## Westfield Gas & Electric

### GENERAL INFORMATION

- |  |  |   |
|--|--|---|
| 1. Name of town (or city) making this report.  |  |   |
| Westfield, Massachusetts   |  |   |
| 2. * If the town (or city) has acquired a plant,   |  |   |
| Kind of plant, whether gas or electric:  |  | Gas and Electric                          |
| * Owner from whom purchased, if so acquired:   |  | Westfield Gas & Electric                  |
| * Date of votes to acquire a plant in accordance with the provisions of Chapter 164 of the General Laws: |  |   |
| * Record of votes: First vote: Yes,  |  | 1466                                      |
| * Record of votes: First vote: No,   |  | 219                                       |
| * Record of votes: Second vote: Yes,   |  | 1306                                      |
| * Record of votes: Second vote: No,  |  | 445                                       |
| * Date when town (or city) began to sell gas and electricity   |  | June 1, 1899                              |
| 3. Name and address of manager of municipal lighting:  |  |   |
| Daniel J. Howard<br>26 Deborah Lane<br>Westfield, Ma 01085   |  |   |
| 4. Name and address of mayor or selectmen:   |  |   |
| Mayor Brian Sullivan<br>12 Sherwood Ave<br>Westfield, Ma 01085   |  |   |
| 5. Name and address of town (or city) treasurer:   |  |   |
| Meghan C. Kane - 30 Plantation Circle - Westfield, Ma 01085  |  |   |
| 6. Name and address of town (or city) clerk:   |  |   |
| Karen Fanion - 83 Cabot Road - Westfield, Ma 01085   |  |   |
| 7. Names and addresses of members of municipal light board:  |  |   |
| Thomas P. Flaherty - 79 Wildflower Circle - Westfield, Ma 01085  |  |   |
| Jane Wensley - 3 Lathrop Avenue - Westfield, Ma 01085  |  |   |
| Kevin Kelleher - 270 Prospect St Ext - Westfield, Ma 01085   |  |   |
| Ramon Rivera - 16 Mechanic Street - Westfield, Ma 01085  |  |   |
| Francis L. Liptak - 75 City View Boulevard - Westfield, Ma 01085   |  |   |
| Edward Roman - 73 Glenwood Drive - Westfield, Ma 01085   |  |   |
| Robert Sacco - 65 Devon Terrace - Westfield, Ma 01085  |  |   |
| 8. Total valuation of estates in town (or city) according to last State valuation:                       |  | \$3,199,883,800                           |
| 9. Tax rate for all purposes during the year: Fiscal 2017  |  | Residential \$19.42<br>Commercial \$37.08 |
| 10. Amount of manager's salary:  |  | \$208,707                                 |
| 11. Amount of manager's bond:  |  | \$5,000                                   |
| 12. Amount of salary paid to members of municipal light board annually:                                  |  | \$5,000                                   |

### Westfield Gas & Electric

#### SCHEDULE OF ESTIMATE

\*\*\*\*\*

**INCOME FROM PRIVATE CONSUMERS:**

	Amount
From sales of gas .....	\$17,078,840.00
From sales of electricity .....	\$49,121,210.00

TOTAL: \$66,200,050.00

**EXPENSES:**

For operation, maintenance and repairs .....	\$59,550,347.00
For interest on bonds, notes or scrip .....	\$404,318.00
For depreciation fund ( 3.0 percent on \$ as per page 8 & 9 )	\$3,777,596.00
For sinking fund requirements .....	
For note payments .....	
For bond payments .....	

For loss in preceding year .....

TOTAL: \$63,732,261.00

**COST:**

Of gas to be used for municipal buildings .....	\$551,041.00
Of gas to be used for street lights .....	
Of electricity to be used for municipal bldgs..	\$2,160,461.00
Of electricity to be used for street lights ...	\$157,915.00

Total of the above items to be included in the tax levy .....

New construction to be included in the tax levy

Total amounts to be included in the tax levy ...

\$2,869,417.00

#### CUSTOMERS

GAS	City or Town	Number of Customers Meters, Dec. 31
	Westfield	
	TOTAL:	10,376
ELECTRICITY:	City or Town	Number of Customers Meters, Dec. 31
	Westfield	
	TOTAL:	18,282

### Westfield Gas & Electric

#### APPROPRIATIONS SINCE BEGINNING OF YEAR

(Include also all items charged direct to tax levy, even where no appropriation is made or required.)

#### FOR CONSTRUCTION OR PURCHASE OF PLANT:

- \*At meeting 19 , to be paid from
- \*At meeting 19 , to be paid from

TOTAL:                      \$0

#### FOR THE ESTIMATED COST OF THE GAS OR ELECTRICITY TO BE USED BY THE CITY OR TOWN FOR:

- 1. Street lights ..... \$157,915
- 2. Municipal buildings ..... \$2,160,461

TOTAL:                      \$2,318,376

#### CHANGES IN THE PROPERTY

1. Describe briefly all the important physical changes in the property during the last fiscal period including additions, alterations or improvements to the works or physical property retired.

In electric property:

None

In gas property:

None

## ELECTRIC OPERATING REVENUES (ACCOUNT 400)

1. Report below the amount of operating revenue for the year for each prescribed account and the amount of increase or decrease over the preceding year.
2. If increases and decreases are not derived from previously reported figures explain any inconsistencies.
3. Number of customers should be reported on the basis of number of meters, plus number of flat rate accounts, except that where separate meter readings are

added for billing purposes, one customer shall be counted for each group of meters so added. The average number of customers means the average of the 12 figures at the close of each month. If the customer count in the residential service classification includes customers counted more than once because of special services, such as water heating, etc., indicate in a footnote the number of such duplicate customers included in the classification.

4. Unretired sales should be included below, the details of such sales should be given in a footnote.
5. Classification of Commercial and Industrial Sales Account 442, according to Small (or Commercial) and Large, (or Industrial) may be according to the basis of classification regularly used by the respondent if such basis of classification is not greater than 1000 Kw of demand. See Account 442 of the Uniform System of Accounts. Explain basis of classification.

<b>TOTAL</b>													

1. This schedule is intended to give the account distribution of total taxes charged to operations and other final accounts during the year.

2. Do not include gasoline and other sales taxes which have been charged to accounts to which the material on which the tax was levied was charged. If the actual or estimated amounts of such taxes are known, they should be shown as a footnote and designated whether estimated or actual amounts.

3. The aggregate of each kind of tax should be listed under the appropriate heading of "Federal," "State," and "Local" in such manner that the total tax for each State and for all subdivisions can readily be ascertained.

4. The accounts to which the taxes charged were distributed should be shown in columns (c) to (h). Show both the utility department and number of account charged. For taxes charged to utility plant show the number of appropriate balance sheet plant account or subaccount.

5. For any tax which it was necessary to apportion to more than one utility department or account, state in a footnote the basis or apportioning such tax.

6. Do not include in this schedule entries with respect to deferred income taxes, or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.

INTERCHANGE POWER (Included in Account 555)

1. Report below the kilowatt-hours received and delivered during the year and the net charge or credit under interchange power agreements.  
 2. Provide subheadings and classify interchanges as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilities, (5) Municipalities, (6) R.E.A. Cooperatives, and (7) Other Public Authorities. For each interchange across a state line place an "X" in column (b).  
 3. Particulars of settlements for interchange power

shall be furnished in Part B, Details of Settlement for interchange Power. If settlement for any transaction also includes credit or debit amounts other than for increment generation expenses, show such other component amounts separately, in addition to debit or credit for increment generation expenses, and give a brief explanation of the factors and principles under which such other component amounts were determined. If such settlement represents the net of debits and credits under an interconnection, power pooling, coordination, or other such arrangement, submit a copy of the annual summary of transactions and billings among the parties to the agreement. If the amount of settlement reported in this schedule for any transaction does not represent all of the charges and credits covered by the agreement, furnish in a footnote a description of the other debits and credits and state the amounts and accounts in which such other amounts are included for the year.

A. Summary of Interchange According to Companies and Points of Interchange

27		12,486,618
28		378,500,064

**MONTHLY PEAKS AND OUTPUT**

1. Report hereunder the information called for pertaining to simultaneous peaks established monthly (in kilowatts) and monthly output (in kilowatt hours) for the combined sources of electric energy of respondent.

2. Monthly peak col. (b) should be respondent's maximum kw load as measured by the sum of its coincidental net generation and purchases plus or minus net interchange, minus temporary deliveries (not interchange) of emergency power to another system. Monthly peak including such emergency deliveries should be shown in a footnote with a brief explanation as to the nature of the emergency.

