**Town of Southborough Municipal Aggregation Annual Report  
to the Massachusetts Department of Public Utilities  
December 4, 2017**

The Southborough municipal aggregation program was approved by the Department of Public Utilities on September 8, 2017, in docket no. D.P.U. 17-19. The program will launch in February 2018.

1. Competitive supplier

The competitive supplier for the program is Public Power.

2. Term of energy services agreement

The term of the energy services agreement is for the February 2018 meter readings through the February 2020 meter readings.

3. Enrollment statistics

The program has not yet launched.

4. Optional products

The program will offer an optional 100% Class I product. This product will include 87% Class I RECs over and above the RPS requirement. The incremental cost for Class I product is 1.86 cents/kWh.

5. Information disclosure

Southborough will implement a multi-faceted information disclosure strategy prior to program launch to ensure all participants are fully informed about the program, pricing, options, and their right to opt out. The information strategy will include an opt-out letter, community information sessions, a media announcement, public postings, and a program website. The details of the strategy are currently being finalized.
