED	92.04	444
93 Watt LED Flood	131.71	409
134 Watt LED Flood	161.26	590

Note: Incandescent and Mercury lamps will no longer be supplied for new installations.

Fuel Adjustment:

The bill for service hereunder may be increased or decreased as provided by the Standard fuel Adjustment Clause.

The Fuel Adjustment will appear on the bill as the monthly fuel charge multiplied by one twelfth of the Annual kWh shown above for each Fixture Type.

Purchase Power Capacity and Transmission Charge:

The bill for service hereunder may be increased or decreased as provided by the Purchase Power Capacity and Transmission Charge.

The Purchase Power Capacity and Transmission Charge will appear on the bill as the monthly charge multiplied by one twelfth of the Annual kWh shown above for each Fixture Type.

Extra Pole Cost

When an extra pole is required, specifically for street lighting, there will be an extra cost based upon pole size, including up to 100 feet of secondary.

30 foot or 35 foot Class 4 pole	\$44.00 per year
40 foot Class 4 pole	\$48.00 per year

Meter Reading and Billing:

Bills under this schedule will be rendered monthly. A prompt payment discount of 15% will be allowed on the current bill, excluding Fuel and Purchased Power Capacity and Transmission Charges, only if the entire bill is paid-in-full by the discount due date.

Cooperative Resale Schedule G Rate

Designation:
Cooperative G Rate

Available in:
Available to municipal lighting plants and private companies whose service territory is adjacent to the service territory of the Department and for distribution to such customers that cannot be served from the existing distribution lines, provided that the Department has available facilities for furnishing the service

Character of Service:
A.C. 60 cycles: single phase.

Customer Charge:
\$3.44 per month.

Distribution Energy Charge:
\$.04074 per Kilowatt-hour for all Kilowatt-hours usage.

Fuel Adjustment:
The bill for service hereunder may be increased or decreased as provided by the Standard Fuel Adjustment Clause.

Purchase Power Capacity and Transmission Charge:
The bill for service hereunder may be increased or decreased as provided by the Purchase Power Capacity and Transmission.

Municipal Street Lighting Schedule F Formula Rate

Designation:

Street Light F Rate

Available:

Reading, Lynnfield Center, North Reading and Wilmington

Applicable to:

Public Street Lighting Service supplied directly to the Municipalities where the Department has private facilities for supplying electricity and where the installation work involved is limited to the necessary lighting unit and connection on the same pole.

Energy Charge:

The rate per kilowatt-hour will be determined annually using the following formula as set forth in Massachusetts General Law Chapter 164 Section 58:

$$\frac{\textit{Total Operating Expenses \& Interest on Outstanding Debt \& Depreciation Expense}}{\textit{Total kilowatt - hours sold including street lighting}}$$

This rate will be calculated prior to each Fiscal Year based on budgeted expenses and kilowatt-hours and will be trued up to actual expenses and kilowatt-hours, with any adjustment being carried forward to the next Fiscal Year. For purposes of calculating the kilowatt-hours used by each type of fixture the following values will be used:

<u>Fixture Type</u>	<u>Annual KWh</u>
58 Watt Incandescent	232
92 Watt Incandescent	368
50 Watt HPS	244
100 Watt HPS	508
100 Watt Mercury	520
175 Watt Mercury	860
250 Watt HPS	1,228
400 Watt Mercury	1,840
400 Watt HPS	1,828

Note: Incandescent and Mercury lamps will no longer be supplied for new installations.

Filed By: Coleen M. O'Brien, General Manager**

**General Terms & Conditions
(For All Classes of Service)**

These Terms and Conditions have been established to convey the conditions that the customer agrees to when requesting service from the Reading Municipal Light Department (Department). The benefits and obligations of these Terms and Conditions will commence on the day that the customer is connected to the Department's service.

1 a. All applications for new or restored electric service must be accurate, true, complete and signed. Applications can be made in person at the Department's office, by telephone, or over the internet at www.rmlld.com, and signed via fax, mail or in person. A minimum of five (5) days notice is required, in situations where no major construction of special equipment or materials is required. In major construction cases, the customer must meet with the Department's personnel to discuss and determine construction schedules.

b. Advance deposits will be required as security payment of future electric bills from residential customers, and commercial/industrial customers, who have not established a satisfactory credit rating as determined by the Department, and from rental or lease tenants, temporary services and commercial/industrial customers.

c. The commercial/industrial customer deposit calculation is equivalent to the estimated total of the two (2) highest months of billing within a twelve-month period.

d. The deposit payment can be in the form of cash, check, debit card, credit card, or a surety bond that is acceptable to the Department. The deposit, less any amount owed to the Department for electric service, will be refunded when service is discontinued.

2 a. The supply of electric service is contingent upon the Department's ability to secure and retain the necessary locations for its poles, wires, conduits, cables, and other apparatus. All equipment furnished by the Department shall remain its property.

b. Beyond the point of connection to the Department's system, all wiring and other electrical equipment that is necessary in order to utilize the service shall be installed by the customer and shall comply with the Department's requirements and municipal authorities.

c. The characteristics of service available at each location will be determined by the Department and information relative thereto will be furnished upon request.