3. State type of monthly peak reading (instantaneous 15, 30, or 60 minutes integrated).

4. Monthly output should be the sum of respondent's net generation and purchases plus or minus net interchange and plus or minus net transmission or wheeling. Total for the year should agree with line 15 above.

5. If the respondent has two or more power systems not physically connected, the information called for below should be furnished for each system.

Month (a)	Monthly Peak					Monthly Output (kwh) (see instr 4) (E)
	Kilowatts (b)	Day of wk (c)	Day of Month (d)	Hour (e)	Type of Reading (f)

### Westfield Gas & Electric

#### GENERATING STATION STATISTICS (Large Stations) (Except Nuclear, See Instruction 10)

- |   |   |
|---|---|
| <p>1. Large stations for the purpose of this schedule are steam and hydro stations of 2,500 Hw* or more of installed capacity and other stations of 500 Kw* or more of installed capacity (name plate ratings). (*10,000 Kw and 2,500 Kw, respectively, if annual electric operating revenues of respondent are \$25,000,000 or more.)</p> <p>2. If any plant is leased, operated under a license from the Federal Power Commission, or operated as a joint facility, indicate such facts by the use of asterisks and footnotes.</p> <p>3. Specify if total plant capacity is reported in kva instead of kilowatts as called for on line 5.</p> | <p>4. If peak demand for 60 minutes is not available, give that which is available, specifying period.</p> <p>5. If a group of employees attends more than one generating station, report on line 11 the approximate average number of employees assignable to each station.</p> <p>6. If gas is used and purchased on a term basis, the B.t.u. content of the gas should be given and the quantity of fuel consumed converted to M cu. ft.</p> <p>7. Quantities of fuel consumed and the average cost per unit of fuel consumed should be consistent with charges to expense 501 and</p> |

## Westfield Gas & Electric

### GENERATING STATION STATISTICS (Large Stations) – Continued (Except Nuclear, See Instruction 10)

547 as shown on Line 24

8. The items under cost of plant and production expenses represents accounts or combinations of accounts prescribed by the Uniform System of Accounts. Production expenses, however, do not include Purchased Power, System Control and Load Dispatching, and Other Expenses classified as "Other Power Supply Expenses."

9. If any plant is equipped with combinations of steam, hydro, internal combustion engine or gas turbine equipment, each should be reported as a separate plant. However, if a gas turbine unit functions in a combined

operations with a conventional steam unit, the gas turbine should be included with the steam station.

10. If the respondent operates a nuclear power generating station submit: (a) a brief explanatory statement concerning accounting for the cost of power generated including any attribution of excess costs to research and development expenses; (b) a brief explanation of the fuel accounting specifying the accounting methods and types of cost units used with respect to the various components of the fuel cost, and (c) such additional information as may be informative concerning the type of plant, kind of fuel used, and other physical and operating characteristics of the plant.

\* Where other than 60 cycle, 3 phase, so indicate.

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations which serve but one industrial or street railway customer should not be listed hereunder.
3. Substations with capacities of less than 5000 Kva, except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.

**SUBSTATIONS**

4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended.
5. Show in columns (f), (g), and (h) special equipment such as rotary converters, reflectors, condensers, etc. and auxiliary equipment for increasing capacity.
6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by

reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name of lessor, date and period of lease and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses of other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**

**CONTRACT SERVICE TIME-OF-USE ELECTRIC RATE**

**#60**

**APPLICABILITY:**

The rate is applicable to large power customers whose monthly demand requirements are at least 1,250 kilowatts and whose monthly load factor is 60% or greater. All electricity delivered hereunder shall be measured through one meter, except that, where the Electric Department deems it impractical to deliver electric service through one meter, measurement may be through two or more meters as determined by the Electric Department.

**MONTHLY RATE:**

**Delivery Services:**

Customer Charge	Customer Specific
Transmission Charge:	
All On-Peak kWh	\$0.00605 per kWh
All Off-Peak kWh	\$0.00000 per kWh
Distribution Charge:	
All On-Peak kWh	\$0.01287 per kWh
All Off-Peak kWh	\$0.00695 per kWh

**Supplier Services:**

Electric Supply Charge:	
All Kilowatts of Billing Demand	\$15.50 per kW
All Kilowatt-Hours	\$.03708 per kWh

**RATE ADJUSTMENTS:**

This rate may be adjusted as provided in the Company's Demand Side Management and Renewable Energy Programs.

**DELIVERY SERVICES ADJUSTMENTS:**

There shall be adjustments to the Transmission Charge and Distribution Charge in the above rate as provided, respectively, in the Department's Transmission Service Adjustment Clause and Distribution Service Adjustment Clause, each as calculated for this rate schedule and in effect at the time of delivery.

**ELECTRIC SUPPLY SETTLEMENT:**

There shall be an adjustment to the Electric Supply Charge in the above rate as provided in the Department's Electric Supply Charge Settlement Clause as calculated for this rate schedule and in effect from time to time.

**MINIMUM CHARGE:**

The minimum charge per month is the greater of the Customer Charge or the minimum monthly charge stated in the contract for electric service.

**CUSTOMER CHARGE:**

The Customer Charge is determined on a case by case basis for each customer billed hereunder and is based upon the specific nature and type of service rendered by the Department.

**DETERMINATION OF BILLING DEMAND:**

The Billing Demand is the customer's highest 30-minute kilowatt registration measured during the month in the On-Peak Hours defined herein. However, the Billing Demand shall not be less than 50% of the highest 30-minute kilowatt registration measured during the current and most recent eleven months, nor less than 50% of the contract demand.

**POWER FACTOR REQUIREMENT:**

All customers must maintain at least 90% power factor. If the customer's power factor is less than 90% lagging, the customer may be required to correct the power factor to at least 90% lagging as a condition of service. If the customer does not correct the power factor to at least 90% lagging, then the customer will reimburse the Department for all costs which it incurs to make such correction.

**DEFINITION OF ON-PEAK AND OFF-PEAK ENERGY:**

The On-Peak Energy is defined as all kilowatt-hours used by the customer during the On-Peak Hours beginning 6:00 a.m. and ending 10:00 p.m. each day, excluding Saturdays and Sundays. The Off-Peak Energy is defined as all kilowatt-hours used by the customer during all hours other than the on-peak hours described above.

**EXTRA FACILITIES CHARGE:**

An Extra Facilities Charge shall be billed each month when the customer has requested the Department to furnish facilities which are in excess of the facilities normally furnished by the Department to serve customers without cost under its standard rate schedules and Rules and Regulations. The Extra Facilities Charge shall be equal to the excess facilities investment (including any net replacements from time to time) with an additional monthly carrying cost factor of 1.5%.

If mutually agreeable between the Electric Division and the customer, the customer may pay to the Department a non-refundable contribution-in-aid of

construction equal to all or a portion of the excess facilities investment. In such instance, the Extra Facilities Charge shall be determined based on the excess facilities investment, if any, remaining after the contribution-in-aid to construction has been paid. In any case, however, all facilities shall remain the property of the Department.

The Department shall have the option of refusing requests for excess facilities if, on its own determination, the requested facilities are not feasible, or may adversely affect the Department's service to other customers.

**FARM DISCOUNT:**

Customers who meet the eligibility requirements for being engaged in the business of agriculture or farming as defined in M.G.L. Chapter 128, Section 1A at their service location are eligible for an additional discount from their distribution service rates. The discount will be calculated as 10% of the Customer's total bill for service provided by the Company before application of this discount. Customers who meet the requirements of this section must provide the Company with appropriate documentation of their eligibility under this provision.

**TERMS AND CONDITIONS:**

Bills are due and payable no later than 28 days after date of billing. Service is governed by the Rules and Regulations of the Westfield Gas and Electric Light Department, City of Westfield, Massachusetts.

Effective: May 1, 2012

WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT  
DISTRIBUTION SERVICE ADJUSTMENT CLAUSE

APPLICABILITY:

A Distribution Service Adjustment shall be applied to each electric rate schedule in which reference is made to the Department's Distribution Charge.

ADJUSTMENT OF BILL:

The Distribution Charge set forth in each applicable electric rate schedule and contract of the Department shall be increased or decreased by the Distribution Service Adjustment Clause ("DSAC") calculated for each rate schedule on a per kilowatt-hour basis calculated to the nearest one thousandth of a cent (\$0.00001) by the following formula:

$$DSAC = \frac{D + P - I + F}{S} - B$$

Where:

DSAC = Distribution Service Adjustment Clause factor per kilowatt-hour sold relative to the applicable rate schedule.

