DESCRIPTION OF ORGANIZATION

11. Briefly describe your organization.

The Pediatric Physicians' Organization at Children's, LLC (PPOC) is organized for the purposes of (i) entering into and administering contracts with payors on behalf of its health care provider members, (ii) supporting and managing the development and implementation of an interoperable EHR system and similar technology to further the integration of member providers, (iii) supporting ongoing development of a better integrated pediatric care network, and (iv) advancing patient population health management for pediatric patients. The PPOC membership currently includes 339 primary care pediatricians practicing in locations throughout Massachusetts.

TYPE OF MATERIAL CHANGE

12. Check the box that most accurately describes the proposed Material Change involving a Provider or Provider Organization:

- A Merger or affiliation with, or Acquisition of or by, a Carrier;
- A Merger with or Acquisition of or by a Hospital or a hospital system;
- Any other Acquisition, Merger, or affiliation (such as a Corporate Affiliation, Contracting Affiliation, or employment of Health Care Professionals) of, by, or with another Provider, Providers (such as multiple Health Care Professionals from the same Provider or Provider Organization), or Provider Organization that would result in an increase in annual Net Patient Service Revenue of the Provider or Provider Organization of ten million dollars or more, or in the Provider or Provider Organization having a near-majority of market share in a given service or region;
- Any Clinical Affiliation between two or more Providers or Provider Organizations that each had annual Net Patient Service Revenue of \$25 million or more in the preceding fiscal year; provided that this shall not include a Clinical Affiliation solely for the purpose of collaborating on clinical trials or graduate medical education programs; and
- Any formation of a partnership, joint venture, accountable care organization, parent corporation, management services organization, or other organization created for administering contracts with Carriers or third-party administrators or current or future contracting on behalf of one or more Providers or Provider Organizations.

13. What is the proposed effective date of the proposed Material Change? January 1, 2020

MATERIAL CHANGE NARRATIVE

14. *Briefly* describe the nature and objectives of the proposed Material Change, including any exchange of funds between the parties (such as any arrangement in which one party agrees to furnish the other party with a discount, rebate, or any other type of refund or remuneration in exchange for, or in any way related to, the provision of Health Care Services) and whether any changes in Health Care Services are anticipated in connection with the proposed Material Change:

The PPOC proposes to add two primary care pediatric groups ("Joining Practices") from the same Provider Organization, which will together result in the PPOC's annual NPSR increasing by more than \$10 million:

- (1) 17 physicians who practice as Woburn and North Andover Pediatric Associates at locations in Woburn and North Andover, and
- (2) 9 physicians who practice as Pediatric Associates of Brockton at locations in Brockton, West Bridgewater and Hanson.

As participating physicians, the 26 physicians will join certain PPOC payor contracts on or after the effective date. They also intend to participate in the pediatric-focused Tufts Health Together with Boston Children's ACO, if permitted by MassHealth.

15. *Briefly* describe the anticipated impact of the proposed Material Change, including but not limited to any anticipated impact on reimbursement rates, care referral patterns, access to needed services, and/or quality of care:

The PPOC will incorporate the Joining Practices into its quality of care and TME management initiatives, which include pediatric-focused programs related to adolescent care, asthma, patient safety, patient experience, and behavioral health integration. The Joining Practices will also participate in the PPOC's risk and non-risk contracts and in associated activities aimed at improving patient care quality and cost efficiency. The PPOC will provide support to help them perform well in these efforts. The PPOC defers to physicians' independent decision-making about the right referral for any given patient, and does not anticipate that participation in the PPOC will result in significant changes to the Joining Practices' specialty referral patterns.

DEVELOPMENT OF THE MATERIAL CHANGE

16. Describe any other Material Changes you anticipate making in the next 12 months:

The PPOC does not anticipate any further material change in the next 12 months.

17. Indicate the date and nature of any applications, forms, notices or other materials you have submitted regarding the proposed Material Change to any other state or federal agency:

None. The PPOC anticipates that the Tufts Health Together with Boston Children's ACO will submit a request to MassHealth within the next few months for the Joining Practices to become participating PCPs in the ACO.

SUPPLEMENTAL MATERIALS