**Rate Filed: June 30, 2014
Effective: On Billings on or After July 1, 2004
Filed By: Coleen M. O'Brien, General Manager**

**General Terms & Conditions
(For All Classes of Service)**

d. Any electrical work such as new construction, service upgrade, service repair, temporary service, or service relocation will require a Utility Authorization Number (UAN) from the Department prior to the commencement of work. All such work will require a UAN number and the approval of the appropriate local authorities prior to the Department making its connections.

3. The applicant shall make an aid-in-construction payment when the supply of service involves the use of investment, which in the judgment of the Department would not otherwise be warranted by the estimated revenue to be obtained.

4 a. Temporary single phase 120\240 Volt, 100 AMP, 3 wire service connections for building construction or reconstruction purposes or where a permanent electric service would not result will be subject to a \$275.00 service charge.

b. Any temporary service requirement in excess of Section 4a. will be estimated by the Department and paid-in-advance of construction.

c. Any temporary relocation of service drop conductors by the Department to accommodate building reconstruction that is not immediately connected to a new service entrance will be charged as a temporary service.

d. The relocation of service drop conductors performed by unauthorized personnel to accommodate building reconstruction is prohibited. Service drops found so relocated will be immediately disconnected if safety considerations, at the sole discretion of the Department, so warrant. Unauthorized relocations will be subject to financial penalties in addition to a temporary service fee.

5. a. Permanent overhead service attachments will be made without charge except where the Department determines one or more poles are required on private property. When required, the Department will furnish one pole and any additional poles, wires and labor shall be at the expense of the customer.

b. The customer must provide an attachment point at sufficient height on the structure to provide the required clearance in accordance with Massachusetts Electrical Code and local authorities. Poles necessary to provide height clearances not provided by the customer will be charged to the customer.

Rate Filed: June 30, 2014
Effective: On Billings on or After July 1, 2004
Filed By: Coleen M. O'Brien, General Manager

**General Terms & Conditions
(For All Classes of Service)**

6. Underground Services supplied from overhead systems will be installed and maintained at the customer's expense in accordance with the Department's approval and specification. A single underground service provided from a pole on a customer's property will not require a pullbox. Any underground service provided from a pole in the public way will require a pullbox provided by the Department. The pullbox will be installed by the customer within three feet of the front lot line along the service run. Only one set of underground service risers (electric, telephone, CATV, etc.) will be allowed on any one pole. The Department must be contacted for service arrangements.

7. Underground Distribution installations in new subdivisions will be in accordance with the Department specifications. Underground specifications will be provided to the developer or builder upon request. Two (2) copies of the preliminary plan maps of the proposed development must be submitted to the Department six months prior to the date that electric service is required. One month prior to the start of electric system construction one (1) reproducible reverse-read Mylar and a digital formatted file (if available) of the approved subdivision plan and profile must be submitted to the Department.

8. Services requiring transformers where pole mounting is not possible, the customer will be required to supply a pad location, primary and secondary conduits, and cables, etc. at the customer's own expense. All materials used must meet the Department's specifications.

9. All meters will be furnished by the Department and shall be installed on meter sockets or troughs provided and wired by the customer. The Department's meter personnel shall designate meter locations and specifications. Residential meters will be located outside and easily accessible to the meter reader without having to enter a fenced in area.

10. All Facilities approved under RMLD Terms and Conditions for Simplified Process Interconnections, which can be obtained at the RMLD, qualify for net metering, as approved by the RMLD from time to time, and are necessary to implement the net metering provisions.

11. The Customer shall give the Department permission to enter their premises at all reasonable times for the purpose of installing, reading, inspecting, testing and keeping its equipment in repair. As well as for the discontinuance of service and the removal of any or all of its equipment used in connection with the supply of electricity.

Rate Filed: June 30, 2014
Effective: On Billings on or After July 1, 2004
Filed By: Coleen M. O'Brien, General Manager

**General Terms & Conditions
(For All Classes of Service)**

12. The Department will test single-phase meters free of charge, upon customers request, which have not been tested within a three-year period. However, if a customer requests an additional meter test within three years of the previous test, and the Department finds the meter to be correct according to Massachusetts General Laws (M.G.L.), Chapter 164, Section 120, then the customer requesting the test will be charged \$85.00 for the test. If the meter is found to be in error then the test will be free of charge.

13. No one, unless duly authorized by the Department is permitted to remove or inspect any meter or other appliance belonging to the Department. Customers may be disconnected if the meter has been tampered with or by-passed so as not to record all consumption. Such customers will be subject to fines and punishment under the M.G.L., Chapter 164, Sections 127 and 127A.

14. The customer of record shall be responsible for all damage to or loss of the Department's property located upon his or her premises unless occasioned by circumstances beyond the customer's control.