D = The projected dollar amount to be applied of Electric Division expenses in the following accounts, plus an allocation of expenses for support services:

Operations	Accounts 580 through 589
Maintenance	Accounts 590 through 598
Customer Accounts	Accounts 901 through 909
Sales	Accounts 911 through 916
Admin. & General	Accounts 920 through 935
Depreciation	Account 403
Interest	Accounts 427 through 432

P = The estimated dollar amount necessary to meet the Department's fiduciary obligations including but not limited to bond principle, annual in lieu of tax commitment and net income requirements as authorized for the Electric Division.

I = Other Income less Miscellaneous Income Deductions to be applied, as projected in the following accounts:

Other Income	Accounts 415 through 421
Misc. Income Deductions	Accounts 425 through 426

F = The accumulated difference between the dollars to be previously recovered under this clause and the dollars actually collected hereunder through the end of the prior month..

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**

**DISTRIBUTION SERVICE ADJUSTMENT CLAUSE**

- S = The projected kilowatt-hour sales relative to the applicable rate schedule.
- B = The total dollar amount of the items described above recovered by the Department's applicable base electric rates, expressed as an amount per kilowatt-hour sold.

Effective: May 1, 2012

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**  
**ELECTRIC SUPPLY CHARGE SETTLEMENT CLAUSE**

**APPLICABILITY:**

An Electric Supply Charge Settlement factor shall be applied to each electric rate schedule in which reference is made to the Department's Electric Supply Charge.

**SETTLEMENT OF BILL**

The Electric Supply Charge set forth in each applicable electric rate schedule and contract of the Department shall be increased or decreased by the Electric Supply Charge Settlement Clause ("ESC") calculated for each rate schedule on a per kilowatt-hour basis calculated to the nearest one thousandth of a cent (\$0.00001) by the following formula:

$$ESC = \frac{P + Y + F + G - R}{S} - B$$

Where:

- ESC = Electric Supply Charge Settlement Clause factor per kilowatt-hour sold relative to the applicable rate schedule.
- P = The projected dollar amount to be applied, paid to all suppliers of purchased power and related services other than transmission costs referenced in the Department's Transmission Service Adjustment Clause, including all fuel costs charged by such suppliers excluding PASNY.
- Y = The projected dollar amount per kilowatt-hour to be applied, paid to suppliers of purchased power excluding PASNY, multiplied by the kilowatt-hours to be purchased from PASNY.
- F = The accumulated difference between the dollars to be previously recovered under this clause and the dollars actually collected hereunder through the end of the prior month.
- G = The dollar amount established to provide for accelerated recovery of generation assets.
- R = The applicable revenues to be received from off-system sales for resale transactions.
- S = The projected kilowatt-hour sales relative to the applicable rate schedule.
- B = The total dollar amount of the items described above recovered by the Department's applicable base electric rates, expressed as an amount per kilowatt-hour sold.

Effective: May 1, 2012

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**  
**TRANSMISSION SERVICE ADJUSTMENT CLAUSE**

**APPLICABILITY:**

A Transmission Service Adjustment shall be applied to each electric rate schedule in which reference is made to the Department's Transmission Charge.

**ADJUSTMENT OF BILL**

The Transmission Charge set forth in each applicable electric rate schedule and contract of the Department shall be increased or decreased by the Transmission Service Adjustment Clause ("TSAC") calculated for each rate schedule on a per kilowatt-hour basis calculated to the nearest one thousandth of a cent (\$0.00001) by the following formula:

$$TSAC = \frac{T + F}{S} - B$$

Where:

TSAC = Transmission Service Adjustment Clause factor per kilowatt-hour sold relative to the applicable rate schedule.

T = The projected dollar amount to be applied of Electric Division expenses in the following accounts:

Operations	Accounts 560 through 567
Maintenance	Accounts 568 through 573

F = The accumulated difference between the dollars to be previously recovered under this clause and the dollars actually collected hereunder through the end of the prior month

S = The projected kilowatt-hour sales relative to the applicable rate schedule.

B = The total dollar amount of the items described above recovered by the Department's applicable base electric rates, expressed as an amount per kilowatt-hour sold.

Effective: May 1, 2012

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**

**ELECTRIC CONTRACT SERVICE RATE - E**

**APPLICABILITY:**

This rate schedule is available to large or aggregated commercial, industrial and institutional customers that would enter into an agreement for electric service which, in the Department's sole discretion, would benefit both the customer and the Department. The minimum annual volume for a negotiated contract under this rate shall be at least 3,000,000 kWh. Electric service provided under this rate is for the customer's exclusive use and not for resale.

**TERM:**

For an agreement period not exceeding two years.

**RATE:**

The negotiated rate shall be made up of any of the following component charges:

Customer Charge -	A monthly administrative charge applicable to each meter.
Transmission Charge -	An additional charge per kWh to recover costs associated with delivery of electricity to the Westfield receipt station.
Distribution Charge -	An additional charge per kWh to recover costs associated with delivery of electricity to the customer's meter.
Demand Charge -	An additional charge per kW to recover costs necessary to allow the Department to meet the customer's peak electricity needs.
Electric Supply Charge -	An additional charge per kWh to recover charges associated with electric supply

The rates for electric service and terms and conditions under this rate schedule will be negotiated between the customer and the General Manager. In negotiating such rates and terms and conditions, the Manager shall consider, among other things, the following concerns and factors:

- a. Any benefits in utility electric supply planning that may arise as a result of the customer's contractual commitment;
- b. Whether the customer agrees to purchase from the Department either a certain minimum or maximum volume of electricity or a certain minimum or maximum percentage of its electricity needs over the term of the contract;
- c. The cost of competing energy alternatives available to the customer, including the cost of any renewable sources;
- d. The projected cost of electricity to the Department to supply the customer's needs over the term of the contract
- e. The projected revenues and margin that will be derived from the electricity sales to the customer over the term of the contract;
- f. Consideration of any economic development factors;
- g. The customer's demand level and load factor; and
- h. Other projected benefits or disadvantages to the electric utility occurring as a result of the contract.

Utility bills rendered under this schedule shall be subject to any applicable utility tax.

**RATE ADJUSTMENTS:**

This rate may be adjusted as provided in the Company's Demand Side Management and Renewable Energy Programs.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading and billing.

**POWER FACTOR REQUIREMENT:**

All customers must maintain at least a 90% power factor as a condition of service. In the event the customer does not maintain a power factor of at least 90%, the customer will be required to reimburse the Department for all costs it incurs to make such a correction.

**TERMS AND CONDITIONS:**

Bills are due and payable 28 days after date of billing. Service is governed by the "Rules and Regulations of the Westfield Gas & Electric Light Department, City of Westfield, Massachusetts".

Effective: May 1, 2012

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT  
AUTOMATED REMOTE METERING OPT-OUT CHARGE**

**APPLICABILITY:**

This rate tariff is applicable to all residential customers who choose to forego the benefits of automated meter reading (AMR) and instead request to have their meter(s) manually read using a meter that does not contain wireless communication functionality.

**MONTHLY CHARGES:**

Customers who elect to opt-out of the Westfield Gas & Electric Automated Meter Reading Program and instead have their meter(s) manually read will be charged an additional \$18.00 fee per month for the first meter and \$2.00 per month for each additional meter at the same customer location.

All charges and provisions of the opt-out customer's otherwise applicable rate schedule(s) shall apply.

**SPECIAL PROVISIONS:**

By choosing to opt-out of automated meter reading and instead continue to have meter(s) manually read each month, the customer is required, if meter is located inside the premises, to have the meter moved, at customer's expense, to an accessible exterior location by a licensed technician within 90 days from the date the customer formally opts-out, by submitting an Opt-Out Request form to Westfield Gas & Electric. In the event the utility meter(s) located inside the premises have not been moved to an approved and accessible exterior location after 90 days from the date recorded on the Opt-Out Form, the customer is required to provide Westfield Gas & Electric access to the premises to install the AMR metering and related equipment necessary to provide automated meter reading.

**TERMS AND CONDITIONS:**

In addition to the terms set under this rate tariff, service is governed by the applicable Rules and Regulations of the Westfield Gas and Electric Light Department, City of Westfield, Massachusetts.

Effective: January 1, 2015

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**

**RESIDENTIAL ELECTRIC SERVICE RATE**

**#11 AND #12**

**APPLICABILITY:**

The rate is applicable to all residential customers for all uses of electricity in a single family residence or individual apartment.

**MONTHLY RATE:**

**Delivery Services:**

Customer Charge	\$6.25	per meter
Transmission Charge	\$0.02411	per kWh
Distribution Charge	\$0.04893	per kWh

**Supplier Services:**

Electric Supply Charge	\$0.05996	per kWh
------------------------	-----------	---------

**RATE ADJUSTMENTS:**

This rate may be adjusted as provided in the Company's Demand Side Management and Renewable Energy Programs.

**DELIVERY SERVICES ADJUSTMENTS:**

There shall be adjustments to the Transmission Charge and Distribution Charge in the above rate as provided, respectively, in the Department's Transmission Service Adjustment Clause and Distribution Service Adjustment Clause, each as calculated for this rate schedule and in effect at the time of delivery.

**ELECTRIC SUPPLY SETTLEMENT:**

There shall be an adjustment to the Electric Supply Charge in the above rate as provided in the Department's Electric Supply Charge Settlement Clause as calculated for this rate schedule and in effect from time to time.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading, billing, customer service and a portion of maintenance and operations expenses.

#11 AND #12  
Page 2

**RESIDENTIAL EARLY DISCOUNT:**

All residential customers who are in good financial standing (owing the current balance only) are entitled to up to a five percent (5%) discount off the bill if paid within fifteen (15) days.

**FARM DISCOUNT:**

Customers who meet the eligibility requirements for being engaged in the business of agriculture or farming as defined in M.G.L. Chapter 128, Section 1A at their service location are eligible for an additional discount from their distribution service rates. The discount will be calculated as 10% of the Customer's total bill for service provided by the Company before application of this discount. Customers who meet the requirements of this section must provide the Company with appropriate documentation of their eligibility under this provision.

**PASNY - HYDRO-ELECTRIC CREDIT:**

There will a credit applied to all residential customers' bills for hydro power, based on savings between fossil fuels and hydro.

**TERMS AND CONDITIONS:**

Bills are due and payable no later than 28 days after date of billing. Service is governed by the Terms and Conditions of the Westfield Gas and Electric Light Department, City of Westfield, Massachusetts.

Issued: April 2016

Effective: May 1, 2016

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**

**SMALL GENERAL SERVICE ELECTRIC RATE**

**#21, #22 and #23**

**APPLICABILITY:**

The rate is applicable to all non-residential uses of electricity, where the customer's monthly kilowatt-hours do not exceed 4,000 kWh in any three consecutive months.

**MONTHLY RATE:**

**Delivery Services:**

Customer Charge	\$7.00 per meter
Transmission Charge	\$0.02382 per kWh
Distribution Charge	\$0.05898 per kWh

**Supplier Services:**

Electric Supply Charge	\$0.05670 per kWh
------------------------	-------------------

**RATE ADJUSTMENTS:**

This rate may be adjusted as provided in the Company's Demand Side Management and Renewable Energy Programs.

**DELIVERY SERVICES ADJUSTMENTS:**

There shall be adjustments to the Transmission Charge and Distribution Charge in the above rate as provided, respectively, in the Department's Transmission Service Adjustment Clause and Distribution Service Adjustment Clause, each as calculated for this rate schedule and in effect at the time of delivery.

**ELECTRIC SUPPLY SETTLEMENT:**

There shall be an adjustment to the Electric Supply Charge in the above rate as provided in the Department's Electric Supply Charge Settlement Clause as calculated for this rate schedule and in effect from time to time.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading, billing, customer service and a portion of maintenance and operations expenses.

**POWER FACTOR REQUIREMENT:**

#21, #22 and #23  
Page 2

Customers are expected to maintain a power factor of not less than 90% lagging. The Department may require any customer not satisfying this power factor requirement to furnish, install and maintain, at no cost to the Department, such corrective equipment as the Department may deem necessary under the circumstances. Alternatively, the Department may elect to install such corrective equipment at the customer's expense.

**FARM DISCOUNT:**

Customers who meet the eligibility requirements for being engaged in the business of agriculture or farming as defined in M.G.L. Chapter 128, Section 1A at their service location are eligible for an additional discount from their distribution service rates. The discount will be calculated as 10% of the Customer's total bill for service provided by the Company before application of this discount. Customers who meet the requirements of this section must provide the Company with appropriate documentation of their eligibility under this provision.

**TERMS AND CONDITIONS:**

Bills are due and payable no later than 28 days after date of billing. Service is governed by the Terms and Conditions of the Westfield Gas and Electric Light Department, City of Westfield, Massachusetts.

Issued: April 2016

Effective: May 1, 2016

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**

**GENERAL SERVICE ELECTRIC RATE**

**#31, #32, #33 and #34**

**APPLICABILITY:**

The rate is applicable to all non-residential uses of electricity not specifically provided for by the Department's other electric rate schedules. All electricity delivered hereunder shall be measured through one meter.

**MONTHLY RATE:**

**Delivery Services:**

Customer Charge	\$40.00 per meter
Transmission Charge	\$0.02408 per kWh

**Distribution Charge**

All Kilowatts of Billing Demand	\$3.80 per kW
All Kilowatt-hours	\$0.03638 per kWh

**Supplier Services:**

Electric Supply Charge	\$0.07162 per kWh
------------------------	-------------------

**RATE ADJUSTMENTS:**

This rate may be adjusted as provided in the Company's Demand Side Management and Renewable Energy Programs.

**DELIVERY SERVICES ADJUSTMENTS:**

There shall be adjustments to the Transmission Charge and Distribution Charge in the above rate as provided, respectively, in the Department's Transmission Service Adjustment Clause and Distribution Service Adjustment Clause, each as calculated for this rate schedule and in effect at the time of delivery.

**ELECTRIC SUPPLY SETTLEMENT:**

There shall be an adjustment to the Electric Supply Charge in the above rate as provided in the Department's Electric Supply Charge Settlement Clause as calculated for this rate schedule and in effect from time to time.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading, billing, customer service and a portion of maintenance and operations expenses, plus \$3.80 per kW of Billing Demand, where the Billing Demand is defined as the customer's highest thirty-minute kilowatt demand occurring during the current and preceding eleven months.

**POWER FACTOR REQUIREMENT:**

Customers are expected to maintain a power factor of not less than 90% lagging. The Department may require any customer not satisfying this power factor requirement to furnish, install and maintain, at no cost to the Department, such corrective equipment as the Department may deem necessary under the circumstances. Alternatively, the Department may elect to install such corrective equipment at the customer's expense.

**FARM DISCOUNT:**

Customers who meet the eligibility requirements for being engaged in the business of agriculture or farming as defined in M.G.L. Chapter 128, Section 1A at their service location are eligible for an additional discount from their distribution service rates. The discount will be calculated as 10% of the Customer's total bill for service provided by the Company before application of this discount. Customers who meet the requirements of this section must provide the Company with appropriate documentation of their eligibility under this provision.

**TERMS AND CONDITIONS:**

Bills are due and payable no later than 28 days after date of billing. Service is governed by the Terms and Conditions of the Westfield Gas and Electric Light Department, City of Westfield, Massachusetts.

Issued: April 2016

Effective: May 1, 2016

**WESTFIELD GAS AND ELECTRIC LIGHT DEPARTMENT**

**LARGE POWER ELECTRIC RATE**

**#35 and #36**

**APPLICABILITY:**

The rate is applicable to large commercial, industrial or municipal customers if the Department estimates that the customer's average monthly load factor will exceed 55% and the customer's monthly demand will exceed 100 kilowatts. All electricity delivered hereunder shall be measured through one meter.

**MONTHLY RATE:**

**Delivery Services:**

Customer Charge	\$90.00	per meter
Transmission Charge	\$0.02361	per kWh

**Distribution Charge**

All Kilowatts of Billing Demand	\$4.50	per kW
All Kilowatt-hours	\$0.02975	per kWh

**Supplier Services:**

Electric Supply Charge	\$0.06975	per kWh
------------------------	-----------	---------

**RATE ADJUSTMENTS:**

This rate may be adjusted as provided in the Company's Demand Side Management and Renewable Energy Programs.

**DELIVERY SERVICES ADJUSTMENTS:**

There shall be adjustments to the Transmission Charge and Distribution Charge in the above rate as provided, respectively, in the Department's Transmission Service Adjustment Clause and Distribution Service Adjustment Clause, each as calculated for this rate schedule and in effect at the time of delivery.