15. a. All meters shall be read and bills rendered on a monthly basis. At any time that the Department is unable to obtain a meter reading, the consumption will be estimated on the best information available.

b. A prompt payment discount will be allowed on the current bill that applies to the Customer Charge, and any Distribution related charges, and only if the entire bill is paid-in-full by the discount due date. The Department offers several payment options via office visit, telephone, internet or conveniently location pay stations.

16. a. All bills shall be payable on a net basis upon receipt. If not paid within forty-five (45) days of date of bill, service will be disconnected after three (3) days written notice, and the following charges will be made for renewing the service when the bill is paid.

Meter Shut Off	\$85	Pole Shut Off	\$120
----------------	------	---------------	-------

The above charges are calculated based on the Department's cost of service and in accordance with the Billing and Termination Procedures of the Massachusetts Department of Public Utilities C.M.R. 25, adopted October 4, 1984 in MDTE-1 63.

Rate Filed: June 30, 2014
Effective: On Billings on or After July 1, 2004
Filed By: Coleen M. O'Brien, General Manager

**General Terms & Conditions
(For All Classes of Service)**

b. Property owners on the Department's system are subject to the Massachusetts Municipal Lien Law, M.G.L., Chapter 164, Section 58B. This law allows municipal electric departments to attach a lien to properties if electric bills are not paid-in-full.

17. A \$25.00 fee will be charge to the customer's bill for each check returned to the Department.

18 a. Equalized monthly payments are offered to customers electing to be billed under the Budget Bill Program. Customers must sign up for the option for a period of one year.

b. The Budget Bill Program runs from December through November or June through May. A contingency will be added to the average twelve-month usage to account for any fluctuation in customer usage or increase in the fuel charge adjustment. Customers will be billed as normal with the "Balance Due" portion of the bill reflecting the running true-up balance. Budget Bill Program customers are subject to the terms of Section 15 b. Prompt Payment Discount.

c. At the end of the twelve-month period, the account will be trued-up. Any positive balance will be paid by the customer to the Department, or any credit balance, at the customer's choice, will be paid to the customer by the Department or credited to the customer's next billing.

d. Customers electing to be bill under the Budget Bill Program after September 1, 2010 will subject to automatic electric payment withdrawal. The payments can be automatically withdrawn using credit card, debit card, or checking account.

19. All customers taking electric service under the Commercial Schedule C Rate and/or the Industrial Time of Use Rate will be required to give the Department two (2) years prior written notice of its intention to take its energy requirements from other suppliers and/or resources other than this Department while remaining on the Department's service territory.

20. The customer shall give the Department a 90-day advance written notice of load additions or changes that would result in a 25% increase above its original load projections. This is to allow the Department to make changes necessary to accommodate these new loads and continue adequate service.

21. The Department reserves the right to install load-limiting devices arranged to disconnect the service in the premises if the rated capacity of the Department's service is exceeded.

Rate Filed: June 30, 2014
Effective: On Billings on or After July 1, 2004
Filed By: Coleen M. O'Brien, General Manager

**General Terms & Conditions
(For All Classes of Service)**

22. The Town of Reading, the Department, and all of their respective agents and employees shall be afforded the maximum exemption of limitations of liability available under applicable laws and regulations arising on account of their actions or omissions relating directly or indirectly any provision of electrical service. Without limiting the generality of the foregoing, and except to the extent otherwise expressly provided in M.G.L. Chapter 258:

Neither the Town of Reading, nor the Department, nor any of their respective agents or employees shall be liable to any person or agent:

a. For any failure by the Department to supply electric service or for any interruption in the supply of or delay in the restoration of such service.

b. For any damage to any person (including personal injury or death) or any damage to any property directly or indirectly, arising as a result of the electric service provided by the Department, the presence of the Department's apparatus or equipment, or any acts or omission of the Department.

c. For discontinuance of electric service to any customer who fails to comply with, or perform any of the customer's obligations under these Terms and Conditions, applicable laws and regulations, or other agreements with the Department.

d. For discontinuance of electrical service if any equipment or apparatus of any customer interferes with service provided by the Department or the delivery of service to other customers or interferes with the integrity of the Department's system.

e. For any variation, or interruption in electrical service including without limitation, any such variation or discontinuance because of abnormal or reduced voltage, emergency load reduction programs, rotation of the use of feeders, blackouts, or any causes beyond the reasonable control of the Department, including, but not limited to, accidents, weather conditions, animals, conditions of fuel supplies, war, civil commotion, labor difficulties, acts of customers, or any public authority.

Rate Filed: June 30, 2014
Effective: On Billings on or After July 1, 2004
Filed By: Coleen M. O'Brien, General Manager

**General Terms & Conditions
(For All Classes of Service)**

23. The Department will discontinue its service on 24-hour notice and remove its property if the customer fails to comply with or perform any of the requirements or obligations of these terms and conditions. If equipment or apparatus owned by the customer interferes unduly with service to other customers of the Department, or is determined by the Department to pose a hazard to Department employees, or the general public, service will be discontinued as soon as practical.

24. Under the Time-of-Use Rate the holidays granted for off-peak are; New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Columbus Day, Veteran's Day and Christmas Day.