**ELECTRIC SUPPLY SETTLEMENT:**

There shall be an adjustment to the Electric Supply Charge in the above rate as provided in the Department's Electric Supply Charge Settlement Clause as calculated for this rate schedule and in effect from time to time.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading, billing, customer service and a portion of maintenance and operations expenses, plus \$4.50 per kW of billing demand,

#35 AND #36

**1. General**

These terms and conditions are applicable to and made a part of all service classifications. Any terms and conditions which are inconsistent with any specific provisions of any service classification shall not apply.

**2. Territory to which Terms and Conditions Apply**

The Terms and Conditions are applicable to all customers, or potential customers, requiring electric service within the franchise area of the Westfield Gas & Electric Light Department, hereinafter referred to as the "Department".

**3. Characteristics of Service**

3.1. General: The standard service of the Department is alternating current with a nominal frequency of 60 hertz (cycles per second). All types of service listed below are not available at all locations and the Department may specify a certain type of service based on location, size or type of load. The Department must always be consulted to determine the type of service to be supplied to a particular installation.

3.2. Service: Subject to the restrictions in 3.1, the types of service available are as follows:

3.2.1 Secondary Distribution Service

Single phase, 3 wire, 120/208 volts  
Single phase, 3 wire, 120/240 volts  
Three phase, 4 wire, 208/120 volts  
Three phase, 4 wire, 480/277 volts

3.2.2 Primary Distribution Service

Three phase, 4 wire, 23,000 volts

**4. Obtaining Service**

4.1. Application: An application for electrical service shall be made in person at the Department's office located on 100 Elm Street, or at 140 Turnpike Industrial Road, Gas & Electric Operation Center.

4.2. Selection of Service Classification: The Department will assist in the selection of the rate schedule which is most appropriate for the type of service provided.

4.3. Applications for electric service within the territory served by the Department will be received at any office, through any duly authorized representative of the Department or through our on-line authorized application process. Prospective non-residential customers must make a written application through our written application or our on-line forms for service. Both residential and non-residential applications are available on-line and customers can complete the electronic applications using the authorized forms located on the company website. In addition, customers may contact an authorized representative to process their application. New residential service is required to pay an electric meter

deposit of \$125 for electric and \$300 for a combined gas & electric service. Non residential customers are required to pay a minimum deposit of \$500 for service. Non residential deposit requirements will be established based on consumption history for the service location. Service shall not commence until the Department has received said application except that for an interim period pending the receipt of a duly executed application, the Department may accept an oral application for rate service from customers taking service under residential rate schedules. In the event that an oral application is received by the Department from a person not currently a customer of record of the Department for service at a location where service is disconnected for non-payment, the Department may request an application be made in writing at the office of the Department as a precondition for service, unless otherwise ordered by the DPU. The Department reserves the right to refuse service, at any location, to an applicant who is indebted to the Department for any service furnished to such applicant.

- 4.4 **Lowest Applicable Rate:** The rate schedule applicable to the customer's service will be the Department's least expensive rate in effect for like conditions of service to the class as determined by information provided by the customer at the time of application for service. Current rate information shall be maintained on the Department's web site. If the Department is subsequently notified by a customer of a change in the customer's character of service, the rate available to that customer for the service being supplied may be modified by the Department. The Department shall not be required to refund the difference in charges under different rate schedules for any past period during which the customer did not request service under an alternate rate schedule that may have been available to the customer. Unless specifically stated to the contrary, all rates are based on the supply of service to the customer throughout the twelve months of the year, and the Department will not normally change rates more frequently than once in any twelve month period.
- 4.5 **Service Information from Department:** Upon receipt of an application from a prospective customer setting forth the location of the premises to be served, the extent of service to be required and other pertinent information, the Department will advise the customer of the type and character of the service it can furnish, the point at which service will be delivered and the location to be provided for the Department's metering equipment.

**5. Equipment on the Customer's Premises**

- 5.1 **General:** The customer is required to furnish, install and maintain all wiring and equipment on the customer's premises beyond the point of attachment of the service lateral, except for the metering equipment described in this section. The customer shall provide sufficient and readily accessible space for the Department's metering equipment, service laterals, transformers and other equipment or apparatus required for electrical service. The location of service entrance, metering and other equipment will be designated by the Department.

The Department shall have the right of access at all reasonable times for the purpose of installing, reading, inspecting, repairing or testing the Department's equipment and for the purpose of discontinuing service or removing its apparatus or equipment.

- 5.2 **Meters:** The Department will furnish, install and maintain such meter or meters as are necessary to measure, for Department billing purposes, the electricity used by a customer.

- 5.2.1 Meters for Secondary Service: For new installations to be metered at voltages not exceeding 600 volts, meter mounting equipment and, where required, current transformers and miscellaneous equipment will be furnished and connected by the Department without charge. The customer will be responsible for mounting the equipment furnished by the Department.
- 5.2.2 Meters for Primary Service: For new installations to be metered at voltages above 600 volts, meter mounting equipment, current transformers, potential transformers, test switches and miscellaneous equipment will be furnished and installed by the Department at the customer's expense. For underground service, the customer shall provide an enclosure, per Department specifications, for the Department's instrument transformers. For overhead service, the customer shall provide a structure, per Department specifications, suitable for mounting the Department's instrument transformers.
- 5.2.3 Indicating Devices: The Department will not permit the connection of customer-owned ammeters, voltmeters, pilot lamps or other devices to its instrument transformers. The Department will provide, if so requested by the customer and at the customer's cost, a three wire, form A or C, contact output for connection to the customer's load monitoring equipment.
- 5.2.4 Multi-Meter Installations: All service to a single customer at a single site or location shall be rendered through a single meter, unless the Department specifically permits or requires otherwise. Where the Department is to supply individual tenants within a single building, the customer or building owner shall install and maintain feeders from a common location to each tenant, and the Department will install and maintain meters on these feeders.
- 5.2.5 Sub-metering and Check Metering: Resale of electricity furnished by the Department, based on the registration of customer owned metering devices, is defined a sub-metering and is not permitted. A customer may monitor his own usage through the use of approved meters, computers or other metering device. Such metering is defined as check metering.
- 5.2.6 Meters shall be outside unless otherwise approved by the Department's Operations Manager.
- 5.3 Protection of Meters and Other Equipment: The customer shall not injure, interfere, destroy or tamper with the meters or other property of the Department, nor shall the customer permit any person to do so. The customer shall use all reasonable precautions to protect the property of the Department located on the customer's premises. The customer shall be responsible for all damages to or loss of such property unless caused by circumstances beyond the customer's control.

The Department will seal or lock all meters and all enclosures containing meters or metering equipment. No person except a duly authorized employee of the Department shall be permitted in any way to change or modify the Department's equipment. No seals or locks shall be permitted to be removed without authorization of the Department.

When a meter is found to be tampered with, service to that meter will be disconnected. To have service restored, the customer must make an application at the Department's office and pay a service fee of \$50.00. Repeated instances of tampering will be reported to the Westfield Police Department for prosecution.

- 5.4 **Customer Wiring:** Wiring installed on the customer's premises must conform with all applicable requirements of the Department and the National Electrical Code. Wiring shall be inspected and approved by a Westfield Wiring Inspector acceptable to the Department, prior to the connection of a new service.
- 5.5 **Utilization Apparatus:** Motors, welders, furnaces and other utilization apparatus shall be wired, connected and operated so as not to produce any effect on the service to other customers.

Where the use of electric service is to be intermittent, occasional, or subject to violent fluctuations, the customer shall review such proposed use with the Department and obtain the Department's approval.

The customer shall notify the Department prior to connecting any motor larger than indicated below:

5 Horsepower for single phase, 120, 120/240, 120/208 volt service  
15 Horsepower for three phase, 240, 120/208, 277/480 volt service  
75 Horsepower for three phase, at 23,000 volt service

- 5.6 **Power Factor:** A customer taking service is expected to maintain a power factor of not less than 90% lagging. The Department may require any customer not satisfying this power factor requirement to furnish, install and maintain, at no cost to the Department, such corrective equipment as the Department may deem necessary under the circumstances. Alternatively, the Department may elect to install such corrective equipment at the customer's expense.
- 5.7 **Load Balance:** Customers receiving three phase service shall maintain as nearly as reasonably possible, equal currents in each of the three phase conductors at the point where electric service is metered. In no event shall the current in all three phase conductors be more than a 5% spread.

## 6. **Meter Reading and Billing**

- 6.1 **General:** Unless otherwise specified in the service classifications, rates and charges are stated on a monthly basis. The Department will ordinarily schedule meters to be read and bill to be rendered monthly, however, the Department reserves the right to read meters and render bills on a bi-monthly basis.

Billings for temporary services, however, shall have a minimum billing period of one month.

- 6.2 **Estimated Bills:** Where the Department is unable to read the meter, or where actual usage cannot be determined due to meter failure, the customer's usage will be estimated by the Department on the basis of available data and the customer billed accordingly. Every attempt will be made to collect a monthly physical or remote read for billing.
- 6.3 **Payment of Bills:** Bills are payable when presented. If payment is not received by the Department prior to the due date specified on the bill, a late payment charge of 1-1/2% per monthly billing period will be applied on the unpaid balance from the due date to the date payment is received. (Late charge applies only to commercial and industrial customers.)

**7. Discontinuance of Service**

- 7.1 By the Department: The Department, upon reasonable notice, may discontinue service for the following reasons:
1. For the purpose of making permanent or temporary repairs, changes, improvements in any part of its system;
  2. For compliance in good faith with any government order or directive;
  3. Any of the following acts or omissions on the part of the customer:
    - (a) non-payment of a valid bill for service furnished at a present or previous location;
    - (b) tampering with any facility of the Department;
    - (c) customer moves from the premises, unless customer requests that service be continued;
    - (d) service is provided to others (sub-metering);
    - (e) failure to provide payment as provided for in these terms and conditions;
    - (f) connecting and operating equipment in a manner so as to produce disturbing effects on the service of the Department or other customers;
    - (g) the customer's installation poses a hazard to life or property;
    - (h) customer refuses reasonable access to the Department's employees.
- 7.2 By the Customer: A customer wishing to discontinue service must give 48 hours advance notice to the Department.

**8. Reconnection of Service**

- 8.1 By the Department: The Department requires a 48 hour advance notice for any reconnection of electric service. Reconnections will be scheduled during normal working hours, Monday through Friday at no additional cost to the customer. There will be a charge of \$25.00 for each reconnection scheduled during the normal working hours for customers that do not provide the required 48 hour notice.

A request for reconnection due to termination of service for non-payment is \$20.00 before 3:00 p.m. during working hours and after 3:00 p.m. the customer is charged a minimum of \$50.00 or an actual labor rate multiplied by 1-1/2 times with a minimum call-out rate of 2-1/2 hours. There will also be a charge for a truck and the equipment used for the reconnection. The charge will be applied according to the rate scheduled for equipment in effect at that time.

**9. Line Extension**

- 9.1 General: The Department will furnish, install and maintain all electric lines and facilities located on public streets, highways and rights-of-ways acquired by the Department.
- 9.2 If a customer's property abuts on a public street, highway or Department right-of-way, the Department will extend such lines to the customer's property at the Department's cost.

**10. Services**

- 10.1 Overhead: The Department will furnish, install and maintain all poles, conductors, transformers and associated equipment required for overhead service. If the service lateral exceeds 300 feet in length, the customer shall pay the Department the actual cost of that part of the lateral excess of 300 feet.
- 10.2 Underground: The Department will furnish, install and maintain all underground conductors, transformers and associated equipment required for underground service at the customer's expense. The customer shall furnish, install and maintain, in accordance with the Department's requirements, the underground conduit system, hand holes and transformer foundation as required. The customer shall pay the Department for all those costs.

## 11. Temporary and Special Services

- 11.1 Where service is to be used for a limited period (such as building construction) the customer will pay a minimum charge of \$75.00 for all temporary services. All additional charges will be billed at actual cost.

Whenever, at the customer's request, the Department relocates facilities to suit the convenience of the customer, the customer shall pay all costs of such relocation.

## 12. Service Limitations

- 12.1 Service Continuity: The Department will use all reasonable diligence to provide a regular and uninterrupted supply of service, but should supply be discontinued for any reason set forth in these terms and conditions, or should the supply of service be interrupted, curtailed or fail by reason of any interference, the Department shall not be liable for any loss or damage, direct or consequential, resulting from any such discontinuation. Also, the same limitations apply for any interruption abnormal voltage, discontinuance or reversal of it's service due to causes beyond it's immediate control whether accident, labor difficulties, conditions of dual supply, the attitude of any public authority, reduction in voltage, rotating the use of feeders, selected black-outs, or failure to receive any electricity for which in any manner it has contracted, or due to the operation in accordance with good utility practices of any emergency load reduction program by the Westfield Gas and Electric Light Department.

"The utility agrees to use reasonable diligence in providing a regular and uninterrupted supply of power, but does not guarantee a constant supply of power, or the maintenance of unvaried frequency or voltage, and will not be liable in damages to the customer by reason of any failure in respect thereof." Whenever the integrity of the electric service may be threatened by power quality, quality of power at the point of use or disturbances, the customer shall take and use power in such a manner to not cause disturbance or voltage fluctuations on the utility supply system or systems of any third party.

The customer shall use remedial measures at his own expense by way of installing suitable apparatus or otherwise may be necessary to reduce any disturbance, fluctuations or interference to a level deemed tolerable by the utility.

- 12.2 Emergencies: The Department may curtail or interrupt service or reduce voltage to any customer or customers in the event of an emergency threatening the integrity of its system,

or the system of its suppliers, if, in its judgment, such action will prevent or alleviate the emergency condition.

- 12.3 Contingent Service: The supply of electric service is contingent upon the Department's ability to secure and retain the necessary locations for its poles, wires, conduits, cables and other apparatus.
- 12.4 Force Majeure: The Department shall not be considered to be in default hereunder and shall be excused from furnishing electricity hereunder if and to the extent that it shall be prevented from doing so by storm, flood, lightning, earthquake, fire, explosion, equipment failure, dam failure, civil disturbance, labor dispute, act of God or the public enemy, action of a court or public authority, or any cause beyond the control of the Department, including, without limitation, shutdown or limited operation due to breakdown, or scheduled or unscheduled repairs or maintenance, operational problems with the power grid, or inability to obtain adequate electric supplies.

**13. Supplemental and Emergency Power**

- 13.1 Emergency Generation: Where the customer installs one or more emergency generators for the sole purpose of providing emergency power during failure of the Department's service, a double throw switch shall be provided by the customer to prevent a connection between the emergency generator and the Department's service.
- 13.2 Small Power Production and Co-Generation Facilities: The Department will furnish supplemental, backup or maintenance service to customers owning qualifying co-generation and small power production facilities, and will purchase electricity from such customers if it is cost effective to do so. The Department should be contacted early in the design of any such facilities. Rates will be negotiated based on the characteristics of the customer's proposed system in accordance with the Reimbursement Policy in the Department's Interconnection Standards and Procedures. All inter-connection equipment and interconnections between the Department's service and the customer's generation shall be subject to the Department's approval and in accordance with the Department's Interconnection Standards and Procedures for Distributed Generation.

**14. Applicable Laws**

All terms and conditions and policies of the Department are subject to the applicable General Laws of the Commonwealth of Massachusetts, Chapter 164 in particular, and application regulations and orders of the Massachusetts Department of Public Utilities.

**15. Purchased Power Cost**

The Customer shall be liable for all rates, charges and surcharges allowed for in the Schedule of Rates related to services provided to each Customer individually.

City of Westfield  
Gas & Electric Light Department

**GAS SUPPLY CHARGE SCHEDULE**

**APPLICABILITY:**

A Gas Supply Charge shall be applied to each rate schedule in which reference is made to the Department's Gas Supply Charge.

**SETTLEMENT OF BILL:**

The Gas Supply Charge ("GSC") will be calculated for each gas rate schedule of the Department and may be increased or decreased by an amount per CCF calculated to the nearest one hundredth of a cent (\$0.0001) by the following formula:

$$GSC = \frac{PGC + F}{FS}$$

Where:

- GSC = Gas Supply Charge per CCF relative to the applicable rate schedule.
- PGC = Purchased gas costs to be applied for annual pipeline gas supply including transportation and any other gas supply expenses not recovered in base rates or in the Distribution Adjustment Charge.
- F = The accumulated difference between the dollars to be recovered under this schedule and the dollars actually collected hereunder through the end of the prior month.
- FS = Projected CCF sales relative to the applicable rate schedule.

Effective: May 1, 2012

City of Westfield  
Gas & Electric Light Department

**OPTIONAL GAS SERVICE SCHEDULE - A**

**AVAILABILITY:**

This rate is available for Industrial and large Commercial customers with gas dual fuel capability who are located adjacent to the Department's existing distribution mains, which have adequate capacity so that gas delivered hereunder will not impair service to other customers.

**CHARACTER OF SERVICE:**

A gas supply of not less than 1,000 BTU per cubic foot.

**RATE – APPLIED MONTHLY:**

On a periodic basis the Department may notify qualifying customers of the projected gas rate for the next succeeding period. The customer will have an option to receive gas at such rate specified by the Department. All gas purchased under this schedule shall vary monthly according to the Department's wholesale gas costs, gas transportation expenses, pipeline costs and revenue requirements. The price of all gas sold under this schedule may be modified as necessary to provide an appropriate benefit to the Department.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading and billing.

**UNAUTHORIZED USE OF GAS:**

All gas taken by a customer on any day during a period of curtailment without the express permission of the Energy Supply Division and all gas taken by a customer on any day during a curtailment period in excess of the volume of gas authorized by the Energy Supply Division shall be paid for by the customer at a rate equivalent to the monthly peaking costs per CCF in addition to all other charges payable under this rate schedule. The General Manager may waive any such additional charges for unauthorized use of gas if the Department's cost of gas is not affected by the unauthorized use by the customer.

**ENERGY CONSERVATION AND ENVIRONMENTAL CHARGE:**

As may be in effect from time to time for the necessary recovery of certain energy conservation program costs and/or certain environmental related costs.

**TERMS AND CONDITIONS:**

Service under this rate shall be negotiated individually. If a customer wishes to terminate the optional gas service schedule, they must notify the Department in writing, two weeks prior to the normal meter reading date. The customer will then be placed automatically on its applicable gas rate schedule for the next billing period.

City of Westfield  
Gas & Electric Light Department

**Gas Contract Service Rate - B**

**AVAILABILITY:**

This rate schedule is available to large or aggregated commercial, industrial and institutional customers that would enter into an agreement for gas service which, in the Department's sole discretion, would benefit both the customer and the Department. The minimum annual volume for a negotiated contract under this rate shall be at least 75,000 CCF. Gas service provided under this rate is for the customer's exclusive use and not for resale.

**TERM:**

For an agreement period not exceeding two years.

**CHARACTER OF SERVICE:**

The supply and delivery of natural gas containing approximately 1,000 BTU's per cubic foot.

**RATE:**

The negotiated rate shall be made up of any of the following component charges:

Customer Charge - A monthly administrative charge applicable to each meter.

Delivery/Distribution Charge- An additional charge per CCF to recover costs associated with delivery of gas to the customer's meter and peaking costs when applicable.

Gas Supply Charge - An additional charge per CCF to recover charges associated with gas supply

The rates for gas service and terms and conditions under this rate schedule will be negotiated between the customer and the General Manager. In negotiating such rates and terms and conditions, the Manager shall consider, among other things, the following concerns and factors:

- a. Any benefits in utility gas supply planning that may arise as a result of the customer's contractual commitment;

- b. Whether the customer agrees to purchase from the Department either a certain minimum or maximum volume of gas or a certain minimum or maximum percentage of its energy needs in gas over the term of the contract;
- c. The cost of competing energy alternatives available to the customer, including the cost of any relevant alternative fuels;
- d. The projected cost of gas to the Department to supply the customer's needs over the term of the contract
- e. The projected revenues and margin that will be derived from the gas sales to the customer over the term of the contract;
- f. Consideration of any economic development factors;
- g. The customer's load factor; and
- h. Other projected benefits or disadvantages to the gas utility occurring as a result of the contract.

Utility bills rendered under this schedule shall be subject to any applicable utility tax.

**UNAUTHORIZED USE OF GAS:**

All gas taken by a customer on any day during a period of curtailment without the express permission of the Energy Supply Division and all gas taken by a customer on any day during a curtailment period in excess of the volume of gas authorized by the Energy Supply Division shall be paid for by the customer at a rate equivalent to the monthly peaking costs per CCF in addition to all other charges payable under this rate schedule. The General Manager may waive any such additional charges for unauthorized use of gas if the Department's cost of gas is not affected by the unauthorized use by the customer.

**ENERGY CONSERVATION AND ENVIRONMENTAL CHARGE:**

As may be in effect from time to time for the necessary recovery of certain energy conservation program costs and/or certain environmental related costs.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading and billing.

**TERMS AND CONDITIONS:**

Bills are due and payable 28 days after date of billing. Service is governed by the "Rules and Regulations of the Westfield Gas & Electric Light Department, City of Westfield, Massachusetts".

Effective: May 1, 2012

**Westfield Gas & Electric Light Department**

**RESIDENTIAL SERVICE GAS RATE - #61, #62**

**AVAILABILITY:**

This rate schedule is available to all residential customers for natural gas service in a single family residence or individual apartment.

**CHARACTER OF SERVICE:**

The supply and delivery of natural gas containing approximately 1,000 BTU's per cubic foot.

**RATE:**

Customer Charge - \$7.75 per month

Transportation Charge -

November – April

First 20 CCF \$0.3903 per CCF

All over 20 CCF \$0.2903 per CCF

May – October

First 20 CCF \$0.3483 per CCF

All over 20 CCF \$0.2483 per CCF

Distribution Charge – An additional charge per CCF will apply to all delivered gas in accordance with the Gas Distribution Adjustment Schedule calculated for this rate schedule.

Gas Supply Charge – An additional charge per CCF will apply to all delivered gas in accordance with the Gas Supply Charge Schedule calculated for this rate schedule.

**ENERGY CONSERVATION AND ENVIRONMENTAL CHARGE:**

As may be in effect from time to time for the necessary recovery of certain energy conservation program costs and/or certain environmental related costs.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading, billing, customer service and a portion of maintenance and operations expenses.

**RESIDENTIAL EARLY PAY DISCOUNT:**

All residential customers who are in good financial standing (owing the current balance only) are entitled to up to a five percent (5%) discount off the bill if paid within fifteen (15) days.

**FARM DISCOUNT:**

Customers who meet the eligibility requirements for being engaged in the business of agriculture or farming as defined in M.G.L. Chapter 128, Section 1A at their service location are eligible for an additional discount from their distribution service rates. The discount will be calculated as 10% of the Customer's total bill for service provided by the Company before application of this discount. Customers who meet the requirements of this section must provide the Company with appropriate documentation of their eligibility under this provision.

**TERMS AND CONDITIONS:**

Bills are due and payable 28 days after the date of billing. Service is governed by the "Rules and Regulations of the Westfield Gas & Electric Light Department, City of Westfield, Massachusetts".

**GENERAL SERVICE MUNICIPAL GAS RATE - #71, #72**

**AVAILABILITY:**

This rate schedule is available for natural gas service to municipal customers.

**CHARACTER OF SERVICE:**

The supply and delivery of natural gas containing approximately 1,000 BTU's per cubic foot.

**RATE:**

Customer Charge - \$ 20.25 per month

Transportation Charge -

November – April

First 250 CCF \$0.3124 per CCF

All over 250 CCF \$0.2624 per CCF

May – October

First 250 CCF \$.2711 per CCF

All over 250 CCF \$.2211 per CCF

Distribution Charge - An additional charge per CCF will apply to all delivered gas in accordance with the Gas Distribution Adjustment Schedule calculated for this rate schedule.

Gas Supply Charge - An additional charge per CCF will apply to all delivered gas in accordance with the Gas Supply Charge Schedule calculated for this rate schedule.

**ENERGY CONSERVATION AND ENVIRONMENTAL CHARGE:**

As may be in effect from time to time for the necessary recovery of certain energy conservation program costs and/or certain environmental related costs.

**MINIMUM CHARGE:**

The minimum charge per month is reflective of the actual costs incurred to support metering, meter reading, billing, customer service and a portion of maintenance and operations expenses.

**FARM DISCOUNT:**

Customers who meet the eligibility requirements for being engaged in the business of agriculture or farming as defined in M.G.L. Chapter 128, Section 1A at their service location are eligible for an additional discount from their distribution service rates. The discount will be calculated as 10% of the Customer's total bill for service provided by the Company before application of this discount. Customers who meet the requirements of this section must provide the Company with appropriate documentation of their eligibility under this provision.

**May 1, 2016**

Issued: April 2016

Effective: May 1, 2016

**TABLE OF CONTENTS**

1. **GENERAL** ..... 3  
2. **TERRITORY TO WHICH RULES AND REGULATIONS APPLY** ..... 3  
3. **CHARACTERISTICS OF SERVICE** ..... 3  
4. **OBTAINING SERVICE** ..... 3  
5. **EQUIPMENT ON THE CUSTOMER'S PREMISES** ..... 4  
6. **METER READING AND BILLING** ..... 5  
7. **SERVICE LIMITATIONS** ..... 5  
8. **APPLICABLE LAWS** ..... 6  
9. **PURCHASED POWER COST** ..... 6

**1. General**

The following Rules and Regulations are applicable to and made a part of all rate schedules. Any such Terms and Conditions as are inconsistent with any specific provisions of any rate schedule shall not apply thereto.

**2. Territory to which Rules and Regulations Apply**

The Rules and Regulations are applicable to all customers, or potential customers, requiring electric service within the franchise area of the Westfield Gas & Electric Light Department, hereinafter referred to as the "Department".

**3. Characteristics of Service**

3.1. The supply of gas service is contingent upon the Department's ability to secure and retain the necessary locations for its distribution pipes and other apparatus. The Department will review existing and new proposed customer loads as provided by the customer to determine service size and delivery pressure. The typical delivery pressure shall be 7-8 in. w.c. It is the responsibility of the customer to obtain approval from the Department prior to any change in character of service or load requirements.

3.2. Such piping equipment and apparatus as may be necessary in order to utilize the service shall be provided, installed, maintained and used by the Customer in accordance with the requirements of the 248 CMR 4.0-Massachusetts Fuel Gas Code, and all the public authorities having jurisdiction of the same, and the requirements of the Department. The Department's requirements will be furnished during application and upon request.

**4. Obtaining Service**

4.1. Applications for gas service within the territory served by the Department will be received at any office, through any duly authorized representative of the Department or through our on-line authorized application process. Prospective non-residential customers must make a written application through our written application or our on-line forms for service. Both residential and non-residential applications are available on-line and customers can complete the electronic applications using the authorized forms located on the company website. In addition, customers may contact an authorized representative to process their application. New residential service is required to pay an electric meter deposit of \$125 for electric and \$300 for a combined gas & electric service. Non residential customers are required to pay a minimum deposit of \$500 for service. Non residential deposit requirements will be established based on consumption history for the service location. Service shall not commence until the Department has received said application except that for an interim period pending the receipt of a duly executed application, the Department may accept an oral application for rate service from customers taking service under residential rate schedules. In the event that an oral application is received by the Department from a person not currently a customer of record of the Department for service at a location where

service is disconnected for non-payment, the Department may request an application be made in writing at the office of the Department as a precondition for service, unless otherwise ordered by the DPU. The Department reserves the right to refuse service, at any location, to an applicant who is indebted to the Department for any service furnished to such applicant.

- 4.2. The Department reserves the right to reject any application for service if the amount or nature of the service applied for, or the distance of the premises to be served from existing, suitable gas distribution facilities, or the difficulty of access thereto is such that the estimated income from the service applied for is insufficient to yield a reasonable return to the Department, unless such application is accompanied by a cash payment or an undertaking satisfactory to the Department guaranteeing a stipulated revenue for a definite period of time, or both.
- 4.3. The Department may refuse gas service to any customer when, the building piping does not meet the minimum standards prescribed by the "Massachusetts Fuel Gas Code." This regulation shall apply to any customer regardless of whether said customer is the owner of the building or occupies it as a tenant. The department may also discontinue gas service at any premises if the owner of said premises allows the internal piping and/or the appliances served to fall into a state of disrepair so that the continuance of gas service is no longer considered by the Gas Inspector or Department to be advisable. Approval will be needed by the Gas Inspector prior to allowing reconnection of gas service. Lastly, the Department may also discontinue gas service if access is not made available as noted in item 5.1 below.
- 4.4. Whenever the estimated expenditures necessary to supply Gas to a Customer or to resume service to a Customer after a discontinuance of service for over twelve (12) months, for reasons other than the needs of the Department, shall be of such an amount that the income to be derived from gas service at the applicable rates will, in the opinion of the Department, be insufficient to warrant such expenditures, the Department may, in addition to the payments for Gas under the applicable rates, require the Customer to pay the whole or a part of such expenditures, or make such other reasonable payments as the Department may deem necessary.

**5. Equipment on the Customer's Premises**

- 5.1. The Customer shall furnish, without charge, suitable locations and enclosures upon his premises for such pipelines, meters and other apparatus and equipment as the Department may install for the purpose of supplying service. All residential dwellings shall be serviced by a single service line. The Department shall have the right of access, at all reasonable times, to the premises of the Customer for the purpose of installing, reading, inspecting, testing and keeping in repair the apparatus and equipment of the Department or for discontinuing service, or for removing any or all of its apparatus and equipment, or for the purpose of obtaining the necessary information for the proper application of the rate or rates under which service supplied.

- 5.2. For the purpose of determining the amount of gas delivered, meters shall be installed by the Department at locations to be designated by the Department. The Department may at any time and for any reason change any of its meters, including but not limited to Massachusetts Department of Public Utilities mandates. This requirement is necessary regardless of infrastructure allowing for automated meter reading capabilities.
- 5.3. The Customer shall not injure, interfere, destroy, or tamper with the meter or other property of the Department, nor suffer or permit any person so to do. The Customer shall use all reasonable precautions to protect the property of the Department located on the premises of the Customer from damage and interference and shall be responsible for all damages to, or loss of, such property of the Department unless caused by circumstances beyond the Customer's control. The Customer shall so maintain and operate its gas equipment and apparatus as not to endanger or interfere with the service of the Department.
- 5.4. The Department shall not be liable for damage to the person or property of the Customer or any other person resulting from the use of gas or the presence of the Department's apparatus and equipment on the Customer's premises.

**6. Meter Reading and Billing**

- 6.1. All bills shall be due and payable upon presentation and shall be rendered monthly; however, the Department reserves the right to read meters and render bills on a bi-monthly basis. All bills of Commercial and Industrial accounts not paid within 28 days from the date of meter reading shall bear interest at 1-1/2% per month on the unpaid balance from the date thereof until the date of payment.
- 6.2. The Customer shall be responsible for payment for all gas consumed. When the Department becomes aware of an error as a result of: (1) a faulty meter (2) meter reading error (3) billing error, the Customer Service Manager shall notify the Customer immediately of the problem. Every effort will then be made on the part of the Department to rectify the problem. If the correct billing information is available, the customer will be invoiced accordingly or the customer's usage will be estimated by the Department on the basis of available data and the customer billed accordingly. Every attempt will be made to collect a monthly physical or remote read for billing.

**7. Service Limitations**

- 7.1. The Department shall not be responsible for any failure to supply gas service nor for interruption of the supply or any damage resulting from the restoration of service, if such failure, interruption, or damage is without willful default on its part.
- 7.2. Force Majeure: The Department shall not be considered to be in default hereunder and shall be excused from furnishing natural gas hereunder if and to the extent that it shall be prevented from doing so by an event of Force Majeure. Force Majeure shall include, but not be limited to, the following: (i) physical events such as acts of God, landslides, lightning, earthquakes, fires, storms or storm warnings, such as hurricanes, which result in evacuation of the affected

area, floods, washouts, explosions, breakage or accident or necessity of repairs to machinery or equipment or lines of pipe; (ii) weather related events affecting an entire geographic region, such as low temperatures which cause freezing or failure of wells or lines of pipe; (iii) interruption and/or curtailment of Firm transportation and/or storage by Transporters; (iv) acts of others such as strikes, lockouts or other industrial disturbances, riots, sabotage, insurrections or wars; and (v) governmental actions such as necessity for compliance with any court order, law, statute, ordinance, regulation, or policy having the effect of law promulgated by a governmental authority having jurisdiction. The Department shall make reasonable efforts to avoid the adverse impacts of a Force Majeure and to resolve the event or occurrence once it has occurred in order to resume performance.

**8. Applicable Laws**

- 8.1. All such policies and regulations shall be consistent with the General Laws of the Commonwealth of Massachusetts, Chapter 164 in particular and any other applicable regulations and orders of the Massachusetts Department of Public Utilities.

**9. Purchased Power Cost**

- 9.1. The Customer shall be liable for all rates, charges and adjustments allowed for in the Schedule of Rates related to services provided to each Customer individually.
